LOCAL NEWS.

NEW ADVERTISEMENTS
Howard's.
Bryan & Smith—Just received.
J. W. Smallwood—Fine chickens.

COTTON SALES.
Monday—9 bales at 7.25.

A severe cold wave by this evening is the prediction of the weather bureau.

Six negro men have escaped from Fayetteville jail. One is a murderer.

The pay train of the W. N. & N. R. R. made glad the hearts of its employees by its monthly round yesterday.

The 4th Division of the North Carolina Naval Battalion will hold their monthly business meeting at the armory promptly at 8 o'clock tonight.

The time for purchasing the season tickets to the Fair is growing very short. Only five days left in which to purchase them at the half dollar reduction.

Mr. A. Hatcher of this city in his correspondence to a number of papers of the State does not neglect to have a few good words for our.

Mr. R. B. Heath of Cove tells us of a turpin he has that measures 23 inches in circumference. He intends to have it at the Fair.

The Gruber Family sang at the Methodist Sunday school Sunday afternoon at the conclusion of the exercises. The school was well pleased at their participation in the exercises.

The recent destruction of a church and the killing and injury of a number of people who were in it, by a cyclone furnish no valid excuse for not going to church although there are people who use it that way.

If this proves to be a good crop year our farmers will be in a more prosperous condition next fall than for some time past, for the reason that they will not be much in debt and what they have will be clear.

A meeting of the Committee on Curiosities of the East Carolina Fair Association will be held this afternoon at four o'clock, at the residence of Mrs. Graham Daves on Broad St. The attendance of all the members is requested.

England is on the eve of a constitutional crisis. The question of abolishing the house of Lords is becoming acute. Radicals are determined to make the issue and it is thought the Peers must go.

Brown Leghorn Poultry which Mr. W. H. Bray sold to a Macon, Ga. customer, and which he put on exhibition, took all the first and second prizes for that breed at the great Atlanta Poultry Show.

Mr. J. W. Stewart returned on the steamer Neuse. He brought with him a large and fine lot of horses with him to replenish the supply in his livery stables. Though yesterday was a rainy day we found all hands busy at the stables. Several buyers were on hand selecting and purchasing both from the stock department and the vehicle department of Mr. Stewart's business.

Mr. Thos. A. McIntyre, President of the W. N. & N. Railroad, Mr. Wm. A. Nash, the treasurer and Mr. A. S. Kirkman, one of the directors passed over the road yesterday on a special train. They returned last night to Mr. McIntyre's home, "Glennac Farm" where the two latter are the guests of President McIntyre.

A large and interesting devotional meeting was conducted by State Secretary Coulter at the Y. M. C. A. Sunday afternoon. Mr. Coulter spoke with his usual earnestness and commanded the best of attention throughout his entire discourse. Other appropriate remarks were made by gentlemen present. Another meeting was held last night.

SUPERIOR COURT.

The Grand Jury and the Judge's Charge—Trial of Several Prisoners.

Superior Court convened yesterday morning at 10 o'clock, Judge Jesse F. Graves, of Mt. Airy, presiding.

The grand jury was drawn, sworn and charged. The jury consists of: R. W. Smith, Thos. Arthur, Aleck Dougherty, J. H. Clivils, L. N. Lancaster, Dock Cooper, col., J. H. E. Wetherington, Geo. W. Patcher, J. C. Hill, C. C. Bell, John B. Wooten, W. A. Wilcox, Jno. M. Arthur, Levin Gaskins, F. H. Dawson, J. P. French, Jno. M. Ispock, and Joel E. Korogay.

Judge Graves charge to the jury was given with deliberation. It was comprehensive and explicit.

J. N. Whitfield, col., was tried on a charge of assault and battery and found guilty. Sentence not pronounced.

Several civil cases of little interest to any one, except the parties concerned occupied a portion of the time.

State ex rel vs Henry Rouse. Land sold, did not bring its worth, sale ordered set aside and land to be resold.

State ex rel Wm. Watson, C. S. C. vs. H. Jackson Jones. Report of sale filed. Judgment of sale confirmed.

