Thursday—440 to 750.

The fight in the House over the income tax bill has recommenced in earnest. There was a lively scene when the bill was rejected.

Excitement at Roxboro had died out. Willis Royster, the jailer, who was struggling by the escaping prisoners, has been injured. Both prisoners are held for murder.

The statement is made that some of the farmers of Hinnocent county are making threats to do injury to any who plant tobacco this year, claiming that overproduction causes the low price.

The weather bureau bulletin for yesterday read "Fair preceded by rain in eastern portion. Colder on Friday night, followed by rising temperature in western portion."

Mr. Charles T. Holt, son of ex-Gov. Holt, of North Carolina, and Miss Gena Jones, daughter of Gov. Thos. C. Jones of Alabama, were married Wednesday at Montgomery, Ala.

Prince Bismarck, Germany's greatest soldier statesman and Emperor William have become reconciled. The German Press is discussing this and finding many political meanings for it.

Mr. W. D. Barrington has bought out the grocery business of Mr. C. E. Slover and will carry it on as heretofore. Mr. Slover remains at present, at the same stand to meet those who have business with him.

The members of the New Berne Bar are requested to meet at the Court House this morning at eleven o'clock a. m., to prepare a calendar for the February term of the Superior Court.

Lee De Graf, who was charged with highway robbery in Stokes county, has been released from custody, there being no evidence of his guilt. The other man charged with the crime is held.

Revenue Collector Simmons has received a report of the seizure by Deputy Means, at Greensboro, of 140 gallons of contraband whiskey, two horses and a wagon; also of a seizure by Deputy Gibb at Wilmington, of contraband whiskey.

Mr. J. A. Holloman, of Raleigh came in last night representing the Kellogg Newspaper Company. Mr. Holloman was formerly connected with the State Chronicle and also with the News Observer Chronicle.

Today and tomorrow, according to the weather bureau prediction sent out Wednesday, are to be very cold—the coldest days thus far of the season. From present outlooks the prediction bids fair to be realized.

DeGraf, the Winston murderer, who is to be hanged February 8th, wants to be baptized by a Baptist preacher. The rope from which he will swing has been purchased in Richmond. The order for a public execution has not been revoked.

Reports from Brazil are contradictory. One set of telegrams indicate that the war is in a fair way of settlement through the proposed arbitration, while others indicate but scant hope from this source and say there is likelihood of the war lasting several months.

We have information that the bicyclists of Beaufort are considering coming up to the Fair in a body on their wheels. There are quite a number of them and some good ones among them. The club here will be glad to see them and have them to join in the parade and races.

Mr. J. W. Dennis, of Belle Haven was in the city Thursday. He is turning more attention than the average farmer to poultry raising. He has about six hundred head and gives them good attention; uses whitewash freely and is satisfied with the results.

## THE CORBETT-MITCHELL BOUT.

The Active Californian an Easy Winner in Three Rounds.

Corbett knocked Mitchell out in the third round at Jacksonville. The fight began at 8 o'clock and lasted only sixteen minutes.

The Governor will allow the troops yesterday after the injuries of Jan. 12, 1891, and the fight proceeded without interruption.

In the first round the levers were easy. In the second Mitchell was knocked down twice, and in the third he was knocked out.

The action of Judge Call in granting the injunction asked for by the club was a surprise to almost everybody, but it pulled the club through.

The order was brief, it simply stated that "aggressive contests" were not violative of the law of Florida when forbidden "fighting by previous appointment." The lovers of pugilism cheered till it seemed pandemonium had broken loose when it was announced. Nine men out of ten thought it would be the reverse of what it was.

The Governor under the circumstances acted wisely in holding off, as he did, who was simply abiding by the law.

The tickets to the fight sold rapidly at \$25 each.

Towards the last the fighting was reached such a height that the club's assets for the proposed contest were \$25 to \$25.

The betting was strong in favor of Corbett.

