Drowned at the Straits.
Mr. Will Owen, a young man of Morehead City, about seventeen years of age was drowned at the Straits, Carteret county Thursday. When found he was lying in water only six or eight inches deep. His face downward. He was subject to fits and the indication is that he ran his boat as close to the shore as the depth of the water at that place would permit and then started to wade the rest of the way and just then he was no doubt attacked by one of the fits with the fatal consequences.

Mr. Owen was engaged in buying fish for Messrs. D. Bell & Co. He was formerly of Elizabeth City. His father moved from that place to Morehead several years ago. The remains were taken to Morehead for interment.

Popularity of Our University.
A telegram to the Charlotte News and Courier from the University of North Carolina, says:
"The enthusiasm and confidence felt here are greater than since 1860. The campus is full of splendid young fellows, strong, healthy, manly and enthusiastic; Baptists, Methodists, Presbyterians, Episcopalians, Lutherans, Quakers, Jews, Moravians, Democrats, Republicans and Populists."
This is right much of a mixture and shows how popular the University is growing with every creed, class and condition under the able management of President Winston.—Clinton Democrat.

Be Careful When Convalescent.

We knew a man once—he was over 50 years of age, he was recovering from an attack of fever—and was walking about the house, and ate some chicken-pie, and died in less than six hours afterwards.

Y. M. C. A. Conference.

The annual conference of the Young Men's Christian Association of the Fourth North Carolina District will be held in this city September 22nd to 24th. The District Committee has issued the following notice:
Young Men's Christian Assn.
of 4th District, North Carolina.
Headquarters District Com.
Goldsboro, N. C., Aug. 30, '93.
To the Christian Young Men of the Fourth District, North Carolina:
DEAR BROTHERS:—It is fitting that we who love the Lord and desire to be workers in His Kingdom should meet together at times to discuss the best methods of carrying forward His work.
We, therefore, do now officially call the annual Conference of Young Men's Christian Associations of our District, for 1893, to meet at New Bern, September 22nd, 23rd and 24th. There will be present experienced Christian workers from various parts of the State, and timely topics discussed by all present. The railroads are expected to grant special rates and the people of New Bern to open their homes to your free entertainment.
Each Association should send a good delegation, every young man's meeting in the district ought to be represented, delegates are to be elected from points in which there are no regular organizations, and friends interested in the work and pastors from all points in the District are cordially invited.
Those expecting to attend should notify T. G. Wilkinson, General Secretary, New Bern, as soon as possible. Let constant prayer be made for God's presence with us and His blessing to the saving of souls. The program will be mailed soon.
Yours in Christ,
T. G. Wilkinson, Gen'l Sec'y,
H. D. Crockett, Sec'y.

On the Nantuxet.
A representative of the Messenger went on board the monitor Nantuxet yesterday and was kindly shown through by Lieutenant E. T. Walling, who was detailed to command her regular crew at Southport.

The monitor is a queer looking craft. Her deck forward is three and a half feet above water, and aft it is only two feet above. She is simply an iron fighting machine, and all of her except the turret is under water. Her sides and turret are twelve inches in thickness of laminated iron, and the conning tower is nine inches thickness of the same. The turret is revolved by the engine below. It is simply a huge iron drum, and in it are two huge 15 inch Dahlgren or smooth bore guns that take a charge of thirty-five pounds to load each, and which throw a solid projectile weighing 440 pounds, and a shell weighing 875 pounds. The distance to which these heavy projectiles can be thrown by these big guns is two miles.

The Nantuxet was a formidable vessel during the Civil war, and she took part in the bombardment at Fort Fisher, Charleston, Port Royal, etc. Her turret bears deep scars when twelve cannon balls struck her. We are told that most of them were inflicted at the battle of Fort Fisher in January, 1865. She has the original engines she had during the war. This old vessel will excite great interest when she comes up to the city.—Wilmington Messenger.

Go'd Dollars Too Cheap

Look out for the man who is trying to sell gold dollars for fifty cents. It is always safe to trust a man who is selling his advertisement—especially if the advertiser lives a long way off and you don't know much about him. You see, people know much about the value of a musical instrument and they are easily deceived by trusting a man who is selling a good instrument for a low price. You wish to buy you will be sure to get the best getting information from the Southern Music House of London, N. C., or Savannah, Ga. They are the best dealers in the South and they sell every one. Read the following notice of this issue.

The First Steamer on the Coast.
In your issue of 5th inst. you published heading "The Steamer on the Coast" corresponding to the article published was "The Steamer on the Coast" of the waters of the Pamlico and Tar rivers. He is the only one of the kind at Washington and called by the name of D. McNeil. She was the first steamer to plough the waters of the Pamlico and Tar.

After her Messrs. D. H. & R. of New Bern, had on the Pamlico and Tar rivers the Wagon, the North Star and the William P. Graham, each of these steamers ran on the Pamlico and Tar rivers, for a short time prior to the opening of the Ocean which I think was 1849. J. D. Myers in Observer-Chronicle.
