CADWICK, Merchant Tailor, 43 Pollock street, near Postoffice. a111w

LOCAL NEWS.

NEW ADVERTISEMENTS. HOWARD. Mrs. T. A. Henry.—For rent. W. D. Barrington.—Zeigler shoes. W. D. Barrington.—Van Houten's Coons.

Mrs. W. S. Blount's residence is undergoing a repainting. The meetings in Hancock Street M. E. Church are largely attended and are good and profitable to those present. The small black boy from the country now peddling wild honey suckles on our streets as a means of getting an honest nickle.

The resolution passed by the Democratic congressional caucus in favor of repealing the State Bank Tax will be found on another page. Mr. T. M. Gilpin, United States pension examiner moved both his office and residence yesterday to a portion of Mrs. E. B. Green's residence.

Tuesday night it snowed all night in Washington City and telegraph wires north of that place were broken down by the snow. It snowed in Baltimore yesterday but there was none in Richmond. People from about Vanceboro say the frost has not injured the potato crop immediately around that town and that shipments from there are expected to be two days earlier than from nearer the city.

There will be a match game of baseball this afternoon at 3 o'clock at the Acade, my Green between Capt. Herbert Moore's club and Capt. Thomas Roberts' which Capt. Moore's nine held last year. Word was brought to the city yesterday that the body of Mr. Will Callahan, of Chesapeake City, Md., who was drowned Sunday, April 2d about four miles below New Bern had just been found near the scene of the accident by a colored man named Griffin.

The weather bureau telegram of yesterday simply predicted frost last night for "North Carolina" without specifying any particular part. No apprehension was felt here, as the thermometer early in the night, registered above fifty and it was cloudy besides, which was still farther against the coming of the frost, and rain set in a little later.

The Millinery Opening. Mrs. Bettie Whaley, Mrs. B. B. Lane, Mrs. S. H. Lane and Miss Harriette Lane all had their millinery openings yesterday. The displays at their millinery stores were exceptionally fine. The windows and the interior were all abounding with artificial beauty and the latest styles of feminine head-dress.

The ladies visited the stores in great numbers—and kept busy in inspecting, admiring, trying on and purchasing hats—the results will be seen next Sunday. But, though, numbers of the hats found new owners, the stocks were large enough to keep them from hurriedly being mixed and the stores will be again thronged today with the fair purchasers who intend to be among the first to shine in the splendor of the new spring styles.

Died From the Gun. Miss Florina Bessie Land, daughter of Mr. Thos. A. Land of Arapahoe, died on Tuesday morning at 11 o'clock—just two weeks from the time she was accidentally harmed. Her sufferings during the time were fearful.

The deceased was fifteen years old last October, and was an amiable, industrious and lovable young lady. She was a niece of policeman J. E. Land of New Bern.

Married. At the residence of Mrs. Strickland, on George street, Wednesday April 11th, Mr. H. M. Price to Miss Mary Meekling, Rev. Regis Ford officiating.

At the residence of Mrs. Strickland, on George street, Wednesday April 11th, Mr. H. M. Price to Miss Mary Meekling, Rev. Regis Ford officiating.

Coming and Going

Dr. W. J. Montfort of Onslow county, was in the city yesterday. Mr. Benj. Brock and son from near Trenton are in the city at Mr. J. M. Hines. They brought a lot of cotton which they sold yesterday. Mr. Cyrus Foscoe of Fowles is also in the city. Mr. B. S. Guion has left to spend a few weeks at the north.

Another Window Broken For Robbery The window breaking thief tried his hand again Tuesday night and by smashing a hole through one of the large glass in J. B. Holland & Co.'s front window he succeeded in extracting three pairs of men's shoes. He left no trace behind.

It is a pity that each one who tries the trick could not be captured immediately and landed in the penitentiary. A young crown negro was observed by one of our citizens near midnight, hanging around in the neighborhood and appearing to be on the lookout for any one coming.

That may have been the fellow and if thought had been taken and a watch instituted upon his movements he might possibly have been taken in the act.

Rev. Mr. Gattis Recovering. Rev. T. J. Gattis of Durham was among the passengers on the steamer Neuse yesterday. He was en route to Manteo, Roanoke Island, where his son and daughter, Mr. Cyrus W. and Miss Minnie are teaching. Mr. Gattis goes to spend a few weeks with them for his health.

The report recently got started that Mr. Gattis was near death from a cancer. Those who have not yet heard the contradiction will be glad to learn that he has no such affliction. He was taken dangerously sick nearly six weeks ago and had repeated hemorrhages, but they were the result simply of indigestion from which he has long been a sufferer. There was no suspicion even of cancer in his case.

Mr. Gattis is now far on the road to recovery and his physician give him assurance that within the next month he will have as good health as he has had for twenty years.

We Are One of the Towns, Too. An exchange publishes a statement of the population of "the principal towns of North Carolina," as given in the health reports, and though the list reaches down to those having only 2,500 inhabitants, New Bern is entirely omitted. We think those compiling such lists ought to be careful not to have omissions.

New Bern, according to the city census taken last year had 8,500 inhabitants and at the same rate of increase that census showed since the National census was taken we would now surely have 9,000. And not only are we steadily increasing but we have no cause to complain financially. There are few towns to be found anywhere that stood the troubles in business circles of the past year as well as New Bern.

