

THE JOURNAL.

Crocker says "the tariff is a local issue. A crocker is a local politician."

"In a man's life no more than a dog's that depends very much upon the dog, and somewhat upon the dog."

Gov. Nathan, of Georgia, offers a reward of \$350 for white caps. A good many second hand ones can be obtained in this city.

The Board of Church Extension of the M. E. Church has placed upon the market \$50,000 of bonds, running three or five years at 5 per cent. for the relief of needy churches.

The Bishops of the M. E. Church have decided that a pastor cannot drop from the roll a church member on account of delinquency in paying church dues.

Down go silver and wheat. The big bugs who hold the gold have it about all their own way. Where is the Moses who will lead us to profitable bimetallicism?

Capt. G. T. Real, who has the distinction of being the only medical storekeeper in the Army, will be retired on the 25th instant and the office will then cease to exist.

Never before was it so cold in the West. A report comes from the northern part of Oklahoma that six members of one family were murdered by the father to prevent their suffering while dying of the cold.

Henry Rich an old citizen of Savannah Ga. committed suicide last Monday because marriage is a failure. He had been married three times without finding the coveted domestic filly.

Crocker is right in one thing. He says: Congress should either pass or defeat the tariff bill at once, as something must be done to relieve business of the uncertainty that now exists.

Mr. N. Biggs, one of the trustees of the Baptist Orphanage at Thomasville, is authority for the statement that the orphanage is in better condition than it has ever been, and is out of debt. There are now 150 children in the Baptist orphanage. The superintendent urges that accommodations be provided for fifty more.—Ex.

In a recent issue of the New York Herald, the address of Sarah and Elizabeth Morrison, daughters of John Morrison and Sarah Skinner, was asked for. They are supposed to be in the South and may be in North Carolina. They are Scotch people and a fortune is waiting for them. Those desiring further information can address H. B. Mitchell Solicitor, Peterhead Scotland.

Gen Evans and Hon W. Y. Atkinson are canvassing Georgia as candidates for the Democratic gubernatorial nomination. They are both good men. Mr. Atkinson's ardor is carrying him into the religious field for political influence, when in truth there is not a pure Christian in Georgia than General Evans. We trust that the Baptists and Methodists of Georgia will not sell their robes in a scramble for office.

Killed by His Sweetheart's Father.
ASHEVILLE, N. C., Feb. 16.—A special to the Citizen from Marshall says: Willis Morgan, brother of Deputy Sheriff Jesse Morgan, of Buncombe county, was shot and instantly killed at Marshall, Madison county, by G. R. Sams, who is a brother-in-law of M. E. Carter, collector of internal revenue for this district.

Blockade Stills Seized.
ASHEBORO, N. C., Feb. 16.—Deputy Collector Troy seized and hauled out a large blockade still from J. M. York, Soapstone mountain, Randolph county, Wednesday night.

Raleigh, N. C., Feb. 15.—Collector Simmons is informed of the seizure of the illicit whiskey distillery of J. F. Cain, at South Lowell, Durham county. The still had 125 gallons capacity. Ten barrels of contraband whiskey were seized at Durham.

An Election Inspector Goes to the Penitentiary.
NEW YORK, Feb. 16.—Dennis J. Bookley, who was an inspector of the eighteenth election district was convicted on Tuesday of receiving fraudulent votes, was sentenced this morning by Justice Barrett to serve one year in the penitentiary and to pay a fine of \$500.

Resolutions of Respect

At a regular meeting of Vanceboro Lodge No. 433 of Free and Accepted Masons, held in the Masonic Lodge at Vanceboro Craven County, North Carolina on Feb. 14th, 1894, the following preamble and resolutions were unanimously adopted:

Whereas it has pleased the Supreme Ruler to remove our well beloved brother, Roderic D. Williams from our midst and elevate him to that glorious and celestial lodge on high, and whereas; in the death of brother Williams, this Lodge is called upon to mourn the loss of a worthy member, and also one of the charter members; (He also held several prominent stations in our Lodge.) One who in his daily walks practiced the great fundamental principles of our order the widow and fatherless a true friend, in his life. His wife and children an affectionate husband and indulgent parent. And in the community a good and useful citizen. Therefore be it

Resolved, that we deeply sympathize with the afflicted family of our deceased brother in their sad bereavement.

Resolved that as a mark of respect for the deceased brother, we will wear the usual badge of mourning for the space of thirty days.

