The New York Herald announces that it will print pictures of the prettiest babies in America in its Sunday issue. It will have to print several million if it does that. Who ever heard of a baby that wasn't the prettiest?  
A man who had taken laudanum was admitted to the Pennsylvania Hospital on Wednesday. When asked why he attempted suicide he replied that he was despondent because his wife was out of work. If the fellow fortunate dies the good woman will probably be able to support herself. Many women have a tough time at best, but when in addition to other troubles they have worthless men on their hands it is awful.  
Mr. W. M. Terry, who has been in the drug business at Elkton, Ky., for the past twelve years, says: "Chambers' Colic Remedy gives better satisfaction than any other cough medicine I have ever sold." There is no reason for this. No other medicine will cure so quickly as others. It is a preventive and cures the most dangerous other ailments so much better than any other cough medicine. For sale by J. F. Taylor.

The Voorhees bill passed the Senate by a majority of eleven. It now goes to the House. Ransom voted for the bill, Vance against it.  
Messrs. Watson & Daniels made the largest shipment of green peas yesterday, 188 boxes, Mr. J. L. Rhen sent off 64 boxes and Mr. J. McSorley 24, a total of 276 boxes. The steamer New Berne took them out.  
A purse containing nearly \$300 was lost on the street yesterday. It was found by Mr. M. E. Whitehurst's little son George, and the owner, a gentleman in the city on business, traced by Mr. Whitehurst and made happy by the return of his property.

Memorial services in honor of the late Rev. J. C. Pice, D. D., Col., President of Livingstone College will be held in St. Peter's A. M. E. Z. church Sunday at 8 o'clock in the afternoon. All citizens of both races are invited to attend these services.  
Today being All Saints Day there will be service with Holy Communion at 11 o'clock. The annual meeting of the Service Society will be held at 8 p. m. in the church. A full attendance of all members and other interested is earnestly requested.  
The seeming rally of Mrs. Alice Roper in the early part of Monday night was deceptive. After the hopes of friends were strongly raised she became worse and despite all efforts in her behalf, she expired at quarter past three Tuesday morning. She was buried in the afternoon, the funeral being held from Hancock street M. E. Church.  
Eureka Lodge No. 7, I. O. O. F. of New Berne sent off twenty-five dollars yesterday to the Brunswick yellow fever sufferers. The generosity of the gift will be better appreciated when it is remembered that the members had contributed as citizens to the general fund that was sent from here last week to Brunswick.  
The electric street railway company have been granted an extension of time and have a justified bond accordingly. According to present arrangements they are to have the street cars running by the 1st of February, 1894. The extension is granted to enable the company to put in a new and better system which does away with the wires overhead.  
A merry time was had by those who attended the Halloween party yesterday evening gotten up by the S. W. L. Society. There was bobbing for apples, the Dutch doll, the holly branch, frying griddle cakes—other methods of fortune telling and ways of having sport, carried out in a very lively manner. Confectionaries were distributed freely, and a delightful time had in general.  
Capt. Andrew Gatlin's new river steamer which he has been building at Vaseboro to take the place of the old steamer Carolina which gave out has been brought down to the city for finishing. She is 90 feet long and 28 feet across the deck and will doubt prove a good serviceable boat. The machinery used is the same as that in the Carolina and the new boat bears the same name.  
As the steamer Nettie W. was coming down Neuse River yesterday, it was discovered that she was on fire—had caught by sparks from the stack. It happened just before she got to Harris' landing and the crew put it near enough out that they could come on to the city, where the fire was looked after thoroughly. Some of the men were in close places. She had 25 bales of cotton and 25 thousand shingles on board, but very little damage was done.

