### THE ROSE FESTIVAL AND ENTERTAINMENT.

The Y. M. C. A. Hall was very prettily decorated last night for the entertainment and festival. Evergreens adorned the walls and the booths were covered according to the regulations.

The pink booth was in the centre of the stage, the red one by the western wall close to the stage, the yellow one on the opposite side and the white one at the rear.

Flowers of the same color as each booth preponderated on each one, but a few of other colors were intermingled with good effect. Piano lamps, candles and Japanese lanterns still further brightened the booths and rooms. The young ladies, costumed to correspond with the booth at which they served, looked charming.

The entertainment, about three-quarters of an hour in length, pleased all. The orchestra did well. "The Joy of Service" was beautifully rendered by the Kings Sons and Daughters. The cornet duet by Messrs. Harper and Wood, and the piano duet by Misses Mamie Daniels and Clementine Whitford, the vocal duet by Misses Stella Roberts and Clarita Clark, and the vocal trio by Misses Stella Roberts, Etta Nunn and Maed Land, were all warmly applauded. The reading by Miss May Hendren was one of the best of the evening.

The programme being over, the assembled audience, about a hundred in number, gave the attention to the tempting refreshments.

The attendance was very gratifying, considering that it was a rainy night, and the pleasurable and financial results were both very satisfactory.

The sum of money realized was about forty dollars.

The white booth took in the most money and the pink one was being the prettiest. Save the disadvantage in color, the yellow and red booths were not one whit behind the other two in design or taste in arrangement.

The orchestra won two reputations—its fine music, and wonderful ability in getting away with cream and cake.

### WASHINGTON LETTER.

#### Senator Jarvis Chairman Civil Service Committee—C. N. Vance—Bribery Investigation.

It is to be hoped that the sale of the Richmond and Danville Railroad and its connecting branches will not effect the personal of the officers of the road located here. Everybody in North Carolina and Virginia knows general Capt. U. A. Turk, the efficient General Passenger Agent and his corps of subordinates, several of whom are North Carolinians. Capt. Turk has done a great deal to build up this road by his executive ability and fidelity to his interest. His files are located in the splendid building on Park Avenue, owned by the road which will in time be worth twice the money paid for it. The new management will find that such men as Col. A. B. Andrews and Capt. W. A. Turk, are difficult to secure in this or any other country. New Yorkers of their mental calibre make from \$20,000 to \$50,000 a year with less work. It assumes, therefore, that there will be no change either in the location of the officers or in the personnel of the officers.

Senator Jarvis has been made Chairman of the Civil Service Committee. He promptly appointed Charles N. Vance his clerk at \$1400 a year. He tells me Mr. Vance is of invaluable service to him that he knows all the "ropes" and is ready, efficient, and in every way of vast help to him. In my opinion Charlie Vance, who grows every day more like his father, ought to go back to Western North Carolina and run for Congress.

The Senatorial bribery investigation is being conducted behind closed doors. It won't amount to much.

W. R. Allen, Esq., and wife of Goldboro will visit relatives here this week. As Chairman of the Judiciary committee in the last Legislature, Mr. Allen added to the fine reputation he already enjoyed in North Carolina as a lawyer. He is a grand nephew of Hon. Wm. Allen whose statue adorns the Ohio niche in Statuary Hall and a cousin of Judge Thurman.

Opposition to the tariff bill is rapidly diminishing.

### NEW BERNE AND BEAUFORT CANAL RECORD.

The United States Government is again taking the tide gauge or reports of tariff passing through the New Berne and Beaufort canal. It seems that this is done with a view to considering the purchase of the canal by the Government.

The records embrace the following points: The name and tonnage of each boat, her destination, and amount and value of her cargo.

The record is to cover the entire time of the months of May and June. A similar record was kept for the corresponding time last year.

The two months spoken of are the ones in which there is the least passing. It is the season when more than at any other time boats are hauled up for repairs and repainting, and consequently what is done in these months is no fair test. The attention of the Government officials having been called to this fact, it has been decided to have a similar record kept this fall during the two busiest months so as to have a proper average.

Mr. O. G. Bell has been keeping the records, and we are informed that they show partly well for the fall season in which they have heretofore been kept.

### BELLAIR CORRESPONDENCE.

#### How Spring Crops Turned Out—Prospect on Growing Ones—Children's Day—Quarterly Conference.

The drought is partially broken, a few light showers having fallen and now it is quite cool.

While the showers were very refreshing they came too late for most of us about here to make a crop of potatoes.

Some have even withered up and died, very few look at all healthy.

Well, a half crop is as good as a whole one sometimes, and may prove so this time. We will try to wait patiently and see.

The cabbage crop is nearly off, and we will soon be balancing accounts to see whether the cabbage crops' debtor or creditor, some of the farmers about here seem to know already that the balance is against the cabbage crop this year.

We have not all balanced out yet however.

The appetite for peas up North seems to be spasmodic, a few days they were in great demand but recently they have dropped below cost of picking and freight.

We hope they will not fail thus on potatoes.

Last Sunday was Children's Day at Beach Grove and all the children who attended the Sunday school, were present except one, who remained at home to care for the sick.