Resolved that the thanks of this lodge be tendered to the Master and brethren of St. John's Lodge No. 36 of Richmond Va. for their kind and fraternal regard extended to our brother during his sickness.

Resolved that the above preamble and resolutions be published in the NEW BERNE WEEKLY JOURNAL, and a copy be sent to the St. John's Lodge No. 36, at Richmond, Va., and also a copy be placed among the records of Vanceboro Lodge

Taking Cold.

Catarths should receive careful consideration, instead of the neglect which they generally meet with until they have fastened on the part affected so much as to excite the attention, and perhaps alarm, of the sufferer.

A person in good health, with fair play, easily resists cold. But when the health flags a little, and liberties are taken with the stomach or the nervous system, a chill is easily taken, and according to the weak spot of the individual, assumes the form of a cold, or pneumonia, or, it may be, jaundice. Of all causes of "cold," probably fatigue is one of the most efficient. A jaded man coming home from a long day's work, a growing youth losing two hours sleep over evening parties two or three times a week, a young lady heavily "doing the season overfed and with a short allowance of sleep, are common instances of the victims of "colds."

Luxury is favorable to chill-taking. Very hot rooms, soft chairs and feather-beds create a sensitiveness that leads to catarths. It is not, after all, the "cold" that is so much to be feared as the antecedent conditions that give the attack a chance of doing harm. Some of the worst colds happen to those who do not leave the house, or even their bed; and those who are most invulnerable are often those who are most exposed to changes of temperature and who, by good sleep, cold bathing, and regular habits, preserve the tone of their nervous system and circulation.

Probably a good many chills are contracted at night or at the far-end of the day, when tired people get the equilibrium of their circulation disturbed by either overheated sitting-rooms, or underheated bedrooms and beds. This is especially the case with elderly people. In such cases, the mischief is not always done instantaneously, or in a single night. It often takes place insidiously, extending over days, or even weeks. It thus appears that "taking cold" is not by any means a simple result of a lower temperature, but depends largely upon personal conditions and habits affecting especially the nervous and muscular energy of the body.

How to Kill Nut Grass.

A lady furnishes the Clinton Democrat with a recipe for killing nut grass, as follows:

Prepare the soil in the fall or winter by plowing and harrowing for a smooth surface to work on. In the spring, with the first signs of vegetation, start your scrape. I use an ordinary cotton scrape. Scrape as often as the grass shows up which will be at least once a week for awhile, but it will soon begin to weaken, and at the end of the first season you will think it is dead, but you will not quite have it.

But the second season with persistent warfare you can get it all, but for fear it will rally I am scraping mine the third season. Remove fence and all rubbish where it can conceal itself before beginning operations, for if one nut is left you will hear from it. Scrape just deep enough to clip the thread where it stools.

The ground will soon get so mellow that it will be difficult to scrape shallow enough, and this taught me another lesson, viz.: constant stirring is all that is necessary for a growing crop after the ground has been thoroughly broken in the spring.

Better Than the Famous Cornwall Mine

At Dallas Monday we were in conversation with a prominent King's Mountain man, who has money in the tin enterprise of his place. He says the town has the tin fever. This metal has been discovered already in large quantities and prospecting is still going on. Northern capitalists stand ready with big money to take hold of the business as soon as tin enough is discovered to justify working the mine.

But if the metal is found in sufficient quantities it is hardly likely that the King's Mountain people, who know a good thing when they see it, will allow much of the stock to be sold away from home. Some of the ore ran out about 75 per cent. of tin while the general percentage is about three times higher than that of the ancient and still famous Cornwall mines of England.—Gastonia Gazette.

IT'S QUITE A STEP from the great, gripping, dreadful pills to Doctor Pierce's Pleasant Pellets. See what an advance there is! These little Pellets, scarcely larger than mustard seeds, are the smallest and the easiest to take—tiny, sugar-coated granules that every child is ready for.

They act in the mildest, easiest, most natural way. No violence, no reaction afterward, and the cure is permanent. They cure Constipation, Indigestion, Bilious Attacks, Sick or Bilious Headaches, and all derangements of the liver, stomach and bowels.

They're put up in sealed vials. This keeps them always fresh and reliable, unlike the ordinary pills in wooden and pasteboard boxes.

They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

No matter what you've tried and found wanting, you can be cured with Dr. J. C. Catarrh's Remedy.
