The insurgent Brazilian squadron is hemmed in the harbor at Rio and can neither get out or land troops.

The senate is deliberating. We know Senators who are very deliberate. It takes seven months to get a move on, and then they move wrong.

The debate is to go on in the senate, but the daily sessions will be longer, commencing at 11 in the morning and continuing until six in the afternoon.

"It is Mr. Cleveland's fault," Mr. Cleveland acted long ago and the senate stands still. "It does not comport with the dignity of a senator to be in a hurry," Humbug!

They are making lots of fun of us. The Standard Union says: "The condition of the Democratic party on silver repeal reminds one of the story of the steer caught on a fence, snarled at both ends, and unable to kick or hook."

Every portion of the grapevine is used in Switzerland, the stems and leaves serving as food for the cattle while the skins, after being pressed and wedged into round molds and then dried, are used for fuel.

A Berlin mechanic claims to have discovered a way of making cog wheels out of rawhide and a composition of his own, which will be noiseless in the movement and more durable than iron, or other metals.

Secretary Smith stands firmly by his pension policy. He is not opposing legitimate pensions. He is not against the old soldiers, but he is for striking from the lists shams and pretenses. He would have a pension the sure pledge of valor and patriotism.

The papers are going for Mr. Cleveland for appointing Van Allen, who spends most of his time in London, Ambassador to Rome. The Washington Post says, "Ambassador—Appoint Van Allen might compromise by having himself naturalized."

We do not understand why Mr. Simmons' appointment hangs fire in the Senate. Is it to have him company with Mr. Eliot Well, it is rather bad for a gentleman to be left alone in distress, but it is much worse for the public business to suffer from personal spite. There should be no opposition to Mr. Simmons, and we believe his confirmation will not be long delayed.

"The report that North Carolina was going to the devil, ain't so. She is not headed in that direction. It might be remarked, in passing, that whenever North Carolina goes to the devil, the rest of the country will be in shouting distance. This grand old commonwealth, famous for her mountains and low land—famous for her brave men and beautiful women, God bless 'em—has passed through the 'panic' with a proud record and the inspiring breezes of prosperity—of satisfaction and contentment—are being wafted from the mountains to the sea."

The City census shows that we now have 8,536 inhabitants. The National census gave us 7,843 in 1890. So we have gained 793, or ten per cent since that time—a very good increase.

The communication in Sunday's Journal on the fish express rates was copied from the Kingston Free Press, and was written from Morehead City. The credit thereof was accidentally omitted.

There will be special services for young people tonight at the Baptist church. All are cordially invited to attend. Rev. Thos. H. Posey of the Collegiate Institute will take part in the service. Bells ring at 8 o'clock.

Mr. W. J. Pitts, manager of the Neuse River Lumber Company at Clubfoot creek, left on the steamer New Bern to move his family from Baltimore to New Bern. They will occupy the large brick house on Graves street recently vacated by Mr. S. C. Hamilton.

Dr. Sam Windley, of Lake Landing, one of Hyde county's wealthy planters, has arrived in the city with his son and step-son Messrs. Sam Windley and Louis Swindell, to be entered at the New Bern Collegiate Institute. They will board at Mrs. S. E. Orelle's on South Front street.

The unusually good order in the theatre gallery Saturday night was very noticeable, it was just as good as in the lower portion of the house. The reason of it was the policeman whose business it was to keep order there notified all as they came that they did not intend to go around as has been the custom admonishing the noisy ones to keep quiet but that instead, the name of each one who made undue noise would be taken down and reported for trial before the mayor on Monday. This certainty of trouble, coupled possibly with some uncertainty as to what might be considered passing the allowable limits had a very calming effect.

Mr. Kaiser who has charge of the musical studies and vocal culture of the Collegiate Institute and Graded school, having the intention of rendering this winter an Oratorio, a very elaborate work of musical art, he requests all parents who have children of the ages from nine to thirteen inclusive, to let them join this large chorus of children, who will be carefully trained in the art of singing during the coming winter without any charges. The early training of children in the art of vocal music is not only of great importance from an artistic point of view but also a "Life Preserver" to them; it strengthens the lungs, prevents many an evil disease such as Catarrh, coughs, consumption, and all kinds of throat diseases.

The girl who doesn't think, let them too for parents think for her.

REV. E. M. FORBES.

This Aged Servant of the Lord has Gone to His Reward.

Rev. E. M. Forbes, the oldest Episcopal minister in North Carolina, died yesterday morning at his home in Beaufort in the 83d year of his age. He was born in New Bern in March 1811.