After the Sunday school service was over, and the young folks had a short recess, a voluntary on the organ, called the house to order. And a programme consisting of select songs, scripture reading and recitations was carried out, which seemed by the good attention paid to the exercises, to interest all present.

One particular piece deserves more than a general notice, as it received much commendation and eulogy by the audience, this was a song "Why stand ye here idle" sung as a duet by Miss Ada Kilpatrick of Lenoir county and the organist at Beach Grove.

An old lady visiting from Beach Grove who was present at the service said it was the prettiest music she ever heard, and I believe a young man of our vicinity thought so too, because of one who voluntarily participated in the song.

The day was very pleasantly and we trust profitably spent. A collection of more than five dollars was raised to assist those in destitute places in organizing and equipping for Sunday school work.

Next Saturday and Sunday will be quarterly meeting at Beach Grove, N. C. We shall expect Rev. F. D. Swinfield, P. E., just from the general conference and hope to have a good time the fourth Sunday and Saturday before.

Judge Whitaker, in his charge to the Grand Jury of Hyde county on Monday, laid down the law against Trust money implicitly and instructed the jury that it should be carried out.

### LOCAL NEWS.

#### NEW ADVERTISEMENTS.

Hackburn & Willett—The Big If.

The usual Thursday evening prayer meeting of the Presbyterian church will be postponed until Friday 8 p. m.

Geo. Credle, the colored man who was accidentally shot in the leg Tuesday night is getting along very well under the treatment of Dr. Lester Duffy.

Messrs. J. J. Dismay & Co. are repairing their store and lowering their windows. The work adds considerably to the looks of the place.

Judge Seymour heard a case in admiralty yesterday against the Lizzie E. James or همان wags. He reserved his decision.

Mr. John Hall showed us a curious umbrella at his shop. Just press a button on the handle for an instant and the umbrella slowly rises. Pressing another place on the handle brings it down.

The Charlotte News says that the stand of carbon is said to be very imperfect, especially on coal lands. Many farmers are plowing up and planting over. This action that has sprouted has a very healthy looking growth.

If the weather is right for it, the Presbyterian picnic will leave this morning from the foot of Craven street and go up Trent river. If the weather is unfavorable the picnic will be postponed until to-morrow.

The western show window of Messrs. Hackburn & Willett's store is well supplied with beautiful well-framed pictures which are being disposed of by presenting one to each Sea Foam Baking powder customer. They are not advertising pictures but gems which would grace any home.

A Pension Agent in Trouble.

Fred Douglas, colored, pension agent, has been arrested and placed under a \$250 bond for his appearance before E. G. Hill, U. S. Commissioner, Monday afternoon directly after the arrival of the train. The charge against him is making excessive charges—more than the government regulations allow for the work performed.

District Attorney Aycock will be down Monday night to prosecute, and W. W. Clark, L. J. Moore and R. W. Williamson are attorneys for defense.

The government has also notified the defendant to show cause why his name should not be dropped from its list of agents.

**W. E. Henry Friday Night.**

Don't miss hearing this popular North Carolina lecturer on Friday night.

The subject will be "Woman, Her History and Heroism" Her place and Power.

Hon. Elias Carr, Governor of North Carolina says "Walter R. Henry of North Carolina, is an orator and a scholar of the very highest standing and has attained eminence in his native State. For the past ten years he has been continuously in the field whenever the services of a stirring political orator were required."

A Cotter for the New Berne Barracks.

The practice boat of the New Berne Division of Naval reserves, a two-oared cutter, has arrived. It came by the freight train of the W. N. & N. Railroad and was shipped here by order of Ltens. Winslow from the Wilmington Division (No. 3).

It is a very good boat and is one of the best belonging to the division. It is under control of the Naval Battalion of the State. It is expected to make here at least as long as the New Berne Barracks lasts. Practice with the cutter will soon commence.

#### Coming and Going.

Mr. J. O. C. Roberts, assistant chief of the law division of the U. S. pension office is in the city.

Mrs. F. L. Hunter, of Henderson, is visiting her father Mr. N. S. Richardson.

Mr. O. H. Guion went down to Beaufort and Mr. P. M. Pensall, to Morehead City on professional business.

Mr. Wm. H. Oliver, of this city, and Messrs. T. H. Ray, John B. Kennedy and C. Wortham went down to Morehead last night to settle the insurance losses by the late fire there.

Miss Emma Katie Jones left yesterday morning to visit Miss Lou Gorrell of Winston.

Rev. N. M. Jerney, who has been spending awhile on the sea coast passed through route to his home yesterday morning. He tells us there was a good rain at Morehead yesterday morning.

Col. Wm. L. DeRossett, Messrs Gabriel Holmes, Norwood Giles and Wm. Calder, all of Wilmington, came up last night on the W. N. & N. train and took the steamer Neuse immediately for Edenton to attend the Episcopal Council of the East Carolina district; Dr. A. J. DeRossett and Rev. Bob't. Strange, of the same city, and Rev. Mr. Mathias, of Beaufort, who came up the previous day, also left on the steamer Neuse for the same purpose. Those from New Berne who went were Rev. T. M. N. George, Maj. D. T. Carraway, Messrs. Geo. H. Roberts and E. K. Bishop.

