A Boat Cabin Robbed.

A boat robbery was perpetrated yesterday between early morning and the middle of the afternoon. Capt. Wm. Henry Morris, col. of the wood boat Emily, which belongs to Mr. Joe A. Morton, of Harlowe, went off attending to some business, leaving the cabin door locked, the boat lying at the time at Brown's wharf. On his return he found it broken open and all the money he had left in the cabin stolen.

The thieves secured sixteen or eighteen dollars belonging to the mate.

Two small negro boys, Isaac Forbes, ten or eleven years of age, and Michael Sykes, who were noticed about the boat, were suspected at once, and upon being arrested confessed the theft, but have not revealed what they did with the money—none of it has been recovered. They are in custody to be tried today.

'TRYON'S PALACE.'

A Copy of One of Tryon's Own Letters about the Building.

Mr. Editor—The following letter from our Colonial Governor Tryon to the Earl of Hillsborough, the latter then the English Secretary of State for America, will be of interest to your readers, as giving some account of the building of "Tryon's Palace," at Newbern, most of the material for which, as well as the architect and workmen, seems to have been brought from England. The description of the "chimney piece," gives one a good idea of the extent and style of the ornamentation. Newbern had not then (1769) been and had not the fixed capital of the Province, though the Assembly had often held its sessions here.

One of the "offices or offices," still stands, being known as the "Memorial Chapel," and Parish School.

Brunswick, 12th Jan'y, 1769.

It is with a singular pleasure I am able to inform your Lordship the house building at Newbern for the Governor of this Province is covered in and roofed. The planter work was executed by an able hand sent purposely over from London. It is of eight ton load. The frames and window sashes are fixed up and the joiners now at work on the inside of the house. Both the wings or offices are likewise roofed and shingled, a covering when well executed and painted, more beautiful than slate or tile. The sashes for these offices are come in from England and soon will be fixed up. Four of the principal chimney-pieces are arrived also from London, with the hinges, locks and other articles necessary for the finishing this much admired structure.

As I think there is great elegance both in the taste and workmanship in the chimney-piece for the Council Chamber, I take the liberty to enclose you the description. As prospective, and successful, as this work has been carried on, and I flatter myself will proceed with similar dispatch, there is something still wanting to make the whole complete and of a piece. It is, my Lord, furniture and plate, suitable to the simplicity and unornamented beauty of the building. What furniture I have here has been so abused that it would disgrace even the upper story of the edifice. I therefore beg leave to apply to His Majesty's munificence for these necessary interior conveniences and ornaments. An extension of His Majesty's liberality on this occasion would, I am persuaded, be most gratefully received by the Province, being a convincing mark of his royal approbation of their public conduct, and reason with the edifice, as a testimony of His Majesty's unbounded generosity, and care in responding to the splendour of his time.

Your Lordship's good offices in promoting this petition of His Majesty's Governor to the Throne will gratefully oblige.

Your Lordship's most devoted &c.

WM. TRYON.

Enclosure.

For the Council Chamber in the Governor's House at Newbern in North Carolina.

A large stately Ionic chimney piece, the shafts of the columns surmounting the frett on the frieze inlaid with the same. A rich edge and foliage on the Tablet; medals of the King & Queen on the frieze over the Columns, the mouldings enriched, a large stately marble slab and black marble coverings.

Messrs. DRYDEN & GUNNER PECK. (Colonial Records; Vol. 8, P. 7-8.

Tryon's modest request to "His Majesty's munificence," for "furniture and plate," shows plainly that he was quite as ready to tax his King's generosity for those "necessary interior conveniences," as he had been to tax the Colonists for the means to build his "Palace."

GRAHAM DAVES.

Mrs. Elizabeth Oakes Smith.

Mrs. Elizabeth Oakes Smith died on the 15th inst. in her 88th year at the home of her late son, Hon. Appleton Oakes Smith, at Hollywood in this county.

She was born near Portland, Maine, Aug. 12th, 1806. Her maiden name was Elizabeth Oakes Prince, and she descended from Puritan and Huguenot ancestors.

On the father's side from Blanchards a distinguished family in that section.

