LOCAL NEWS.

NEW ADVERTISEMENTS.

Howard.
C. E. Slover.—Please Find Me.
John Hickson & Co.—Wanted.

The weather bureau says we are to have fair weather to-day and cooler.

The Choral Society will meet this evening, for the second rehearsal, at the Collegiate Institute at 8 p. m., sharp.

The ladies Missionary society of the Baptist church will meet at the parsonage this afternoon at 3 o'clock.

At the entertainment being given up for the benefit of the Naval Reserves, there will be prize drills of fairs and sections.

The beautiful Attar Cloth, Made by Mrs. Gaston Meared of Wilmington, for St. James Church, which took first premium at the Fair on Ecclesiastical Embroidery, was truly a work of art.

At a meeting of the Naval Reserve last night resolutions of appreciation were passed thanking the New Berne Fire Department for courtesies shown in joining the parade of escort to the Wilmington companies here during the Fair.

The State Convention of the Y. M. C. A., will be held in Wilmington this year, from April the 5th to 8th. Arrangements are being made by the New Berne Association to be represented.

Mr. R. B. Nixon has moved his law office to the second floor of the Duffy building corner of Pollock and middle Sts. His office, as well as that of Mr. W. D. McIver, who is located on the same floor, will have electric signal connection from the Middle St. entrance.

The Round Table, published by the faculty and students of the Goldsboro graded schools, contains a nice little letter on the New Berne Fair written by one of the pupils of the school. It well shows the splendid object lesson that can be obtained at Fairs.

The tug David B. Hill, was the boat which met President Cleveland and party at Norfolk. The President was inclined to think that coming after him with a boat of that name was a put up job, but he was told it was merely a coincidence.

The Wilmington Messenger tells of the following big days sport by some of its hunting citizens. Mr. T. D. Meares, Thomas and Richard Meares, Mr. D. Bordeaux and Mr. Norwood Huske took advantage of the excellent weather yesterday to see what they could do in the way of sporting with the birds and "wild varmints." They took to the woods, and what do you think they did? They bagged seventy-two quail, thirteen squirrels and one opossum. They saw two drove of wild turkeys, but got none of them.

One of the diggers for the water works construction attracted some attention yesterday by the arrangement of his hair along the sides of his head. It was cut very close and on top left quite long. The way it stood up was calculated to make an ordinary observer think he had on a narrow close fitting cap reaching from his forehead to the rear of his head. It was a debatable point whether he was trying to introduce a new style of hair cut or whether the financial depression had struck him and he was trying to put a head gear.

The Water Works.

1972 feet of water works pipe were laid yesterday—a good days work. 40,000 feet will be laid altogether.

The work is now completed on East Front street from Queen to short street with hydrants a each corner passed. It is also completed up Union street and up Johnson as far as Hancock street with the exception that one hydrant remains to be put in today at the junction of Johnson and Middle.

The excavations for further pipe laying extended to Metcalf where the last hydrant for that street will be located.

About a square and a half was opened on Pollock street, and the pipe layers will no doubt be at work there this afternoon.

Twelve inch pipe will be used on Pollockstreet throughout its length and the same on Queen street from its junction with Pollock on to the water works giving an unbroken main line of that size. Eight inch pipe will be used on all of Queen street except the part just spoken of as having the twelve inch and six inch will be used everywhere else.

Nearly all water works systems have some four inch pipe; we have none, and consequently a good stream will be furnished all over the city.

Coming and Going.

Capt. K. E. Terry, of Stella is in the city on his way to Baltimore; he leaves this morning.

Mr. J. A. Meadows and Mr. Thos. Meadows went down to Wilmington yesterday on business.

Mr. Bill Humphrey returned from Jacksonville last night where he has been spending a few days.

Mrs. J. F. Giles and son, of Jacksonville are in the city stopping at Mr. Bill Humphrey's.

Capt. Dave Roberts is in the city for a short time with his government steamer Gen. Geo. Thom.

Capt. Pritchett, of Baltimore, who for a long time ran to this port his last command, being the steamer Newbern, previous to Captain Southgate's assuming charge, took the round trip on the steamer Albemarle. Old friends were glad to see him again.

Mr. and Mrs. C. M. Kehoe left on the steamer Newbern to visit Mrs. Kehoe's sister, Mrs. Wood of Norfolk.

Messrs. F. J. Lennox, Wm. J. Congdon and M. Lewis of Utica, N. Y., are in the city stopping at the Fulford House. Mr. Lennox is superintendent of construction for Russel Wheeler & Son of Utica, N. Y. Manufacturers of Hot water Heaters and Hot air furnaces. They are now engaged in erecting a hot water heating plant for Mr. C. E. Foy in his residence in this city. We learn that quite a number of our citizens are contemplating having the same Company to put in heating plant for them.

Amateur Fairs.

Every year after the East Carolina Fair has its exhibition, the small boys of the city organize themselves into Fair Associations, and hold Fairs for weeks afterwards. This year a company of girls about a dozen years of age, with no idea of being outdone have opened a fair of their own, at Mrs. E. S. Streets' to hold every afternoon this week from 3 to 6 o'clock.

They charge ten cents for a season ticket, and three cents for one admission, and have a side show of delectable dolls which they charge five cents admission.

We inquired who was the President; "Oh," was the reply, "we are all Presidents."

A Good Article on New Berne.