#### First Shipment.

Beans are now going off by every steamer, though not in large quantities. New Irish potato shipments have also begun.

Some of the potatoes shipped yesterday came from Scott's Hill (within about fifteen miles of Wilmington) over the W. N. & N. Railroad. This looks as if that region will furnish something in the truck line.

The first potatoes from New Berne, only two barrels, went off Tuesday by the steamer Neuse. They were pretty good ones.

The first beans, about a dozen boxes, went off Monday. The shipments on these crops will now increase until large quantities of each are being sent off, but the shipments will not be as large as in previous years, although there is ground for the hope that prices will continue to rule good and in this way make the crop a paying one after all. It has happened sometimes in trucking experiences that crops partially destroyed proved to be among the most profitable ones.

Truck growing has been somewhat unfortunate this year. The bright hope of a planting time were blasted by a killing frost soon after the seed came up; this was followed by an extensive drought, curtailing everything; even cabbages have only about paid expenses, and the potato crop is cut short greatly, and the bulk of it will be somewhat late by reason of the drawbacks. They are scarce now and as the crop will be a light one good prices may reasonably be expected.

Beans, in point of earliness, are nearly up to last year. The first shipped there was on the 18th of May. The first this year came from a little below New Berne (Newport). They were sent off on the 18th. The first directly from the city was on the 21st.

Mattie Roundtree, Eddie Hancock, Jno. Suter, Ellis Goldstein, Rayner Jones, Mary Jones, Mary Guion, Mabel Hughes and Emma Stevenson.

#### The Rains.

It rained in New Berne abundantly yesterday the greater portion of the day. It rained also all the way from New Berne to Wilmington.

In the neighborhood of Scott's Hill and about a dozen miles this side there was a tremendous rain, so much so that young corn was beaten down flat and water was left standing in places about up to the level of the railroad track.

Notwithstanding the fact that we have had several very fair rains recently, Biversdale, seven miles below New Berne, missed them all up to yesterday, and the consequence is crops were getting in pretty bad shape.

Judging from its duration we doubt not that the present rain has been pretty general and the farmers all around are no doubt now rejoicing in it.

#### The Assembly's Practical Aid.

One feature of the Teacher's Assembly work to which attention is called is its practical aid to teachers. It is stated that during the past nine years in which the Assembly has been at work it has secured good, paying and pleasant school positions for nearly eight hundred of its members. This represents a great deal of correspondence and careful work and no little expense, but the Assembly has done all the work and paid all the expenses without cost to either the teachers or school officers.

The practical benefits of this feature of the Assembly's work are increasing each year, and the Teachers' Bureau of the Assembly enjoys such confidence among school principals and committees that its recommendation is the strongest kind of support by a competent teacher towards securing a good situation.

At each session of the Assembly there is present a large number of school officers for the purpose of selecting teachers and assistants for their schools. The sessions afford a fine opportunity for the officers to meet the teachers. Both classes do well to make full use of the Assembly's advantages in this respect.

#### WHOLESALE MARKET COUNTRY PRODUCE

Grown chickens, 45a50.

It is said: "A man that wears out the sole of his shoe just in the middle is bound to be rich."

Now friend when you examine the sole of your shoe to see if you are going to be rich, it may remind you that you need a new pair. Don't fail to try HOWARD for them. Our Stacy Adams & Co's, shoes are the BEST made and cleanest stock sold in New Berne; and all who have worn them will testify to their wearing qualities. Prices: \$3.00 to \$5.00 in men's; Boots, \$3. to \$3.00 only.

J. M. HOWARD.

#### HAPPENINGS OF THE DAY.

Rev. Sam Small is in Norfolk speaking for the prohibition city ticket.

Public Printer Benedict is turning out employees of his department by wholesale, while there are several hundred in this way wanting to get in.

The papers say Grover and party killed 385 birds on Bode's Island. It is against the law of North Carolina to kill birds at this season, and Mr. Cleveland should re-remember the lesson taught Rev. Tom Dixon by the New York authorities.

A Kentucky paper says it would have more faith in "Breckinridge's" repentance if he were trying to get to Heaven instead of Congress. According to its conception repentance and candidacy for Congress are incompatible.

In another card in the Caucasian of yesterday, Capt. W. H. Kitchen appears to have burned the bridge behind him. He says: "I am out of the party, and will in the future act with the People's party."

A system of legislation that raises the price of a man's food or clothing is not just. That is McKinleyism against which the people of this country rendered stunning verdicts. If the Senate is not too corrupt, it will pass a reform tariff measure and do it quickly.

It is probable the State Executive Committee of the Democratic party will appoint a late day for holding the convention, so as to shorten the worry of the campaign. Some Western men will likely succeed Hon. F. M. Simmons as chairman of the Executive Committee.

The Bank of Venice did business for six centuries on a system of credits, not redeemable in coin, yet during the last four hundred years of its existence, its scrip was worth 20% above coin value. The Bank was only discontinued upon the downfall of the Republic. Cannot our gold standard statesmen learn a lesson from this.