The Grand jury found a true bill against Wm. Humphrey, col., for the murder of Dave Mackey, col., an account of which was published at the time. A special venire of fifty were summoned and the case comes up for trial this morning.

One More Lawyer.
Mr. T. C. Daniels, a recent law graduate of the State University, was duly sworn in as a lawyer yesterday and is now a member of the New Berne bar.

"Tom" has always been a smart fellow at whatever he undertakes, and we look for him to come to the front.

Bring in Farm Products.
A farmer inquired of us Monday as to whether entries were still open for exhibits of pumpkins, turnips, &c. They are.

Let every farmer bring some specimens of all the farm products of every description he pleases, this whole week through—the entry at the time of arrival is sufficient. They are wanted and will be appreciated.

Re-modelled and Re-named.
The Gaston House is to be heard of no more as a thing of the past. What's become of it? Why its remodelled and improved so you wouldn't know it and the name is changed accordingly. The rejuvenated hotel is to be known hereafter as the Chataqua.

Chataqua is the old Indian name of New Berne and Dr. Hughes in thus designating his hotel will bring the fact into prominence.

Information Circular.
Five thousand circulars containing the list of our citizens who will take board and lodgers during the Fair have been printed. Two thousand of these will be given to each railroad for distribution as the visitors are coming to the city, and a thousand will be retained for use at the Fair grounds.

There lists, giving the names and numbers of the residences of the people taking boarders and the price each charges will be a great convenience to the visitors.

The Electric Railway.
Mr. R. P. Williams who went North on business connected with the electric railway informs us that he knows the iron for the track has been purchased—he saw it loaded on cars for shipment, but a delay occurred in consequence of a mistake by a registers of deeds in abstract of title which has been rectified.

Now there is a further hindrance because Mr. Geo. M. Miller of Brooklyn, who purchased the plant from Mr. Wm. C. Clarke who was authorized to make the sale, having gone thus far towards the construction of the railway is waiting for the stock and bonds to be turned over to him before shipping, and Mr. Clarke is unavoidably detained elsewhere on railroad business. We regret the delay and hope the work will soon be going forward.

Coming and Going.
Mr. Wm. Kinsey who has been visiting his father, Mr. Joel Kinsey, returned to his home in New York.

Miss Emma Simmons, of Oliver, returned to Kinsey's Seminary.

Mr. J. J. Royal passed through en route from Morehead to Jacksonville, where he is engaged in buying and shipping fish.

Mr. and Mrs. W. P. Whitaker, of Raleigh, and Mr. C. H. Brown, of Kingston are among the arrivals at Hotel Albert.

Mr. J. W. Martens, Gen'l. Frt. and Passenger Agt. of the W. N. & N. R. R. came up from Wilmington and left on the Str. Neuse for Norfolk on business connected with his office.

Miss Bettie Hall who came up for a short visit to her home, returned to the school she is teaching at Thurman last night.

Miss Minnie Mayo, of Portsmouth, arrived to visit relatives in the city, and will remain until after the Fair.

"Hog and Hominy" is a sure antidote for hard times and the farmer who is well supplied in this line is the most independent being on this green earth.

SIMMONS REPLIES.

He States What he Did, and Maintains the Correctness of it in Every Particular.

Hon. F. M. Simmons has replied to Senator Vance's letter. He gives the facts and leaves the public to judge whether he has transcended his rights on the one hand or usurped the prerogative of the Senator on the other.

As a citizen and as a member of the Democratic Executive committee, he was ardently in favor of Glenn for Attorney of the Western District, and Jernigan, Robbins and Henry for the best obtainable positions in the foreign service of the Government. He yielded to their solicitations and went to Washington in their behalf because he thought they deserved the recognition they sought as a reward for honest and faithful public services, and he thought they had the right to call upon him as Chairman of the State Executive Committee to assist them to that end.

Mr. Hale wanted Mr. Simmons' help to a \$50,000 position, but Mr. Simmons refused because he did not think entitled to absorb all the patronage in the foreign service which might come to the State.

