COTTON SALES.
Tuesday—64 bales at 6 1-2 to 7.30.

The Directors of the Y. M. C. A. will
meet tonight at 8 o'clock.
The series of services at the Disciples
Church will be continued all this week
and probably longer.
Some of the finest oysters ever in New
Bern were brought over from New Ber-
ne yesterday. It was a select lot for Ho-
tel Albert.

The Physical Culture class will meet in
the Y. M. C. A. Hall tonight at 8 o'clock.
The mattresses are now ready. Mr.
McSorley will be on hand.

An opportunity seldom offered to get
bargains in stock occurs today. Mr. S.
R. Street is to auction off 20 mules in
front of Hahn's stables. The sale com-
mences at 11 o'clock.

Two boat loads of oysters received at
the market yesterday were sent back by
the inspector on account of having a great-
er proportion of small oysters than the
law allows.

The Winston Republic says that for
some time now the Arista Cotton Mills of
E. & H. Fries, Salem, have been filling
orders for colored goods for Brazil and
Brown sluchings for China. During the
previous three months run continuously and
on full time.

Mr. C. D. Bradham purchased from a
Hyde county farmer yesterday over 2,000
bushels of oats. He received and stored
them yesterday. This looks like some of
our farmers are getting down to raising
home supplies and surplus of them in
good earnest.

An evidence of the plentifulness of
game in this section is found in the fact
that one gentleman, Mr. J. M. Gorrell of
Havelock has shipped six deer to New
York (two alive and four dead), and he
has also shipped four bears, and so well
satisfied is Mr. Gorrell of success when
hunting that he stands ready to take
orders for venison when wanted.

A farmer's institute is to be held by
Mr. John Robinson, commissioner of
Agriculture, and Prof. W. F. Massey of
the Experiment Station to hold a farm-
er's institute at Whiteville, November
24th for the farmers of Columbus county
and the surrounding country. Good will
doubtless come of the movement.

A farmer near Charlotte after reading
Congressman Alexander's article on beet
culture, went out to his garden, and dug
some of his big beets. One that he sent
to the Observer weighed thirteen pounds
and measured twenty-seven inches in
length. Mr. Phillips, the grower says
that as good beets can be raised here as
anywhere.

A telegram from London to the
Washington Post gives an unparalleled
record of maritime disasters from a
great three days storm raging over the
Atlantic sea, the Bay of Biscay, the Medi-
terranean sea and along the coast of Hol-
land. 144 wrecks were reported on the
20th, coupled with fatalities. This is the
highest loss in that length of time
ever known. The worst storm previous-
ly was in 1873 when 120 vessels were lost
in a day.

AMONG OUR FARMERS.
**Home Supplies—Diversified Crops and
Their Good Effects in General.**
Mr. J. M. Gorrell, of Havelock, informs
us of a remarkable yield of a little spot
of ground he had planted in sweet po-
tatoes. He raised a hundred bushels on
a quarter of an acre with no manure.
Last year the ground was planted in
rutabagas and they were manured with
stable manure. This is a fine showing.
Such reports as the above pre-
sents satisfactory proof to our mind that
the easiest way for farmers to permanen-
ly enrich their land is to do it with com-
post produced on the farm, and in no
way can this be accomplished so readily
as by paying more attention to raising all
kinds of stock, feeding them with the
products of the farm.
We do not know the extent of atten-
tion Mr. Gorrell gives to stock, but we do
know, that unlike man a farmer, he has
abundance of feed for all he owns and
many more. We see evidence of this
fact in his placing on our markets year
after year tons and tons of well
cured and well baled hay of different
kinds, pure native crab grass hay, being
the kind in which he takes the lead. Of
this one kind he has raised and housed
this season, a hundred tons, one of our
livestly stable firms, Messrs. M. Hahn &
Co., believing in home enter-
prise have bought ten tons of it for their
use.
Corn and other feed products are pro-
duced by Mr. Gorrell in excess of his
needs.
Mr. Gorrell, as our readers know, is not
alone in his methods of farming as far as
looking out for home wants is concerned.
Our farmers have never raised so much
hay as this season; the same can be said
of the fall crop of Irish potatoes, and
very many of the farmers have done well
in the raising of everything that their
farm could produce needed for home use.
It is an interesting sight to view the
farms near the city. Though some of the
fields have cotton standing waiting for
the last picking, and all the corn has not
been housed yet, still much of the work
that is going on would look to many a
visitor more like spring than fall pro-
ceedings.
Great fields which a few weeks ago
were luxuriant with a dense growth of
hay are now bare of it, and many of them
are plowed in preparation of crops ready
to occupy the ground for spring ship-
ment have begun to be set out and great
beds of them can be seen ready for trans-
planting to the fields; winter cabbages
are doing well, and in a short time will
be ready for shipping; large fields of
rutabagas and white turnips are in their
prime, spinach is starting off nicely and
celery is banked for bleaching and now
then a field of rye can be seen just start-
ing into growth. To these diversified crops
and the tendency among our agriculturist
to still further diversify coupled with the
general adoption of the intensive system
of farming is largely attributable the
prosperity that is coming to this section
and attracting the attention
of outsiders. Although we are not intirely
exempt from the business depression that
has fallen upon the entire country we
have the word of numbers who have been
to other places and by personal observa-
tion and business dealings obtained an in-
sight into the state of affairs here and
elsewhere, that our little city compares
favorably with any. Slowly but steadily
we are going forward to improved
methods with a natural resultant
appreciation on value of both city and
country property. New Bern has a
future here and capital will do well to
see her advantage and prospects when
desirous of making investments in man-
ufacturing enterprise (for which there is
the greatest opening) or any other. Few
places can equal much less surpass us in
natural advantages and those who
pluckily lead the way in taking advan-
tage of them will reap a correspondingly
rich reward for there business sagacity
and enterprise.

