My samples are from the largest importing houses. You can get suits at your own prices, as one house alone occupies 15,000 square feet of space.

P. M. CADWICK,
Merchant Tailor, 48 Pollock Street, near Postoffice.

LOCAL NEWS.

NEW ADVERTISEMENTS.
Howard.
Found.—Bunch of keys.

To-night is the regular meeting of the Naval Reserve.

Mines L. Schultz & Co. have gotten into their new quarters, the store formerly occupied by Mr. W. P. Jones.

Wilfred Clarke, the fine comedian, well known in New Berne, appears at the opera house tonight.

Another alarm but no fire yesterday. A burning chimney seems to have been the cause of its being sent in.

There was snow Sunday night between Raleigh and Durham sufficient to lay on the house tops, but not much on the ground, Greensboro and Goldsboro, each had it about like we did, a slight fall but none to stay.

An interesting revival is in progress at Beaufort in the Methodist church. It has been in progress about two weeks. Rev. R. F. Troy, of Weldon, is assisting the pastor in the meetings. There are some twenty or thirty penitents and professions of conversion are being made.

The water works pipe-laying continues to go forward with rapidity. Broad street was finished Saturday. The portion of East Front by the rock wall was finished yesterday all but a little filling in to be done this morning, and the force is now working upward on New street.

Mr. Joe Congdon received a slight wound at the Congdon saw mill yesterday. The saw struck a stick in his hand with which he was raking under it, and knocked the stick up striking him on the chin. Though painful enough to cause him to quit work, we are pleased to learn the wound is by no means serious.

A fig tree in the back yard of the Fulford House presents an unusual sight for the month of March. Every living branch is literally crowded with young figs near the size of partridge eggs, and if the weather does not get cold enough to kill them, they will be ripe in eight or ten days.

Now that the telephone patents have expired, it has been suggested that if the city of New Berne were to establish one and charge less than half what the old companies did—say two dollars a month for business houses, and one dollar for dwellings, it would bring in a net revenue to the city of some \$1,500 yearly, it would be a great saving and convenience to the business people.

Here is another lesson why business men should keep their surplus cash deposited in their home banks. It was only a few months ago that one of our citizens had taken from his safe, which he had neglected to lock, over a thousand dollars in cash, and now reports that a wealthy farmer of Mercer county, Ky., having no confidence in banks, placed \$4,000 in a barrel of shelled corn in his barn. A few days later when he went to make a "draw" he found that some one had "made a run" on the barrel and there was nothing left to pay his "checks." There is a good lesson in this man's misfortune for those who are in the habit of laying up their treasures in such insecure places. Better trust the banks.

The "Old Diner" Club.

Mr. J. F. Hartsfield's check in violation of the prohibition of "10 silver times," which is placed in his jewelry, enabling him to get some attention to attract the notice of his customers. It is built on the style of those in the 1890 years ago—when Columbus discovered America—and is quite a novelty.

The check has been drawn and only one day. The check is a 10 dollar note, and the amount is as large as the note in the 1890's. It is quite a novelty.

Mr. Roy's Funeral.

The bringing of the remains of Mr. W. G. Royall to the city was delayed somewhat by the rain of Sunday morning. They reached the city between one and two o'clock p. m., and the funeral services conducted by Rev. J. T. Lyon took place at the graves at two o'clock.

The bell of Centenary church tolled while the procession was moving from the wharf to the cemetery and it was joined by many citizens on the route in addition to those at the wharf.

The grave was covered with beautiful floral designs prepared for the sad occasion by numbers of our citizens.

A Hen-Rooster Freak.
A strange chicken story comes from Stonehall. It is that a colored man named Saml Roberts has a young fowl that has every appearance of being a rooster, but the bird has gone to laying, and not to be outdone by the common kinds, he, she or it, is laying two eggs a day. Parties from Stonehall, among them Capt. H. H. Dowdy says this is a positive fact.

We suggest that the eggs be saved and set. A chicken like this deserves to be the founder of a new breed.

To-night is the time.
The annual meeting of the stockholders of the East Carolina Fish, Oyster Game and Industrial Association is to be held to-night at 7:45 o'clock, in the City Hall.