She was married in 1823 to Seba Smith, the well known humorist and the original "Maj. Jack Downing" of America literature.

They remained in Portland, Maine till 1839 when they removed to New York where they were among the leading spirits of the literary of that period.

Her writings were numerous in both prose and verse. "The Sinless Child" and other poems made her reputation as a poet. "The Newboy," "Bertha and Lily," "The Western Captive," "Jacob Leisler, a Tragedy," "Woman and her Needs," "Shadow Land" and many smaller volumes are among the prose works.

She was the first woman to lecture before the Lyceums and was an advocate of Women's Rights in the highest sense saying that a woman's sphere should be limited only by her capacity.

She was at one time invited by Theodore Parker to preach in his pulpit and was the friend of Ralph Waldo Emerson, Bronson Alcott and George Ripley.

In her youth she was pronounced of great beauty and retained much of it till old age. She outlived all of her children (six sons) but one, but leaves a number of grand children.

Accident Insurance.

If you are not already provided with an accident policy be sure and take one out right away in the Guarantee Accident Lloyd's of New York. This system has been in vogue more than two hundred years, the first one being established in London in 1688, and during that time not one record of a failure among them can be found.

SAVING LIFE AT SEA.

Annual Report of Sup't. Kimball, of the Life Saving Service.

Sumner I. Kimball, general superintendent of the Life-Saving Service, in his annual report to Secretary Cassin, states that at the close of the last fiscal year the establishment comprised 244 stations, four hundred and twenty-seven vessels, carrying 3,365 persons, with a crew of whom 3,512 were saved, and 24 lost. Six hundred and sixty three shipwrecked persons received succor at the stations.

The estimated value of the vessels involved in the disasters was \$6,414,000, and that of their cargoes \$1,684,000. Of amount \$6,412,505 was saved and \$1,655,370 lost. The number of vessels totally lost was eighty-eight.

The investigations held in each case of loss of life show that in no instance was there any failure in duty on the part of the life-saving crews, and that the persons who perished were entirely beyond the reach of human aid.

The general superintendent states that the facts expressed in former reports of threatened decadence of the service, excited by the frequent resignations of many of the best surfmen on account of the ungenerous of their pay, have been dispelled by the recent increase granted by Congress, and that this, together with the continued observance of the law requiring that appointments "shall be made solely with reference to fitness, and without reference to political or party affiliations," enables the service to obtain the best qualified men whenever recruits are needed.

Attention is called to the frequency and violence of the tempests which have swept the Atlantic coast during the months of May and August in recent years, occasioning serious loss of life and property, and the suggestion of a prolongation of the active season to embrace these months is made.

Want Workers for the Beaufort Cannery

Some of our colored people have been saying that they could get no work to do. Messrs. Weitzel and Delamar started to opening oysters here this week and offered to give the colored people 12 1/2 cts. per gallon by which they could make a dollar or more per day. But they kicked and Mr. Edward Gandy left for New Berne on his bicycle to engage shuckers from James City and New Berne. If the colored people can afford to come from New Berne here and work for it, it seems that the colored people ought to be satisfied with the price.

Mr. Gandy made the trip, 45 miles in 4 1/2 hours stopping at James City 1-2 hour, averaging 11 1/4 miles per hour. Beaufort Herald.

A Credit to the South.

The Charlotte Oil and Fertilizer Works of Charlotte, N. C., were winners of a gold medal and a diploma at the World's Fair. The award, we believe, is made on cotton seed oil, for "its purity, good flavor, and care shown in its preparation." This concern is one of the largest cotton oil works in the world and its success is a credit to the South.

NONE BETTER THAN OLD BAKER

1861.

Beaufort Burglars.

Someone broke into Mr. C. L. Dickinson's fish house Monday night and went into his safe which he had forgotten to lock and with a strap—hinge tore the inside all to pieces. Fortunately Mr. Dick.inson had carried all his money home that night and the thief's anger can be better imagined than described.

This makes the third safe that has been entered in this town that was not locked. Sometime ago J. B. Jones & Son lost \$80, then \$75 was taken out of Mr. Lewis Fortlaw's safe. There seems to be some party or parties here in town who keep a lookout to see who lock their safes at night.