Simmons was not opposed to Glazier; that appointment would have been entirely satisfactory to him. He and Vance were equally opposed to Elias. Mr. Simmons favored to the white house simply in favor of those who were championing and did not advocate the appointment of Elias nor oppose that of Glazier. He expressed his opinion for those he favored; he considered it would be unjust to set aside the man who had borne the heat and burden of the fight just closed in victory.

Mr. Simmons says this is the son of the so-called patriotism with these appointments, and that Senator Vance in saying he has been a defendant and assisting to him has been a nationalist and not a democrat by saying:

"I do insist and maintain that I had a perfect right to do what I did and that in doing it I did not in fact (as Uncle Sam did not intend) either to usurp or invade the rights of the Senators from this State."

The Concert During Fair Week.
Miss Marjorie Radcliff's concert Wednesday night of next week, will be held in the Y. M. C. A. Hall. The Hall is not only commodious, but a very convenient location.

General admission to the concert will be 75 cents reserved seats \$1.00 and gallery 50 cents.

The concert will be a surpassingly fine one. Miss Radcliff, it will be remembered secured the gold medal at the North Carolina Teachers Assembly as the best vocalist in the State, and she will be ably assisted by New York talent of high order.

Started For the Season.
The very fine soda water fountain recently purchased by Gaskill's pharmacy went into use Saturday with all desired syrups, and ice cream and lemon orange, pineapple and banana ices will soon be added.

Mr. Gaskill's leading drink is orange phosphate, on which he will no doubt have a good run; egg phosphate is another specialty.

The fountain is a handsome addition to the furnishings of the establishment and the delicious and refreshing quality of its contents is in keeping with its appearance.

With commendable enterprise Mr. Gaskill has begun the season early and intends to keep up with the times on every line.

Quarterly Conferences.
Rev. F. D. Swindell, P. E., held quarterly conference at Newport Sunday and conducted services there and a short distance off in the country. During the day he preached three times and made a Sunday school address.

On Friday of next week Mr. Swindell will be in New Berne to hold quarterly conference at Hancock, street M. E. church, and will preach in the church that night. He will then go down to Pamlico to hold quarterly conference and if he returns in time the congregation of Hancock Street Church will have the pleasure of having him on the following Sunday night, Feb. 25th.

Quarterly Conference in Centenary M. E. church comes on the third Sunday in March, 18th. Prox.

The Recently Moved Business Men.
Mr. J. M. Howard, the clothier, is well fixed in his new quarters on Middle street opposite the Baptist church and is adding new stock to what he had on hand. He is in a good large, well located store, and his select, well arranged stock makes a good display. We look for him not only to carry his old trade with him but to capture in addition a good share of the floating country trade which is ever to be found on that street.

Messrs. J. B. Holland & Co. who have moved into Mr. Howard's old stand are moving forward also with a new and largely increased stock of general dry goods and Mr. T. J. Baxter, the jeweler and the A. Cohn Piano and Organ Company are also in good shape and well pleased with the new location just below Mr. Howard's.

Our good wishes to them all.

A JAPANESE COLONY.

Is Expected to Move in North Carolina and Establish Potteries for Fine Ware.

The News-Observer Chronicle gives a good list of those from whom Mr. T. K. Bruner has received answers in regard to kaolin and says further that in all there have been 27 responses to the call from those interested in the development of kaolin to forward specimens for practical test in Japan.

Of these Mr. Bruner has expressed ten samples, comprising the best material which had been sent previously to railroads considered. Some material has been forwarded to him since the shipment but it will not be possible to send another lot.

In connection with this matter it gives its pleasure to state that the last advice received from the Japanese Commissioner is to the effect that he will have no trouble in securing the artisans, potters and decorators, to come from Japan. In fact he has stated his willingness to resign the government position he now holds as representative of Japan, and enter upon the organization of the proposed pottery in North Carolina.

"This is a very important industrial move for the State and one which should have every encouragement and co-operation."

Remarkable Scales.
Mr. John Dunn, ever up with the times, has put in two scales at his store that are a marvel of ingenuity. They are computing scales. One way of using them is to put the weight on for the number of pounds on an article wanted, set a price at the price which is marked off on the scales even down to small fractions and the scales will then, not only weigh the article, but show how much is due by the customer for the purchase.