The annual election of officers will be held, the report of the Secretary and Treasurer showing what was accomplished by the last Fair be made and other business of importance transacted.

It is hoped that every stockholder will be present. There is reason for special effort to be present as we showed in Sunday's paper.

Thursday Night in New Berne.
The University Glee Club is composed of the following singers, all of whom will appear in concert Thursday night at the Association Hall:

First Tenor—F. N. Cooke, W. J. McCortley, J. H. Daingerfield, A. W. Mangum. Second Tenor—D. Eaton, F. B. McKinnie, J. W. McAllister, W. R. Webb. First Bass—Charles Robertson, D. Lindsay, P. W. McMullan, J. L. Patterson. Second Bass—E. B. McKennie, B. E. Stanley, F. F. Belinson, F. N. Benbow.

Our Barrel Factories.
The East Carolina Barrel Factory has so far made twelve or fifteen thousand barrels during the few weeks since it started. They had a large number engaged in advance and as the truckers have now commenced to take the barrels they have increased their force and are making about 500 a day.

The barrel factory of Messrs. Jones & Co., of Elizabeth City, has now just closed the fifth week of running. From 300 to 350 barrels per day are being made. Mr. J. S. Shriveley is in charge of this factory as manager. Mr. F. W. Jones, one of the proprietors, who was here at the opening of the factory, is expected back tomorrow.

Coming and Going.
Mr. J. M. Hines left yesterday morning for Trenton to represent the JOURNAL at Jones county court.

Mr. Kilpatrick, of the Free Press, and Mr. Hardy, of the Carolinian we are informed will also be on hand in the interest of those papers.

Hon. F. M. Simmons, F. H. Pelletier, O. H. Guion, W. D. Malyer and W. E. Clarke left to attend Jones County Superior court. This is Mr. Clarke's first trip on professional business since he left the post-office, but he told he was not simply going to be there to let it be seen he was following the profession again, but that he had work to look after.

Mr. Jas. B. Hill, who has been spending a few weeks in Suffolk, Va., returned home last night.

Col. J. D. Whitford returned home from Washington, D. C., via Raleigh.

Mr. Cyrus Gattis and his sister, Miss Allison, of Durham, who came down Saturday, left on the steamer Neuse for Roanoke Island, to teach in the recently built Virginia Dare Academy.

Blades Brox, on Land and Water.
The schooner Chas. F. Strand, Capt. Marshall, which brought in a cargo of coal last week for the New Berne Ice factory has been chartered by Messrs. Blades Brox, to take lumber from their saw mill here to their planing mills at Elizabeth City.

The ex-man large John H. McCabe, which has been on this run for the last few years has been chartered by the Neuse river lumber company at Club-foot creek to run to Snow Hill, Delaware.

The Strand will continue with Messrs. Blades Brox until their own schooner which they are having built in Delaware is ready. This is expected to be about the first of June. It will be a three-masted schooner capable to carry about 250,000 feet of lumber at a load.

About two miles of the new railroad which Messrs. Blades Brox are building a mile below Pollockville to bring logs from the interior down to Trent over for milling to their mill is finished—it will be completed in about eight miles in length.

There are two engines made by the same works which will be used in the mill. They are 100 horse power and will be used to run the mill. They are being sent to the mill by the railroad.

MASTER DAY.

Commemorative Services in the Episcopal, Methodist and Catholic Churches.

Notwithstanding the inclement day, Easter was celebrated at Christ Church very handsomely and interestingly. The only variation in the Services was an early celebration of the Holy Communion at 9 o'clock, at which a considerable number of persons were present and participated.

This was followed by the 11 o'clock Services with sermon and a second celebration of the Eucharist, and at 3 o'clock the usual Sunday School celebration with the processional and recessional. The offering was made by classes, each class presenting the offering with a floral letter which was placed on a cross and when completed read:

I
S
CHRIST
R
I
S
E
N

The music throughout was very good, and the floral decorations superb.

As each letter was handed up, the word represented by it, and the passage of Scripture from which it was taken, was announced by the Rector, followed by an address explaining the whole design. The sermon in the morning was from the 15th chapter of 1st Corinthians and deeply interesting and appropriate to the occasion.

