Wholesale Destruction of Young Fish.

We are informed that the Beaufort sharpie load of fish the numbers of which were estimated at such a remarkable large figure (350,000) were so small as to be mere trash. Not a dealer in Beaufort would have them and the whole load was finally sold in Morehead for five dollars. The purchaser picked out a few marketable ones and let the others go to waste.

It is a shame that wanton destruction like this is permitted. Those fish, if allowed to live, would no doubt in a few years have been worth hundreds of dollars.

A fisherman who recklessly makes way with such vast numbers of fish when too small for use does that much against the future interests of himself and children and others following the fishing occupation. There ought to be a law, if there is not, against using nets with such small meshes as to take such little fish, and if there is such a law it ought to be enforced.

Mrs. Elizabeth Oakes-Smith.

The Beaufort Herald promises to give a further sketch of Mrs. Elizabeth Oakes-Smith, poetess and prose writer, who died on Wednesday the 15th inst, at her home at Hollywood, near Morehead. She has lived in North Carolina ever since soon after the war but her birth place was in Maine. She is worthy of having an extended account of her life published. She was very old and of late years has been living in retirement but fifty years ago was one of the most prominent literary ladies of America.

Mrs. Oakes-Smith was the widow of the celebrated Capt. Seba Smith, who gained celebrity as an author under the nom-de-plume of Major Jack Downing.

Her son, Capt. Appleton Oakesmith, died a few years ago. The name Oakesmith originated by uniting the old lady's maiden name (Oakes) with that of her husband, (Smith) at the time of marriage forming the name, Oakes-Smith as then written.

Turning Over the Office.

The Raleigh correspondence of the Wilmington Messenger written on the 25th contains the following paragraph: A wag remarked last night that the scene at the Yarboro house was one calculated to lead to the belief that a Legislature was about to meet. There is just now a great attraction at the Yarboro. Collector Simmons is the drawing card. He is by no means a friendless man and the amount of mail he receives is very large. An office seeker remarked to-day that Mr. Simmons was mighty clever and polite but gave very little comfort to an office seeker, save to state that he intends to weigh carefully all applications and that official announcement of appointments would be made next Monday or Tuesday. Collector White issued stamps up to noon to-day and then began to take inventory, which will require two days for completion.

The News Observer-Chronicle says that the Waldensian colonists, of whom mention was made a day or two ago, have arrived in New York and started for Burke county, where they will join their countrymen who have already formed a colony there. This party consists of forty men, fifty women and seventy six children, making in all one hundred and sixty six.

Married.

Wednesday 23d inst at the residence of R. N. White, Esq., Mr. J. F. Whitty and Miss Alice Novella White were united in marriage. The Baptist pastor of Pollockville officiating.

However it may be in other the old "bit of single blessedness" has practically gone out of date since the "ides of November" came in. Grand Duck Shooting
Elizabeth City News: On the 10th inst, the first day of the season on which hunters were allowed to kill ducks, we are reliably informed there were killed upwards of 3,000 ducks in the waters of North Carolina. H. R. Parker, John Luark and H. M. Ballance alone killed on that day 268, while J. L. Dunstan and Peter Chris killed over 100, thus making 968 ducks killed by five duckers in one day.