The diversity of our industries is largely the cause of this—there is something to bring money in, the year round, and if one thing does not strike right something else does and preserves the balance very well. New Bern may be overlooked, but she is on a solid basis and is going ahead every day.

Gratifying Results From the A. & M. College A last year graduate of the A. & M. College, Mr. W. J. Matthews, has been elected to take charge of the machinery at the Morganton Deaf and Dumb Asylum—a position which the News-Observer Chronicle says is very complimentary to a young man. Another graduate has a good position of a superintendent of machinery in Florida.

North Carolina has had to send out of the State for many a mechanical engineer and it is gratifying to see that through the work of this college that the tide is turning and that its graduates are sought for both at home and abroad. This is sufficient proof that the college is doing solid and practical work.

To obtain a foremost position as a mechanic is an ambition worthy of any young man. It requires a good mind and close application to do this, but when a young man fits himself to meet the requirements of such positions there is always a demand for his services at good salaries. The establishment of this college is one of the wisest things the State ever did.

The Supreme court of South Carolina assembled in extra session Tuesday. It was thought it would render decisions in the dispensary cases, but it adjourned until Saturday. "Your coat may be perfect As fashions now go Your shoes may be pointed Like Wals' "doncher know," Your tie may be fetching And quite the right style, But you'll never "an fall" Without a new tie." FORT.

You will need a new Spring Hat or "till," why not try our Our stock is constantly being added to and we think we can suit you. See our new line of Stacy Adams & Co.'s shoes, they are the best. J. M. HOWARD.

IMPORTANT CATTLE EXPERIMENT

To Find Out What Causes Texas Fever and What Will Prevent it.

Mr. W. H. Bradford, assistant to Dr. J. H. Kilbourne, of the Government Veterinary Department left Tuesday on the steamer New Bern of the N. N. & W. Line returning to Washington City. Mr. Bradford brought with him thirteen northern cows to be left here for experimental purposes. He placed them in charge of Mr. R. P. Williams who is to have them looked sharply after twice a day and a record kept of their condition.

The point that is sought to be established is what is the cause of the disease known as Texas fever. This is a fatal malady from which southern raised cows are exempt, but northern cows brought south are very subject, and we are informed that if a southern cow is carried north and put with a herd of cattle, they are liable to take the fever, although the new-comer remains the whole time perfectly healthy. It has also been found that ticks are taken north and placed on cattle that they take the fever and there is a theory that the ticks are the cause of the disease when they get upon cattle not accustomed to them.

But the investigations are meant to be of practical use, not simply to satisfy curiosity by a scientific investigation, and it has been found that cattle can be inoculated in a manner similar to vaccinating a man to prevent smallpox, and a mild form of the fever follows. Ten of the cattle turned over to Mr. Williams have been thus treated, and three are just as they were ranging at the north.

Now if the cattle take the disease and all should be alike affected, it will prove the fallacy of the inoculation, but if the un-inoculated cattle should take it and the others escape, it would reasonably establish the fact that a way has been found by which any northern cattle desired may be brought south without fear of trouble.

The development of the experiment will be watched with interest.

CULLED ITEMS OF NEWS.

Coxey's army is storm-bound at Uniontown, Pa.

The ex-register of deeds of Gates county has been sent to the penitentiary for seven years.

The Populists are said to be working extremely hard to catch the colored vote this year. At their conventions negro delegates are in attendance.

The indications so far this month point to \$10,000,000 less in receipts than in the disbursements of the Government for the month of April.

A young white man of Wilmington named John Reynolds has been arrested there on the charge of stealing \$310 from a boiler maker.

Those grape growers who pruned their vines have lost practically all their grapes while those who were behind hand and did not prune will have a fine crop. The Goldsboro Argus says Mr. T. L. Dorth is on a farewell visit to his home and friends in Goldsboro before sailing for China which he hopes to do within one next few days.

In the Johnston county store burning case at Selma, Rev. L. W. Mangum and W. L. Barber are held to appear in court for arson. H. T. Nabors, another of the firm, is discharged, as there is nothing against him.

Gov. Tillman, of South Carolina, purchased of P. G. Saunders of Montgomery a big lot of whiskey on which there was a government tax of \$2,000.—Concord Standard.

The Rocky Mount Argonaut has the following item: "A big movement has started in gold mining in this section. Two mines are now running and several more will be started in the near future. The golden metal will give the golden road a close race this season in Nash and Franklin.

Tuesday Mr. Carlisle continued his argument for the plaintiff in the Pollard-Breckenridge case and when he closed Col. Phil Thompson began the first address to the jury for the defense. His denunciation of Miss Pollard was of the severest kind and nothing within the lines of decorum was too severe for him in portraying her character.

Wilmington Strawberry Shipments. The Star learns that about 250 crates of strawberries were shipped from Wilmington and Weldon Railroad on the 9th inst.

Dr. Porter, of Rocky Point, has been shipping several days, and realizing about forty cents per quart for berries that were by no means first-class. In consequence of the unfavorable weather, the berries shipped thus far have generally been of inferior quality.

"Six days shall thou labor," says the great lawyer. To do good work man must be in his best. This condition is attained by the use of Ayer's Sarsaparilla. It overcomes that tired feeling, quickens the appetite, improves digestion, and makes the work strong.

NOTICE Is hereby given that certificate No. 75 in series No. 1 of the New Bern Building and Loan Association for 25 shares has been lost and that application will be made for a new certificate to be issued in place thereof.

J. M. HOWARD, This April 11th, 1894.