Another way to use them is, if goods to a certain value is called for, as a dollar's worth, &c., just put on a weight that goes with the scales marked accordingly by money's worth, set the price at the price and go to weighing. When the scales balance the right amount is there.

That the scales will prove a great convenience and saving of time goes without saying.

Advice From a Georgia Alliance.
Here is a bit of advice which a Georgia Judge is pronouncing. The advice is just as applicable to other states as it is to those of Georgia and is along the right line.

"We beg leave to make one little suggestion to our brother farmers of the country.—Plant plenty of corn, oats, peas, potatoes, peanuts and chufes; raise plenty of hogs for home use and to spare, have a good garden, and then plant all the cotton you can. If you are in debt this plan will pay your debts if you live economical. If you are out of debt this plan will make your farming interests profitable and a pleasure to you. Then you can go on to next Christmas greet your friends with a happy smile and bid a lasting farewell to old hard times."

New Poultry Show.
Our poultry raisers and exhibitors at our Fair will find much of interest in the following clipped from the Baltimore Sun:

The fifth annual show of the New York Poultry and Pigeon Association opened at Madison Square Garden last week. There are 3,000 entries for the show. 700 more than last year. The largest class is Barred Plymouth Rocks, with 115 entries. Bradley Bros., Lee, Mass., send the largest number, which includes the winners in this class at the World's Fair show.

White Plymouth Rocks have forty-two and the Buff variety, a new breed here, thirty-seven entries. Seventy-two Light Brahmas are entered, and Dark Brahmas, a class which did not fill last year, has twenty-two panned.

Prizes of \$5 and \$2 will be given to the first and second bird in each class. The regular prize list exceeds \$5,000. Most valuable of the specials are handsome silver cups for the best display of Langhans, Barred Plymouth Rocks, two best Buff Cochins cockerels and pullers and for the best Light Brahma cockerels and pullets. The last is the "Biana" cup and is offered by the Madison Square Garden Company.

No one who owns diamonds has commenced to give them away because of the glut in the market that is expected.

The latest trust is that being formed by the trans-Atlantic steamship companies. It would be much better if it should result in causing Americans to see a little more of their own country, instead of flocking to Europe every summer.

NOTICE.
The King's Son's will please meet at the Y. M. C. A. Hall tonight at 8 o'clock. A full attendance is desired.
W. P. RUN, Sec'y.

"A good shape is in the shears mouth."
—Dutch Proverb.

Why is it that some people's clothes never fit them—only this—they are not out right. Now we have a line of samples from the largest tailoring establishment in N. Y. They make all goods to order and guarantee a fit. The prices are reasonable for custom made goods, if you need a suit call and see our line of samples. New goods now arriving.

J. M. HOWARD.

EDUCATIONAL FEATURES.

The Value of the East Carolina Fair to Teachers and Students.

The Fair at New Berne, the 19th to 24th inclusive, will be especially interesting to teachers. It will be an opportunity for the study of natural history, and no subject is more interesting to children. Game, fishes, birds, animals, etc. of all kinds will be on exhibition. The World's Fair exhibit will also prove interesting and instructive. There are many educational attractions for old people and for young people.

The schools should suspend for two or three days without loss of time to teachers—private and free schools and all who can do so should attend, and they will be amply rewarded. We are glad to know that many teachers are going. It is to the interest of the children under their charge for them to go. If convenient go on the 20th or 21st, and remain until the 23rd or 24th, which will afford full opportunity to see everything on exhibit, besides the pleasure of a few days of recreation and of seeing friends.—News Observer Chronicle.

The above notice from our contemporary of the State's capital city is one that all friends of the East Carolina Fair will greatly appreciate. Object lessons make an abiding impression and such an exhibition as annually given here cannot fail to be instructive as well as interesting. Entire schools have attended in a body in the past and we will be glad to see many others at the exhibition next week.

The public are interested strongly in the Fair and we believe the exhibitors in every department will be so full and satisfactory, that every one who comes will depart satisfied and glad that they made the visit.
