NEW ADVERTISEMENTS.

Howard's.
J. A. Jones—Horses, Horses, Horses.

COTTON SALES.

Wednesday—20 bales 634 to 714.

Backing against Florida's and Georgia's Governors is about like tackling a Spanish bull.

In Stokes county H. D. Voss shot and mortally wounded John L. Peeg on, after a quarrel as to the ownership of a calf.

The large three column advertisement of Mr. J. A. Jones on our fourth page shows a beautiful animal. Full of fire and vigor, he shows every inch a horse.

Severest cold wave of season coming, temperature will fall to twenty degrees or lower by Thursday night is the telegram from the Weather Bureau.

Statesville will have a shoe factory in operation in the near future. The order has already been given for the material for the building and work will commence on it inside of sixty days.

The first vessel to sail from Wilmington for Manchester, says the Star, cleared Saturday, the German barque Ernest, Capt. Ahrens. Her cargo was 3,765 barrels rosen, valued at \$7,150.

We are glad to note that Dr. M. P. Robinson of the Virginia Dale Hotel at Beaufort is getting, as he deserves, a fair share of the patronage of the traveling public.

The temperature yesterday went up to 68 degrees. The lowest point it reached the previous night was 68. A farmer remarked "this weather makes it seem like corn planting time."

Mr. E. H. Hess has taken charge of the large and valuable Havelock plantation generally known as the Vyne farm. He is the son of the Philadelphia gentleman to whom Mr. Gorrell, the previous owner sold the plantation about a year ago.

There is no telling when an advertisement is going to be effective. Last night's mail brings a letter from a gentleman in Cabarrus county wanting to know more about a certain article he had seen mentioned in the JOURNAL.

Mr. Mann the new proprietor of the New Berns house, Morehead city, says that a comparison of the books now with those a year ago shows that the hotel is doing a better business than then. Such a report is very pleasing.

It is now alleged that Lawrence Palian, the Asheville man who absconded with a large sum of bank money, has never been really located by the detectives.

The latest developments in the Greensboro scandal place Holland, the Danville man, in a worse light than ever before and are a terrible indictment of Mrs. Conrad, the sister of Mrs. Gilmer, wife of the man who shot Holland.

A report gained circulation to some extent in the city yesterday that a young traveling man, who was in the city the first of the week, had been killed by falling from a moving train beyond Goldsboro. As no news of such an occurrence reached the A. & N. C. R. R. officials, we are inclined to think it a mistake.

Mr. C. Reizenstein received an inquiry yesterday in behalf of a party of 25 or thirty citizens of Asheville intending to come to the Fair. Mr. Reizenstein says the Fair correspondence is now greater than it ever was before—he has always, prior to this, been able to keep up with the correspondence himself, but last week he had to call in the assistance of his wife. This augurs well both for exhibits and attendance.

Mr. G. A. Hopstall of Washington, N. C., and Miss Susie W. Clark of the city were quietly married at 8 o'clock Wednesday morning at the residence of Hen. C. C. Clark, father of the bride, in the presence of relatives and a few intimate friends. Rev. Rufus Ford officiating. At the conclusion of the ceremony they left by rail for their future home amid warm congratulations and expressions of good wishes.

Coming and Going.

Mrs. John P. Geurey, of Sanford, Maine, after a short visit to her nephew, Mr. W. H. Chalbourne, left for Wilmington where she is visiting relatives Tuesday in company with Mr. Chalbourne she visited the farm of Mr. W. H. Bray and was delighted at the beauty and excellence of his several varieties of fancy poultry. Mr. Chalbourne also went down to Wilmington to spend a few days on business.

Mr. Geo. Case who has been for nearly a year in Norfolk returned home yesterday on the steamer Neuse.

Mr. Thos. Button of Brooklyn, a former resident of New Berns arrived to spend some time in the city for his health. He is registered at the Foltford House.

Mr. Eugene C. Potter, of Norfolk, Va., Soliciting Agent of the Norfolk and Southern railroad and the Eastern Carolina Dispatch Steamship line spent yesterday in the city and left last night for Morehead city and Beaufort.

Miss Lela Enloe, of Hillsboro, arrived to visit her aunt, Mrs. E. S. Street.

Mr. Sterling Hancock, grocer, of Beaufort, was in the city yesterday and made good purchases from our merchants.

Miss Laura Hughes, left on the steamer Neuse to visit relatives in Norfolk.

Mr. E. S. Street left on the steamer Neuse after another supply of horses and mules.

Mr. M. Hala left on the steamer Neuse after more stock.

Death of Mrs. Thos. Hyman.
Mrs. Bessie Hyman (nee Miss Bessie Sloan of Germantown, N. C.) died at Goldsboro yesterday at 1 p. m.

She married Thomas Hyman of Goldsboro in the fall of 1892. She was about 22 years old and a most charming and lovely woman.

She leaves surviving her infant ten days old and her devoted husband.

The Salisbury Truth says Esther March who died in Providence township Saturday, claimed to be 108 years old.