We have heard some people assert their
belief that an ear of corn could not be
found that would measure a foot in length,
and tell of their experience in trying ears
that to appearance were that long, but
when the measure was applied, they
would fall a little short. The Stately
News however tells that Mr. B. H. Carter,
who lives a few miles from Albemarle has
raised some this year that measure thirteen
inches in length. The editor says it is
the finest corn he has ever seen, and that
the grower has some of the finest cattle in
the country. Stock and food products
go well together and make prosperous
farmers.

All over the country the farmers are
bragging on their crops. The Wilson
Advance says that Mr. J. T. Lewis, of
Wilson county, planted two acres in
potatoes this year. From these two acres
he dug between six and seven hundred
bushels. He did not gather the smallest,
but only those of mature growth. Mr.
Lewis estimates that fully one hundred
bushels were left in the field after he had
gathered 500 bushels. And yet the
famous complaint that they cannot live
on the farms. Allowing thirty cents to
the bushel the crop from these two acres
would bring \$150.

Some parents take their chil-
dren to see the procession, and
then whip them if they want to
go to the circus.

KINSTON CORRESPONDENCE.
Condensed News on Various Lines.
Court adjourned yesterday over Mon-
day. There are a few more criminal cases
on the docket to be disposed of before
the civil docket will be reached. The
case of George Simmons will be heard
perhaps Monday.
NEW BUILDINGS.
The A. C. Line have put up a cotton
seed storage house at their depot. A
new residence is going up on Mrs. Hart-
field lot on Caswell street. Dr. Lewis'
school building has been begun on King
street.
MISCELLANEOUS.
S. L. Smith has begun the manufacture
of mattresses of fine quality in the house
recently used by the Randolph Carriage
Works near the A. & N. C. R. Depot.
His place is also a hospital for broken
legged chairs and broken ribbed um-
brellas. He is a useful citizen.
The partridge hunters are slaughtering
the birds now. Two young ladies in
town have quail for breakfast nearly
every day. It is good to be popular
with a first class shot.
Fish are scarce, but the Onslow carts
have commenced running again and New
River oysters and mulllets go off like hot
cakes.
A slight fire caused the alarm bell to
be sounded Saturday at 10 a. m. The
roof of Isaac Perry's residence had a
small place burnt in it.
Marriage bells will ring Wednesday at
8:30 p. m. for the happy union of Miss
Lena Fields and Mr. Hickson, Methodist
Church. Admission by card.
There is a very appreciable depression
in business here now.
The new post office furniture is up,
and presents an elegant appearance. The
lock boxes are a delight.
Our own truckers furnish us now with
our winter supply of Irish potatoes and
cabbage. NOTAR.
Hebrew Festival to-day and Night.
The Hebrew Festival held by the Ladies
of the Aid Society for raising
funds towards building a house of wor-
ship for those of their faith in the city
commences this afternoon at half-past
three o'clock and lasts through the even-
ing hours.
The purpose of the Festival is a worthy
one and deserves patronage on its merits,
and moreover it is the first gathering of its
kind by these ladies and special prepa-
rations have been made in the way of well
decorating the room and having novelties
for pastime, and abundance and variety
of refreshments to insure an enjoyable
evening for all.
There should be a large attendance and
there no doubt will be.
Coming and Going.
Mr. W. D. Barrington left yesterday
morning for the northern markets to re-
plenish his stock of dry goods.
Mr. W. F. Black of Oxford, who has
been spending a few days in the city left
for his home in Oxford.
Mr. S. C. Hamilton returned last night
from Asheville.
Miss Annie Taylor and Miss Pearl Wal-
lace have returned from a brief visit at
Adams creek. The former is visiting at