Last night's Wilmington Messenger had a fine column and a quarter article on the city of New Berne, its possibilities and high future. The article treats of the transportation, the city government, the manufactures, fish markets, shipping, water-supply, hotels and newspapers, fishing and trucking interest etc.

It gives us credit for being one of the finest fish markets to be found in any part of the country, of being the center of the best trucking section of the country of having many large manufacturing enterprises which it enumerates, and of New Berne's being a desirable place to invest capital in.

Truckers Expressing Themselves on Transportation Matters.

The Charleston, S. C., truckers are striving for more satisfactory railroad accommodations on truck transportation by rail. They want lower rates and also better service.

It is well enough for those affected to investigate and take action upon these things ahead of the season—it will be too late then to act effectively.

We learn from the Kingston Free Press that two Kingston gentlemen, Messrs. J. W. Grainger and L. Harvey went to Wilmington to see the coast line officials and try to make arrangements for having quick transportation at cheaper rates for Kingston truck via Norfolk.

The Charleston truckers want to arrange for their truck to be carried to Norfolk and thence North by boat. Now if the W. N. & N. R. R. was already built on through to Norfolk there would be a big run of business it might secure. We all hope to see the extension made before long. It will mean a vast increase of business for the road and a great help for New Berne at the same time.

PREMIUMS AWARDED.

At the Seventh Exhibition of the E. C. F. O. G. & I. Association.
Department 10.
Class 1.—Children Work

Plain sewing, Miss Bettie Windley, 50 cents; calico quilt, Miss Bella Cook, 50 cents; dressed doll, Miss Bettie Windley, 50 cents; crocheted mats, Miss Myrtle Disoway, 25 cents; silk embroidery, Miss Vivian Wood, 50 cents; best outline embroidery by girl 6 years old Rowena Whitty, 25 cents.

M. White, Kinston diploma; best fruit basket, Colly Veneer works, Wilmington, N. C.; diploma; J. S. Carr, Durham, N. C., tobacco exhibit, diploma.

(To be Continued.)

Our Public Building.

A special to the Charlotte Observer gives the following:
"Representative Grady is anxious to stir up the supervising architects office relative to the New Berne public building, and consults with Senator Ransom to that end. No plans have been performed and only the site has been purchased."

We are glad to see our representatives moving in the matter. We can see no reason why they should not succeed. Several years ago, through the efforts of Hon. F. M. Simmons when he was the member from this district, congress appropriated the money. What has become of it?

A recent order from headquarters to have the purchased site cleared in 30 days gave rise to hopes which have not been realized. Still, we keep on looking for the orders for the work to begin.

SINGULAR INCIDENT.

A Seven Year Old Boy With the Word "America" Around Each Eye.

It is a true saying that often you have to go away from home to find out the news. In this instance the N. Y. Press and Philadelphia Record both relate a most singular incident in one of our adjoining counties that we had not before heard of.

They hold Mr. Jessie Spright one of the most prominent citizens of Pitt county, N. C., authority for the statement that Green county, is the home of one of the most remarkable freaks of nature in this country has probably ever produced. This freak is a 7-year-old son of Mr. Lassiter, a farmer of Green county. Around the pupil of each of the boy's eyes, in circular shape, is the word, "America," in perfect characters. The boy's eyes are dark, and the letters are brown and legible.

CULLED ITEMS OF NEWS.

Among the yellow fever deaths at Rio are a new York banker and the Italian consul.

Three daughters of a wealthy and respected New York farmer became ravaged manics after having attended a series of spiritualistic seances.

Many distinguished confederates and thousands of people attended the funeral of the honored Early.

The Australian ballot bill was defeated in Virginia, but there are probabilities of its being re considered.

The President is back at Washington from his North Carolina hunting expedition. He reports an enjoyable trip, having killed about thirty ducks, twenty geese and one swan.

The Wilmington Messenger says that the first commencement of Robeson Institute, at Lumberton, N. C., will take place Friday, June 15th; ex-Governor Jarvis, of Greenville, N. C., will deliver the literary address. This school is in a flourishing condition, 163 pupils having enrolled this session.

Roll of Honor.

The Silver Dale Academy Roll of Honor for the month ending Feb. 28th 1894, consists of the following:
Misses Eva Mattocks, Essie Hargett, Barbara Shute and Rosa Shute.
Masters Homer Mattocks, Leo Mattocks, Percy Mattocks, Albert Mattocks, Owen Parker, Shonnie Hargett, Gilbert Hargett, George Mattocks, Fred Mattocks, Grover Mattocks and Johnnie Shute.

The News Observer Chronicle says that Gov. Carr has offered a reward of \$200 for the capture of Joseph P. Moore and William Littleton, who are wanted in Fayetteville for burglary. Littleton is also wanted for various other crimes. He is five feet six inches high is twenty five years old and weighs one hundred and fifty pounds. Moore is six feet high, is twenty-one years old and weighs one hundred and sixty-five pounds.

"Fine clothes is never out of fashion."
DANISH PROVERB.

When you buy an article of clothing, get the best you can afford, it pays in the end and costs but a fraction more in the beginning. It costs as much in labor to make an eight dollar suit as it does a 12 dollar one. The difference, four dollars is in the cloth. When you get ready to buy call on us for what you need. We try to treat you fairly. New lot of Diamond Shirts just in, all sizes