The Sanford Express says that a gold mine has been opened near Morehead, in Chatham county. It seems that the gold fever has suddenly struck the people of several places in North Carolina.

The Durham Sun says that there are now thirty-nine prisoners in the workhouse of that place—they have three guards and one overseer. The county poor house has nineteen inmates, making a total of sixty-two the county is feeding.

A young colored man, a friend on the W. N. & N. R. R. was found dead after 12 o'clock yesterday by the side of one of the road "shorties" seven miles this side of Jacksonville. The man had been sick. At the time the train passed coming up to New Berns no inquest had been held and the body had not been moved.

The News-Observer Chronicle says: "Information was received directly from Morganton Monday that State Treasurer Tate is rapidly improving and that he is now able to walk about. His rapid recovery will be good news to his many friends throughout the State."

The Concord Times says that "Mr. W. E. Furr, of Stanley county, is the father of 22 children. He has been married twice, his first wife being the mother of 13 and his last wife 9. All of his children are married except 6. Mr. Furr is 62 years old, but does not look to be over 50."

The Charlotte News tells of the death of Engineer Picklen and fireman Yorke, of the Richmond & Danville Railroad Company, in Columbia. They were scalded three weeks ago in an accident at Graniteville, when their train dashing into an open switch collided with a freight train that was standing on a siding.

The High Point Enterprise says: "A great deal of meat was raised in this neighborhood in 1893. From what we can hear we judge that the farmers have quite enough to last them for a long time." Very good indeed, and we only wish that every section would follow suit and put a veto on sending west for their bacon.

The Concord Times says that a lady at Cannonville one morning last week found a snake in her stove nicely broiled and roasted. It seems that the snake had gone into Winter quarters in a hollow stick of wood. The good lady, in order to have her wood nice and dry to cook breakfast with, put it in the stove the night before.

The body of the negro found in Pender county half eaten by animals is ascribed to be that of Sylvester Lamb, a man who had come from Georgia to buy a home. He had money, Gov. Carr has been asked to offer a reward for the murderer, as there is no doubt as to a murder having been committed.

In copying our article on Turner's Almanac, the News-Observer of the 23d instant makes us quote the Almanac as giving the date 1776 as that when Josiah Martin was Governor of North Carolina. Oh these unmanageable types! The Almanac prints it plainly 1773, which we did also, and called attention to the error. It is too bad when correcting another's mistakes, to be made to make a worse one yourself.

The Fight Probably Off.

The Corbett-Mitchell fight is thought to be off. W. E. Harding, sporting editor of the Police Gazette, and Mr. Blake, the only member of the Dural club who knows a little about prize fighting share the opinion. The latter says the chances are 100 to 1 against the club pulling off the match.

The Governor has got his back up so high that he has quartered a battalion of State troops, the second battalion, 200 strong, in the city to see that the fight does not come off. The boys are said to be every inch soldiers, have seen service and will fire at my range if ordered to do so.

The hearing of the bill filed by the club asking for an injunction restraining the sheriff from interfering came up on the 23d but was postponed till next day.

Gov. Northern has called out his State troops to prevent the fight taking place in Georgia. They will guard the State line.

Later—Judge Call decides that the rules under which Corbett and Mitchell are to fight is no violation of Florida laws and has granted an injunction restraining the sheriff from interfering. The fight takes place at 1 p. m. today.

Several Families Coming.
A party of northerners, comprising several families have bargained from Mr. E. W. Carpenter the building on Broad street, midway between Craven and Middle, and the fifteen years lease on the lot. They have likewise obtained the building and lease on lot on the adjoining place now occupied by Mrs. M. J. Lane and have also secured the building on the opposite side her before occupied by Rev. Henry Whitfield. They intend to move the latter building over to the first mentioned lot.

The families are all either related or connected by marriage and desire to live close together.

We learn they are purchasing timber lands and expect later to engage in the lumber business.

Brazilian Combatants Willing to Arbitrate.
A United Press telegram quotes a Brazilian government official as saying that President Peixoto and Admiral da Silva had agreed to submit their differences to the United States for arbitration, but that certain well-paid officers were trying to prevent the agreement from being carried out. President Peixoto expects the war will be ended by January 25th.

There is now a large fleet of American warships in the harbor. The object of their presence there, it is said, is to prevent European interference in the settlement of the matter in dispute between the government and the insurgents.

Aurora and New Berns.
The Progressive Age in speaking of Aurora says that within a radius of ten miles it contains over five thousand inhabitants and speaks of the lands as among the finest in the world—whether woodland for timber or cleared land for crops. It states further that property at Aurora has increased 25 per cent in value in the last twelve months.

This is the rich section of which we have often spoken and urged the building of a road that would bring it into easy communication with New Berns. In spite of the difficulty of reaching this city we get a large share of Aurora's trade now but we would get a largely increased share if the short cut road were built.

WAITING THE MASTER'S CALL.
We call the attention of our readers to the following beautiful lines written by the distinguished Poetess Mrs. Elizabeth Oakes Smith, copied from the Home Journal.