Mr. Forbes became rector of the Christ church in New Bern on January 1st, 1866, and on the 4th of December, 1886, he tendered his resignation to go into effect the first of January, 1887, which exactly completed the eleventh year of his ministry as rector of this parish.

Though Mr. Forbes had resigned the parish he continued to serve by desire of the vestry until his successor was secured and had arrived. Rev. Chas. S. Hale, formerly of Buffalo, New York, succeeded him on the 7th of October, 1877, and shortly after this Mr. Forbes moved to Beaufort and served as rector of the church in that place until the spring of the present year, when his increasing age and feebleness rendered it necessary that he should cast aside some of his cares and responsibilities and be retired from a direct charge being succeeded by Rev. Wm. Matthias, D. D. He still continued to labor however to the extent of his ability in mission work in that city.

Previous to the war Mr. Forbes was awhile in Mobile, Ala., and New York. He also served in Elizabeth City and surrounding country and other parts of the State.

Mr. Forbes was small and feeble but energetic in disposition and with force of character. He was a benevolent man doing many acts of kindness—in some cases long continued, but still in a modest unassuming way.

New Bern was the early home of Mr. Forbes and also of his father before him. The latter, Mr. Stephen Forbes was Clerk of the Superior court here for nearly half a century.

The remains of Mr. Forbes will be brought to the city on this morning's train.

The funeral service will be held this afternoon from Christ church at 4:30 p. m. Bishop Watson who arrived last night will take part in conducting it.

Y. M. C. A. Convention Ended. Sunday closed the Y. M. C. A. District Conference.

The meeting at the market dock was largely attended and very interesting.

There were over fifty boys at the meeting for them in the afternoon and between one and two hundred attendants in the men's meeting at 5:30 o'clock.

At the latter meeting Mr. L. A. Coulter made an exceedingly impressive talk on the sins into which young men are most specially liable to fall.

The Union meeting at the Presbyterian church at night was well attended and the Association work discussed along the several lines in which it aims to benefit.

A collection was taken up in the Hall in the afternoon to defray the necessary expense of the convention and a very good sum was subscribed at the night service to be applied to defraying the indebtedness of the association.

Jewish Confirmation.

In connection with the celebration of the feast of Tabernacles, the four Jewish maidens of whom we spoke Sunday, made a public confession of the Jewish faith.

Many of our people attended. The hall was crowded to the doors and would not contain those who sought admission. The confirmation services lasted about three quarters of an hour.

The young ladies acquitted themselves grandly throughout. The ceremony it is considered by all who witnessed the very impressive and among the most beautiful they had ever seen.

The floral decorations of the occasion were of the finest and they were also profuse and arranged with the best of taste.

Coming and Going.

Mr. J. S. Mann went up to Raleigh on professional business.

Messrs. Wm. Clark, Owen Guion and W. D. McIver, went up to Raleigh to attend Supreme court.

Mrs. John Duke, of Wilmington is visiting Mrs. C. Follman.

Mr. Geo. Allen, Agent of the Mechanics and Investors Union who has been in the city a week in the interest of the organization went down to work in Morehead City in behalf of it.

Mr. J. H. Crabtree who has been spending several months in Asheville and at Connelly Springs is back home.

TRAFFIC—KILLING RATES.

A. & N. C. R. R. TO BLAME.

It Charges the Express Company Higher Than Any Other Road in the Union for Equal Service.

ED. JOURNAL.—We have read the article in your issue of the 24th, written, we think, by an official of the A. & N. C. R. R., in reply to one signed by us that appeared in your issue of the 11th. In answer, we say that we do not now believe that the blame for the high rates charged by the Southern Express Company rests solely upon them, as we are reliably informed by parties living in New Bern, that they have tried to get the rates reduced by the Express company, and the answer has invariably been that owing to the high rates charged them by the A. & N. C. Road, it was impossible for them to take express matter at any lower rates. This statement we believe to be true, and in common with the entire community will continue so to believe, until we can arrive to a perfect knowledge of the rates charged by the A. & N. C. Road to the Southern Express Company and compare them with the rates charged to said company by the road from Washington, N. C.

To illustrate the effect of the high rates charged by the Southern Express Company to our fish dealers, we will state, that during the past week two of our fish dealers made a shipment of fish north; had they have been charged the same rates charged from Washington, the saving of freight to them would have amounted to sixty dollars, or had they been shipped the steamer Neuse the saving would have been \$130.

We know that the Southern Express Company is a monopoly, and New Bern, as a gentleman from abroad said to us, has been a gold mine to it; and we also know that the excessive rates charged by it is due to the high rates they pay to the A. & N. C. road for transportation, higher than paid to any other road in the United States for the same distance run.