Michigan's record of winners, and she has never felt better in her life. One of the remarks was, "Corbett may wrap me, but it does not will be aware of the fact he has been fighting."

However, though he was doubtless the stronger of the two, he was no match for Corbett. It was another case of a strong arm and great activity, combined with great strength and skill, proving too much for still greater strength and less activity.

Some Irish Americans are jolly over the result, not only because it was an American who was victor but because it was an Irishman that kicked an Englishman.

Good Weather Bureau Service.  
Ever since the middle of the day on Wednesday, New Bernians have been acquainted, by the means of the weather bureau service at Messrs. Hackburn & Willett's store, with the coming of the cold wave now upon us.

For a year past this idea has secured the weather forecasts promptly made public, to the great satisfaction of our citizens, both by hoisting the weather signals and displaying the telegraph on a bulletin board in front of their store as soon as they were received. The thoroughness with which they serve the public in this respect is commendable, and the convenient location of their store in a central and most frequent part of the city makes it easy for our people to acquaint themselves with the information thus given.

The JOURNAL, according to custom, gave news of the approaching bad weather and will continue to do so when changes of note are at hand so that all whether they have noticed the signal or not may know what weather to expect.

Mayor Ellis as Sportsman.  
Mayor Win Ellis, who has been spending a little over a week at Maple Cypress returned home yesterday. He has been taking a good hunt. He brought 68 partridges home with him. He went partridge hunting five days and killed 298, a very good average.

Mr. Ellis went turkey hunting once, but did not meet with the luck of securing any of them—shooting some feathers out as near as he came.

On the whole, the sport was so good, however, that he will write a sportsman triend to come down and try it.

The Raleigh correspondent of the Wilmington Messenger announces that Mr. T. K. Bruner will come to New Berne "about the end of this week to make arrangements for the great Mid-winter Fair." He says the exhibit will fill a large room.

It is now the belief of the Wayne county authorities that Orange Page and Mary Smith, who murdered Rosa Hayward, did not go direct to Norfolk by rail, but are making their way in that direction along the public roads.

The Burlington News gives quite a lengthy article in favor of reduction of tobacco acreage. It claims there is now enough tobacco in this country to keep the country chewing and smoking for two years, without any great increase in the cost, if the stock was not cornered and the price run up.

Mr. T. C. Whitaker, of Trenton, N. C., owns a family bible handed down from his great-great-grandmother. It was printed in England in 1715. One of the oldest records in it is that "Margaret Burroughs was born in St. Croix, June 5, 1764, and baptized in the Island of Nevis, 20th May, 1765 by Parson Davis. Died Oct. 16th 1815." Baptisms are recorded by "Parson Reed in Newbern church 19 of June, 1768, and by Parson Pentecost in Newbern 1777.

## KIND WORDS.

The Weekly Journal a Typical Paper of the Live Place it Represents.

Newspaper publishers, probably like most other men feel grateful for words of commendation when given in sincerity.

In getting out the Fair Edition of the Weekly Journal we endeavored to make as creditable an issue as possible, one that would not only present the resources and advantages of this section, but also foretell in our feeble way, the merits of the splendid Exposition to be held in New Berne, the week beginning February the 19th. Of the kind words spoken, none are more appreciated than those in a letter written from a gentleman in Washington, D. C., of our prominent townsman, as shown as follows: "This morning's issue brought me a copy of the Weekly Journal of New Berne. It is a very business paper typical of the place of publication, and almost persuaded me to visit the Fair so far as advertised there."

Cold Wave in the West.  
The cold wave is traveling eastward about one day behind the storm.

In Chicago on Wednesday 24th, the thermometer registered 42 degrees above zero at 6 o'clock in the morning, by night it was at zero and at midnight 6 degrees below.

At Minnesota, it is 48 degrees below, in Iowa 29 degrees below, at Milwaukee 8 below, from Texas to Montana, west of the Mississippi it is 45 degrees below, in South Dakota 10 degrees below, in North Dakota 15 degrees below, in Nebraska 15 degrees below, in Kansas 15 degrees below, in Missouri it is 16 to 23 degrees below and snow is two feet deep.

