Presbyterians in Office. It is said that the only comment ex-President Harrison made upon Mr. Cleveland's Cabinet while on his journey home was that, "with one exception, every member is a Presbyterian." That exception in Mr. Cattell, who is not a member of any church, but who, like the chief, is inclined to the Presbyterian church.

An old politician who has looked into the question says that there are more Presbyterians in both Houses than representatives of any other churches and that he could name more than a dozen States whose governors were Presbyterians.

When asked how he accounted for the Presbyterian predominance in the conduct of public office, he playfully remarked, "They believe in election."—Norfolk Public Ledger.

The Progressive Age of Aurora, Dr. J. W. Chapin, editor and proprietor has made its first visit to this office. It is a neat and creditable paper. It starts off Mr. R. R. Hill of this city as foreman.

And now it seems that that the Corbett Mitch light proposed at Jacksonville, Fla., is again to be foiled. The ministers of that city are up in arms against it, and are getting up petitions that it be not allowed to take place there.

The Washington Progress says: "We are informed that oysters are being dredged in Pamlico sound and taken to Virginia. If this information is correct, the dredging ought to be stopped at once. They should be reported to the Shell-Fish Commission."

There is a lesson in the result of the late elections, which, if properly learned, will redound the lasting good of the Democratic party and the county at large. It will not do to deceive the people, or attempt to lead them with a halter. Boss rule has received a stunning blow from which it will not soon recover.

Edgland wants peace in Brazil. Her interests are in danger and she appeals to the United States, through her Ambassador, to exercise a mediatory influence. There is no intimation what answer this government will give. Mello's situation is said to be desperate, and the end is thought to be near.

We hope to see the water works pushed forward as rapidly as possible. It is not only a great convenience but almost a necessity for New Berne and the wonder is that they have not been established years ago. The pump water we have is neither suited for drinking or washing and cisterns are very dangerous when allowed to become foule.

The Stinson Lumber Company are building another shed for the storage of kiln-dried lumber. It is 40x90 feet. One side of it borders on Neuse river, another on a branch of the W. N. & N. R. R. This mill has a remarkably favorable location touching as it does, a railroad on each side and a large river at the rear, proving fine outlets in three directions.

The Goldsboro Argus says Mr. William Martin, the champion 6 day bicycle rider and record breaker of the world, having made 1,466 miles in 6 days, and Mr. Frank Albert, the 100 mile champion of the United States, passed that city on their wheels en route to Mexico from New York. They covered the distance from Wilson to Goldsboro, 30 miles in two hours and a half. Mr. Martin rides a "Liberty" wheel, 25 pounds weight and Mr. Albert rides a Lyndhurst, 22 pounds. They are both in good spirits and clever fellows withal. They will stop at Savannah where they will make an attempt to lower their records.

Isaac Smith, Col., vs. B. & L. Association of Syracuse.

The case of Isaac H. Smith, col., vs. the Provident Building & Loan Association of Syracuse, N. Y., for \$56,800 have finished taking the testimony, heard the argument of counsels on both sides and now have the matter under consideration. They will make the report to the approaching term of Superior court and if the report is not objected to, it will stand. If it is objected the case will be newly tried.

The referees are W. R. Allen of Goldsboro and R. T. Gray of Raleigh.

Smith claims to have sold as agent 56,800 shares of stock in the Association that he sold 28,000 shares in a day, the first payment on which of one dollar each he was entitled to keep as agent, but that the company refused to accept the shares and he had to refund the money to the parties. The trial was held in Mr. O. H. Givens office.

Messrs. Stevenson and Guion of the city and Pearsall of Trenton represented the company, and Messrs. Simmons, Clark and Pelletier for Smith. The taking of testimony was begun Wednesday morning and concluded Thursday—Thursday night the case was argued. This lasted until midnight.

A gentleman of another city who was present as a spectator, who has heard lawyers of great note pitted against each other, declares that he never witnessed a finer display of legal acumen, than was there displayed. All the speeches would have done credit to any city.

The referees have not yet made their decision and it will take until court anyway to finally dispose of the case.

Wrong Use of Prescribing Power.

It seems from the Kinston Free Press that a couple of Kinston doctors may get into a little trouble from being too free in prescribing whiskey. The reason is that Mr. Geo. R. Simmons, a vigorous man, got drunk on such a prescription, on Sunday, the 4th inst, resisted arrest and with his pocket knife cut two policemen, Policeman Harrell on the arm to the bone and Policeman Ballard on the jaw clear through.

The Free Press goes on to state that one of the policemen has got hold of eight prescriptions all given by two doctors of that town, the least quantity one is for being a pint, and some of them for a quart.

The Free Press argues that if the physicians disguise the cases of vigorous men for which they prescribe such quantities of whiskey, the only reasonable conclusion is that they are incompetent and not entitled to practice and that on the other hand if they give prescriptions on Sunday without making proper disguises they are violating the law in assisting at liquor traffic on the Sabbath. It is understood that the names of the two physicians will be presented to the grand jury next week.

Three Men Drowned.

The schooner Mollie B. Capt. Jas. Bell, col., was turned over by the gale of Wednesday morning two miles from Cherry Point, Neuse River while bringing a load of wood to New Berne and broken to pieces.

Five men were aboard. The captain and another colored man escaped—one by clinging to the bottom of the little skiff, the other by clinging to a piece of the boat.

Two colored men, Lewis Willowby and Cull Willowby were drowned. The body of the former was recovered that of the latter has not been found. They lived at Clubfoot creek.

Mr. A. N. Weaver, a northern gentleman and proprietor of a saw mill at Cherry Point was also aboard and was drowned. He moved here, we believe from Connecticut about three years ago. He was about 35 years of age and was not a man of family. His body at last accounts had not been found.

Week of Prayer for the Y. M. C. A.

The week of prayer for young men appointed by the Inter-National Committee of the Young Men's Christian Association begins Nov. 12th. Most of the pastors in the city will preach a sermon especially to young men on Sunday night. This will take the place of the Union meeting which is usually held at the beginning of the week.

Services will be held at the Y. M. C. A. Hall lasting from one half to three quarters of an hour each night during the week, beginning at 8:15 o'clock.

It is thought best to have the service later than the usual hour in order that men may attend after the stores have closed.

The leaders for the meetings will be announced later.

Unanswerable Demonstration.

We have received and read with a degree of wonder and surprise, a publication recently issued by the Humphreys' Medicine Co., New York. It contains nearly a thousand testimonials of the efficacy of Humphreys' Specifics.

These testimonials are the unsolicited offerings of those who have experienced and witnessed the wonderful curative effects of these Specifics. There are some three hundred from Publishers and Editors, one hundred from Dealers, and others from every grade of society, and all with one accord tell the same story the wonderful curative effects of Humphreys' Specifics.

Surely one thing is settled beyond controversy—Humphreys' Specifics do cure. So say the papers. So say we all. Send to the Company for a copy and read "What People Say."

"A thing done when thought of, is never forgotten."

Now just as soon as you think of something you need in our line call and get it. Then you will be certain not to forget it.