[A month or two before her death, which occurred a few weeks ago, Mrs. Oakes Smith, no longer able to hold her pen, dictated the following poem to her daughter-in-law, Mrs. Augusta Oakes Smith, at whose home, at Hollywood, North Carolina, she spent the last years of her life,—a remarkable example of the preservation to an advanced age, not only of unabated intellectual activity, but of that emotional warmth and imaginative force which is supposed to be so dependent upon the vigor of the physical powers.]

I thank Thee, Lord, for these long lingering years,
For this integrity of mortal form,
That all through summer heat and winter storm
Has held its own, unblanched by coward fears,
Unoverwhelmed by unavailing tears;
Benignant planets from their golden spheres
Beam as they beamed when from the Orient they
Led the rapt Magi where the Christ-child lay;

White-vested lillies on the rippling stream
Smile as when first they awaked poetic dream
Earth is so fair, the stars so far away,—
Whence come the phantoms that in shadow play,
I, in the gloaming, calmly wait the call,—
"The master bids thee to the banquet hall."

ELIZABETH OAKES SMITH.

Trustees Meeting.
A meeting of the Trustees of New Berns Academy will be held at the office of the President Friday afternoon, Jan. 26 inst, at 4 o'clock. Annual meeting—election of officers.

By order of the President,
W. M. Watson Sec'y & Treas.
1893.

ECONOMY IN THE LONG RUN.

Good Roads, Once Built, More Easily Kept up Than Poor Ones.

Reverend the Wilmington Star used the following language:

"There are two things from which the state would derive greater or more lasting benefit than she would from a good system of road improvement. With good methods, and the use of one earnest laborer, we could have inside of ten years a fine system of roads in this state, so constructed that they could be easily kept in repair, and which would cost in labor and money less than it requires under the shiftless methods now so generally pursued."

"These are truths which need to be presented again and again, until the people and their representatives are thoroughly awake to the importance of the subject. Let the press keep hammering away until results follow."

Don't be a Grumbler.
We are not the author of all of the following points relative to the chronic grumbler, which we suppose to some extent infect every community, but it is so appropriate that we deem it worthwhile.

The writer goes on to say that some people continue to get hold of the prickly side of every thing, to run against all the sharp corners and disagreeable things. Half the strength spent in growing would set things right.

You may as well make up your mind to be grumpy, that no one ever found the world quite as he would like it, but you are not the worst part of the trouble and least it hurts you. You will be sure to have failures laid upon you that belong to other people, unless you are a shirker yourself, but don't grumble.

If the work needs doing, and you can do it, never mind about that other who ought to have done it and didn't.

Those workers who fill up the gaps and smooth away the rough spots, and finish up the job that others leave undone, they are the true peace-makers, and worth a whole regiment of growlers.

Effect of Cotton Factories.
It is very pleasing to see that North Carolina is standing prominent among Southern States in the manufacture of cotton and that the industry is growing with rapid strides. Our source of regret in the matter is that New Berns does not possess one or more factories. Wherever they are established the universal testimony is that they have considerable effect upon the business of the community— their effects are felt sensibly.

A factory keeps money at home that would otherwise be sent off to purchase such products as it makes, it brings money in its payment for its product sold abroad, it puts money in circulation at home by paying it out to operatives, it makes a ready home market for farmers and it gives employment to worthy people who without the factory would find it difficult if not impossible to keep steady employment.

How long shall it be before we have a factory? Let our business men answer.

Rearing Horses in North Carolina.
We had a few words in our last issue commending the stock raising in general and as a fitting sequel we give the following admirable clipping relative to horse raising a very important branch of the industry.

"There are some gentlemen in North Carolina who are turning their attention to rearing improved breeds of horses. They find that good profits can be made thereby. Grass grows well; grain is produced at a low price, and the stock improves the farm and yields a good income. For years North Carolina has been a good horse market for Virginia, Kentucky, and Tennessee. We have raised tobacco and cotton, worn out our lands, bought our grain, hay, stock, provisions and fertilizers elsewhere, until the fact that we are still a prosperous State is proof of our vitality and abundant resources and possibilities.

"But the fashion is changing. Enterprising men are leading the way and all others will follow, and soon we shall produce all our horses and mules, raise all our grain and hay, manufacture all our raw material, and be one of the richest and most independent of all the States.

Now's the day and now's the hour."
BURNS.

There is only about ten days left before we move. Now's the time to buy what you need in Clothing, Hats and Shoes at low prices. We have about 30 children's suits if there are any in the lot that will suit you. We'll make the prices right. Do you need a trunk or a valise. They are going at cost. A few more rugs left. Call early before they are all gone. Don't forget to bring your money.
I. M. HOWARD.

CLARK BAKING CO.
In future our Bread will be sold on the streets
Only From Our Hand Carts.

In order to be sure of getting the right bread, see that "Clark Baking Co." is on the BOYS CAPS. This Bread is the very best in New Berns.

CLARK BAKING CO.