A number of people have been frozen to death.

Trains are delayed and traffic impeded.

Coming and Going.

Mr. Jas. F. Taylor, returned from New York.

Messrs. H. A. Whiting and Mr. N. G. Forlong of the W. N. & N. R. R., are registered at Hotel Albert.

Mr. J. Edwards, of Raleigh and Mr. Wm. Levisky, of Pittsburg, Pa., arrived to introduce electrographs, a new system of enlarged portrait. Mr. Edwards has been recently and made arrangements for them to be supplied through Mr. Edward Gorock. They will make an exhibit of their work at the Fair.

W. N. & N. Change of Schedule.  
A slight change of schedule on the W. N. & N. R. R. goes into effect next Monday, Jan. 29th.

On and after that date the passenger train will leave 21 minutes earlier and arrive at the other end 15 minutes later. The time of departure will be 8:10 a. m. and the time of arrival 5:15 p. m.

The freight train will arrive at 11:42 a. m. and leave at 2 p. m.

The full schedule will be given in our next issue.

The Mid-Winter Fair.  
We acknowledge the receipt of the premium list for the New Berne Fish Game Oyster, Agricultural and Mechanical Fair, New Berne has become celebrated through these Fairs and there is no doubt but they have done much to advertise not only New Berne and its vicinity but the whole of Eastern Carolina.

Being held in the month of February these Fairs attract great attention and are visited by large numbers of northern people who go away carrying to their homes in the frozen north glowing pictures of the climate, grand resources and open-hearted people they found in the Old North State, with the inevitable result of bringing men of energy and capital to locate and invest in a country so far superior to their own.

The New Berne people claim that this Fair will be far superior to its predecessors, if so every one who can should visit it, as we can testify that the others were well worth seeing.—Rocky Mount Argonaut.

## BUSINESS ANNOUNCEMENT.

I announce to the public that I have this day sold my entire stock of Choice Family Groceries to Mr. W. D. Barrington.

## GARDEN SPOT OF THE STATE.

Col. Hall's High Opinion of East Carolina in General and of New Berne, Swansboro, &c., in Particular.

The highly complimentary opinion of Col. H. F. Hall of East Carolina as voted for in the Wilmington Messenger lately, is so widely distributed that the local press is daily extracting therefrom, and in some cases the entire article.

Col. Hall's estimate of New Berne as the center of the State is based on general and local facts. The general facts are that the city is a center of commerce, and a center of population, and a center of industry. The local facts are that the city is a center of education, and a center of culture, and a center of refinement. The city is a center of all that is good and noble in the human mind.

Capital and trading that New Berne is going rapidly forward and a solid base and investments are being sought for.

We copy the following from the Wilmington Messenger and endorse it fully.

While impressed with Col. Hall's opinion and offering as a Government agent the absolute best of his duties, we are none the less, with his efforts to bring about public opinion, the almost unanimous opinion of Eastern North Carolina is in favor of the city.

It is a center of all that is good and noble in the human mind.

From the Virginia line all the way down the North Carolina coast, every acre and surrounding can be fully and advantageously utilized. The great waters of the Atlantic and Pacific would afford the most advantageous of the best water and fishing trade in the Union. Elizabeth City, beautiful in its youth, stands surrounded by advantages of great importance.

It is a center of all that is good and noble in the human mind.

## Convicts and the Public Roads.

We have heretofore mentioned the fact that working roads in this State. We are satisfied the measure would meet with general approval among the people and a number of new roads would be opened up. We give a short extract from an editorial article on the subject, which was published in the North Carolina State.

The most important public road in the State is the one that runs from New Berne to Swansboro. It is a road that has been neglected for years, and it is a road that is in need of repair.

The road is in a state of disrepair, and it is a road that is in need of repair.