The Easter offering at morning service amounted to \$388.00 and that of the Sunday School to \$93.00.

At the Methodist church, choice plants were arranged with fine effect in the space surrounding the pulpit and a stand of beautiful cut flower graced the communion table.

The morning service was devoted to the children. It was opened with the singing of the familiar hymn "Around the Throne of God in Heaven, thousands of children stand." This was rendered with pleasing effect by a large number of the girl scholars of various ages dressed in white.

The sermon was addressed to the children; it was from Proverbs 4:28, "Keep thy heart with all diligence for out of it are the issues of life."

An illustration of the operation of the Holy Spirit in the heart of man was shown by two clear chemicals. A little of one was added to the other and it became discolored. This was shown as the beginning of the work of the spirit as he shows the man his innate villainess. More of the liquid was added and the mixture again became clean, showing how the spirit as its work is continued in the heart purifies it.

The children attended well—many were out to church than usual, and they were interested in the services.

The church made special Easter offering in the morning in addition to the regular collection, and the Sunday school made one in the afternoon. The Sunday school collection was \$65; that of the church \$467.45. It not being a fair day all the envelopes that were out were not to be considerably increased.

The Catholic church also had abundant floral decorations and the day was observed by celebrating mass, by special singing and by a sermon applicable to the day.

THE BAPTIST MEETINGS.

Used Services Sunday and Again Last Night.

All three services in the Baptist church Sunday were well attended and quite interesting as was also the one last night.

Mr. Elson has up to the present been addressing himself more to professing Christians than to those outside of the pale of the church. He is now preaching more directly to the unconverted. Sunday morning sermon and the one in the afternoon likewise were mainly for the former class. The text in the morning was Palm, 51: 13, 13. Restore unto me the joy of thy salvation; and uphold me with thy free spirit. Then will teach transgressors thy ways and sinners shall be converted unto thee. The discourse dealt in causing several church people who had lost their first love to reconsecrate themselves to the Lord's service.

In the afternoon an edifying sermon was delivered upon the office of the Holy Spirit: It was made plain from bible references that the Spirit was a person and not an influence and that he was the source of the church's strength, and it was shown that it was his office work to convict of sin, to testify concerning Christ to give hope and to give liberty and that the reason Christians do not work is not because of timidity or similar disqualification but because they lack the liberty which the spirit gives. Being "full of the Holy Ghost" is what gives one Christian more power than another to do and is also what makes the work of one more effective than another though each may say the same thing.

At the evening service the congregation of the Presbyterians united with the Baptists.

The subject on this occasion was the "The Final Judgment," Rev. 6:17: For the great day of his wrath is come, and who shall be able to stand!

Mr. Elson said that aside from divine revelation he would believe in the necessity of a judgment because justice was not administered, the man of evil prospering in his ways and unfeeling toward his suffering victim was a proof of it. How would this matter be righted if there were no judgment.

He believed the judgment would be held right on this earth. It was to be a great day and the way of the ungodly shall perish.

Who shall be able to stand? Not the skeptic or the infidel. He didn't believe much in skepticism or infidelity. Generally the man who claimed not to believe in a God or a hell was up to some secret devilry and would like to believe that way.

Blasphemers will not be able to stand. Backsliders will not be able to stand. The evangelist believe that a man "once a christian is always a christian but the backslider is often a deceived person.

The drunkard will not be able to stand; he cannot stand up here and how can he stand up yonder!

The moralist will not be able to stand. He in effect says to God: "The sacrifice of your son was of no use. I am good enough to go to heaven without it." He substitutes his morality for the blood of Christ; this is a delusion.

The procrastinator will not be able to stand. Procrastination is not only the thief of time; it is the thief of souls—more people are lost though putting off attending to their salvation than from any other cause.

Who will be able to stand? Mark 16:16. He that believeth and is baptized shall be saved. Trust in Jesus Christ—that is all. Look unto him for salvation and he able to stand.

The meeting last night was the best yet and there were a number of conversions.