**It Should Not Be So.**  
Goldboro, Oct. 27.  
Mr. Edron.—In passing through your city today I notice another glaring imposition of the Express Company upon the fish and oyster dealers of New Berne and Morehead City.  
Fifty-six boxes of fish, shipped to various points in North and South Carolina, Virginia and West Virginia, was left standing along the railroad track in the hot broiling sun for two hours, while the water from the melted ice ran to the carbing. This will leave the fish unfit for use at their destination, and entail great loss in money and reputation to the shippers. Is there not some redress for such wrong?  
From reliable authority, I learn the same thing happened yesterday, and it appears to me that the rate charged by the express company should make them liable for pecuniary damages in the matter. I am convinced any effort the Argus may make to right this wrong will be greatly appreciated by the entire fish interests of the State.  
A. HATCHETT.  
The above is timely and meets with the entire approval of the Argus, which has frequently in the past complained of this same thing. We ask our correspondent "Is there not some redress for such wrong?"—Goldboro Argus.  
The above letter said comment from the Argus presents plainly and sharply to the public a shameful condition of affairs in the express line of public service. One of the fish dealers of New Berne tells us this is no new thing; it has been going on for years and the matter has over and over again been called to the express company's attention but nothing has ever been done but unquestionably in the weather the fish should either be transferred direct from one car to the other, or protected by a permanent or temporary shelter placed where needed.  
Instead of this care to be taken, fish have been shipped from New Berne in elegant condition with ice sufficient, if handled properly, to carry them to Boston, and when the fish would leave Goldboro there would be no ice in them. Not only would they be left out in the hot broiling sun on such warm days as last Friday but also during the excessive heat of midsummer, that would not take long to leave no ice in such a box if ever filled to the brim with nothing else.  
As the correspondent of the Argus says, this lack of care on the part of the express company entails on the shipper, loss of his fish, loss to a certain extent of his reputation for getting his stock to his customers in good condition, and loss of the freight charges, for whatever happens the Express company demands and collects its charges whether the fish spoil or not.  
On the matter of high rates and discriminating rates, the express company may squirm and lay the blame on the railroads, for not giving the company better terms so they could pass it on to the shipper, but in this case such will not work, this fault lies in the express company and they must shoulder the blame. Having entered into the agreement and being paid for the service they are in honor bound to care for what is entrusted to them while in transit and if they are not legally bound it is hoped that the day is not far distant when they will be. The attention of the railroad commission is needed.  
**Coming and Going.**  
Messrs. W. W. Clarke and P. H. Pelletier returned last night from Jones county court.  
Mr. Graham Daves returned from a visit to relatives at Wilmington.  
Mr. and Mrs. Lewis Brown, Miss Gertrude Brown, Mr. Lewis B. Brown, Jr., and Mr. Charter W. Puritan came in on the steamer Neuse and left last night by rail for Beaufort to spend the winter at Miss Sarah Davis'.  
Mr. Geo. L. Morton, of Wilmington came in last night to spend a day or two in the city on business and pleasure. Mrs. Morton accompanied him. They are stopping at Hotel Albert.  
An exchange states that at the A. & M. College a brick building is being erected to be used as a dairy, and that the water is to be taken from a spring near by. No mention is made of where the milk is to come from.  
The match game of foot ball for the championship of the State came off at Durham Saturday. Trinity won by a score of 6 to 4. It was thought to be the finest game ever played in the State.  
The Goldboro Argus speaks as follows concerning our present truck shipments: "Daily shipments of green peas and Irish potatoes—second crop—are coming up by freight from Newbern and going north. Truly is North Carolina—and eastern North Carolina in particular—especially favored. We have the greatest State in the Union."  
"It is better to wear a good overcoat than a gold watch."  
If you can't afford both by all means get the overcoat and when you need it give us a trial; we may have the very thing you are looking for. Do you need any winter underwear, if so we have what you want, and at as close a price as they can be got for in the city. Remember we are the only men's furnishing store in the city that makes this branch of business exclusive.

**A Chicken Freak.**  
We have seen and read of many curiosities in the chicken line, but the M. & L. now has in its possession the greatest monstrosity of the sort on record. The chicken was presented to us a day or two ago by Mr. L. L. Little, a Littleville townshipp.  
There is no doubt in the world that it is a hen, or a leaded hen, as on them and raised a brood of chickens last spring. Up to that time there was nothing in her appearance that would distinguish her from any other hen, but soon afterward she began shedding and the new feathers that took the place of the old ones were as brilliant in hue as was ever the plumage of the proudest rooster.  
The hen now, except her head, which is still that of a hen, is as perfect a rooster in appearance as was ever seen. Indeed, if it were not for the undoubted evidence that it was a hen, it would be impossible to believe that such was the fact. Her plumage is almost exactly the color of that spotted by the handsomest of brown leghorn roosters.—Wadesboro Messenger-Intelligencer.  
**Why He Went into the Army.**  
When Charles Dudley Warner was the editor of the Hartford (Conn.) Press, back in the sixties, arousing the patriotism of the State by his vigorous appeals, one of the newspapermen came in from the composing-room, and planting himself before the editor, said: "Well, Mr. Warner, I've decided to enlist in the army."  
With mingled sensations of pride and responsibility, Mr. Warner replied encouragingly that he was glad to see that the man felt the call of duty. "Oh, it isn't that," said the truthful compositor, "but I'd rather be shot than try to set any more of your copy." And no-body enjoys telling the story more than the brilliant author of "My Summer in a Garden."—Troy Times.  
The Wilkesboro News says: "Last Friday Mr. Thos. Southerlin, of Ashe, shipped seven cars loaded with cattle from this place. Five of the cars were loaded with the finest two-year olds ever seen in this part of the country. We understand that about three hundred head will be shipped from here Saturday. This is a great shipping point."  
The Best Plaster.—Dampen a piece of flannel with Chamberlain's Pain Balm and bind it on over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades, will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. 50 cent bottles for sale by J. V. Jordan.