As to Mr. Plant, the head of the Southern Express Company we do not know him but learn that he is a Connecticut gentleman and have also heard that he has been a great factor in the building up of Florida, wrought wonderful changes, and made the most undesirable part of the United States blossom as the rose, and we wish that we had him, or some other Connecticut Yankee to operate around here, particularly in the management of the affairs of our railroads in Eastern North Carolina instead of such management as we have suffered under for many years.

The railroad official in your issue of the 24th claims that the A. & N. C. Road is not to blame for the high fish rates charged, but that the blame rests upon the Southern Express Company. Now, Mr. Editor, your correspondent as a railroad official, should know something of what he writes; does he not know that his statement that the Southern Express Company is to blame cannot be sustained? he says the Express Company's charges from New Bern to Goldsboro, sixty miles, on a box of fish is only 75 cents, he might also have told us that the charge from Morehead City to Newport, a distance of 11 miles is only 75 cents, and from Morehead City to New Bern 36 miles, only 75 cents, and from New Bern to Kingston 25 miles only 75 cents, of which the Railroad gets, as he says, 50 cents. Now, Mr. Editor, bear in mind, that the distance from Washington to Goldsboro is over 100 miles and the rate charged is 85 cents. He says the Express Company is responsible for all of these high rates.

Will he tell us how the Express Company can help it, when, as he says, the Express Company pays the R. R. Co. 50 cents per box.

And then, as he well knows, pay the expense of loading and unloading and a messenger and agents to transact the business, all out of this 25 cents.

Will he also tell us why the Atlantic & N. C. Road charge the fish dealers 45 cents per box of fish, common freight from Morehead City to New Bern, 80 cents per four barrel and 75 cents per sugar barrel, while the freight from New Bern to New York by E. C. D. Line is but 75 cents per box and \$1.50 per sugar barrel; we ask, is the Southern Express Company responsible for this. It is a well known fact that the Southern Express Co. has been obliged to pay the A. & N. C. R. higher rates than any road in their territory, and we defy the management of the road to disprove it.

We have learned that the A. & N. C. R. refused to make any arrangement with the Coast Line, as they were under contract to carry fish only by Express—this may or may not be true; but we think it is true.

Something ought to be done to mitigate this great evil and that speedily and place the blame where it belongs, if the Southern Express Company is not the cause the head superintendent should deny the charge, and if the road is not to blame, the fact should be promulgated to the community.

We know nothing about the rates of charges from Georgetown, S. C., whatever they may be, they have nothing to do with the issue between our fish dealers and the A. & N. C. Road. As to the shipment made by our fish dealers, the past week, alluded to in the first of this article, we omitted to state had the rates been as low as they are from Washington, their loss in consequence of the low market would have been much less; the shippers found it hard to buck up against the sixty dollar bonus in freight given to the shippers in Washington, by the Express Company, they can afford it owing to the low rates charged them by the road from Washington.

Pains and Aches.

We all have pains and aches, but they needn't last long—not any longer than it takes to put on an Alcock's Porous Plaster. The only thing to look out for is that you get the right plaster. There are others, but you don't want them; take our word for it, for when you need a plaster you need it, and there's no time for experimenting and finding out mistakes then. Ask for Alcock's Porous Plasters and see that you get them. If they say that some other is just as good, tell them that only the best is good enough for you. Alcock's Porous Plasters are quick and sure, and acknowledged by the highest medical authorities and everybody else to be the best outside remedy for pains and aches of every description.

It is no money in your pocket to fail to make your stables comfortable.

The Weakest Spot

In your whole system, perhaps, is the liver. If that doesn't do its work of purifying the blood, more troubles come from it than you can remember. Dr. Pierce's Golden Medical Discovery acts upon this weak spot as nothing else can. It rouses it up to healthy, natural action. By thoroughly purifying the blood, it reaches builds up, and invigorates every part of the system.

For all diseases that depend on the liver or the blood—Dyspepsia, Indigestion, Biliousness; every form of Scrofula, even Consumption (or lung Scrofula) in its earlier stages; and the most stubborn Skin and Scalp Diseases, the "Discovery" is the only remedy so unfailing and effective that it can be guaranteed.

If it doesn't benefit or cure, you have your money back.

Mechanics and Investors Union.

George Allen who is Secretary and General Manager of the Mechanics and Investors Union is in the city arranging to organize a Branch of the Company in this place.

This Association was organized by a number of the leading business men of Raleigh, as a National Association. It is a Savings Bank and a Building and Loan Association, with Insurance features for all members. Mr. Allen will be pleased to explain the plan, and to secure members.