Capt. G. W. Wallace's.
Mrs. M. D. Nelson and Miss Annie
Routhless, who have been away spending
the summer, returned home last night.
A tired woman, just as much as a sick
and alling one, needs Dr. Pierce's Favor-
ite Prescription. That builds up, strength-
ens, and invigorates the entire female
system. It regulates and promotes all the
proper functions of womanhood, improves
digestion, enriches the blood, dispels acies
and pains melancholy and nervousness,
brings refreshing sleep, and restores health
and strength.
It's a powerful restorative tonic and
soothing nerve, made especially for
woman's needs, and the only guaranteed
remedy for woman's weakness and all
menstrual irregularities, if it ever fails to benefit or
cure, you have your money back.
A great many medicines "relieve" Catarrh
in the head. That means that it's driven
from the head into the throat and lungs.
But by its mild, soothing, cleansing
and healing properties, Dr. Sage's Catarrh
Remedy perfectly and permanently cures.
Millo, the Brazilian rebel, is considered
near defeat. His fleet has been scattered
and his single fort silenced. An authentic
denial has been made of the report that
Don Pedro's grandson had been pro-
claimed emperor. The young prince is at
school at Vienna.
"It is never too late to mend."
This saying will do very well
when applied to conduct or habit
but it is "way off" when applied to
Clothing or Shoes. There is a time
when it is too late to mend them.
The idea is to get Clothing and
Shoes that will not have to be con-
stantly "mended." That's the
kind we try to get and sell. Do
you need any winter Underwear if
you call and see us. Full line of
Canton Flannel Drawers, all sizes,
price 50c., they are good one's top.

Prof. Santanelli.
On Friday and Saturday nights at the
Opera House, Santanelli, the man of
mystic power, will show the effects of
that strange power known as Hypnotism,
and how, by the simple passing of his
hand before a persons face he can cause
the strangest metamorphosis to instantly
take place. At command Santanelli
makes the young decrepid, the old trans-
formed into children, men turned to
women and vice versa. Illiterate people
are translated into erudite beings with a
fund of knowledge wonderful to hear.
In fact Santanelli produces miracles of
the most startling kind. Pleasant fancies
are caused to appear and disappear.
Cold, heat or pain is produced or ex-
pelled in an instant. All the pleasures,
ills and trials of this life are his to give
or receive.
So as to place his marvellous exhibi-
tion within the reach of all, Santanelli
has reduced the admission to twenty five
and fifty cents.
Big Suit Before Judge Seymour.
U. S. Marshall Hill came up from Wil-
mington on Saturday and served injunction
papers on W. J. Davis, assignee of M.
Rountree & Co., at the suit of W. D.
Rountree & Co., and the National Bank,
of Norfolk. It is intended to try the
validity of a deed of assignment as
against a trust deed made prior to the
assignment but not registered till after
the assignment was on record.
Between twenty and thirty thousand
dollars is involved in the controversy. It
is to be heard before Judge Seymour, in
the U. S. Circuit Court at the spring term
in Wilmington.—Wilson Mirror.

About Prescriptions.
The best of Medicines are
none too good for sick folks.
Its bad enough to be sick
without running chances
with second grade drugs.
That's the reason; buy only
the very highest quality of
everything. It's a great sat-
isfaction to us to know that
every prescription we send
out is just as good as pure
drugs will make it. No mat-
ter what you paid for it you
couldn't get better.

To Perfume Properly.
Sachet Powder is necessary.
What kind you will use de-
pends on your own taste.
Sachet bags in drawers and
closets give to clothes that
delicately distinct odor
which is the stamp of refine-
ment. The most popular
powder now is the new
"White Violet." It is sweet,
dainty and penetrating.