Both of the front pews were filled with the penitents. The sermon was on regeneration and the evidences by which we know that we are saved.

The Music at the Teachers Assembly.

Col. E. G. Harrell, Secretary of the North Carolina's Teachers Assembly writes Mr. A. Cohn of this city a letter appreciative of past service and according him the exclusive privilege of furnishing instruments for the Assembly this year.

Mr. Cohn takes great pride in furnishing to the Assembly pianos and organs of the most approved kinds and those best adapted to the Assembly's requirements.

That he accomplishes the object for which he aims is evident from Mr. Harrell's writing him that he thinks "the same grade of instrument for the coming season will be about what we want."

Miss Robbins of Raleigh, will have principal charge of the music this summer and she will be assisted by Miss Holding, who was one of the players in the instrumental music contest last year.

The interest along every line already manifesting itself in the approaching session of the Assembly, its eleven one messages conclusively another great success for it.

CULLED ITEMS OF NEWS.

Chinese annals 2700 B. C. mention the tea plant.

Senator Colquitt has again rallied and hopes are again entertained for ultimate partial recovery.

The only growing thing in Jackson park, Chicago, commemorative of the world's fair, is said to be a beautiful lime tree planted in May, 1892, by Gen. W. Childs. It is on the wooded island, directly across from the Horticultural building.

There is more danger to be apprehended from moral lepers, of the Breckinridge type, than from those suffering with the loathsome Asiatic disease. And the time will doubtless come when the former will be treated just as the latter are now—separated from healthy people.

It seems that the United States have been outwitted for this season in the sealing business. It seems the agreement reached is not binding on British subjects until satisfied by a British statute and that the Canadian dealers will be thus left free to catch seals where they please outside the three mile limit. The opinion of one of the members of the Canadian House of Commons is that if the programme of the Canadian government is approved by Earl Rosebery there will be a collision between the cruisers of the United States, which are shepherding seals northwardly and the British men-of-war instructed to protect British sailors from any interference.

Coxy's march on Washington with his army of discontents has begun. So far from being the formidable array that was predicted it has so far been of a farcical character. There were several demonstrations before the first step was taken and about 75 stragglers was what was in line when it started and 25 less were in line before eight miles were traveled. Thousands viewed the motley procession, and treated it as a huge joke. Marching in a snow storm soon discouraged the little band but the officers tried to encourage them. Coxy has a \$40,000 stallion Acolyon which he paid \$16,000 and owes \$24,000. Owing to his insane act the creditor has attached the animal and other creditors are expected to follow suit on other property. Half a dozen horses in his "army" belong to Coxy. Reinforcements are expected to join as the army progresses.

POSTPONED! You May Travel

NEW YORK, Mar. 19, '94
JOHN DUNN, Grocer,

Sudden illness of our Demonstrator, Miss Reddy, compels postponement of Exhibit at your store to work beginning April second. Please announce change in Newspaper.

Better Bargains BE OBTAINED.

Those who go from place to place, finally, after looking every where, come back to us to make their

Purchases, FOR THEY FIND THEY can not do as well anywhere else.

Both of the front pews were filled with the penitents. The sermon was on regeneration and the evidences by which we know that we are saved.

The Weather and Track.

From ranging in the neighborhood of seventy last week the thermometer dropped until it was but little above the freezing point at 9 o'clock last night.

A telegram from the weather bureau brought the alarming information during the day that we were having a killing frost last night, and also to night soon. It does strike us as bad as predicted it would be a serious matter, as much of the crops is just in condition for great injury.

Poss were well advanced—picking was soon expected to begin and the sudden change if it becomes severe would affect them greatly. Potatoes are also in condition to be easily cut down.

Besides this many beans are up—some have been worked one time, and there are also cucumbers, squashes, &c., up and some tomatoes have been transplanted to the open air.

However if the worst comes, only partial destruction will follow the older crops and it is not too late to remedy the young ones just up, if they do get killed, though of course it will be done at a loss.

That 18 inch gun which was tested near Washington the other day is forty feet long. It shoots a 1,100 pound projectile which requires a charge of 500 pounds of powder. Every shot costs more than that powder necessarily will not be used.
