We learn that already quite a number of persons have expressed their intention of taking advantage of the wonderfully cheap fare for the excursion to Mt. Airy on the 26th inst. There are the most ample and superior hotel accommodations at Mt. Airy and the prices reasonable, so that the entire cost of this 800 mile trip will be nominal.

Mr. L. L. Churchill, who about a week ago opened up his plumbing establishment in the store formerly occupied by Mr. Nelson Whitford, has with him Mr. J. W. Slover's residence which is in course of erection on Union street, and have several other engagements for their services.

Wilmington had a severe storm of wind and lightning Wednesday. The weather equal pole was struck by lightning and shattered; and at another point a horse was killed. At Wrightsville the lightning was terrific, and the beach along there was covered with hail for some time after the storm. At Scott's Hill lightning set an old field on fire but the rain put it out before damage resulted. There was considerable hail there also but no damage from it.

We learn of a lamentable occurrence which took place at Cedarhurst, a point on the W. N. & N. Railroad, ten miles below Jacksonville.

The parties are white, the dead man being thirty years old, and his slayer thirty-four.

New Berne's population was favored yesterday with the gain of one more family. Mr. G. W. Richardson moved down from Goldsboro and will occupy the house corner of Broad and Metcalf street, formerly occupied by Mr. T. W. Dewey. Mr. Richardson is the bookkeeper of the Goldsboro Lumber Company and moves his family to New Berne so that they will be nearer to the company's plant at Dover.

We are ever glad to see new citizens like these moving in. New Berne has room and a welcome for them all.

The Orchestra at the Atlantic.

Whiting's orchestra of Chicago, a fine one of eight members is the regular one to furnish music at the Atlantic Hotel, Morehead, this summer.

In addition to this regular orchestra the boy brass band of Fayetteville an excellent one, will be there. The band is composed of sixteen members whose ages range from ten to sixteen years.

It is the same one which furnished the music at the laying of the confederate monument corner stone at Raleigh. This fact shows the esteem in which it is held.

HOSE REEL COMPANIES.

Several Expected to be Formed—Every Portion of the City Better Protected by the Water Works Than They Ever Were by the Engines.

Now that the fire engines have been almost entirely "laid on the shelf," owing to the advent of the water works, hose reel companies will doubtless be promptly organized in different parts of the city. There is already a disposition on the part of the young men to organize them and doubtless there are property owners in different parts of the city who will furnish places where the hose carriages can be kept for the sake of the great protection the property will receive thereby. There is such a move on foot in the McCarthy neighborhood. Mr. McCarthy offers a house for the hose reel; a company will be organized at once and the city council have passed a motion to supply the hose reel as soon as the company is organized and in shape for service.

The city has ordered and received 1000 feet of hose additional to the old supply for the benefit of such hose reel companies and this makes the supply sufficient to equip the different parts of the city. There is 3,500 feet of the hose and it only takes about 300 feet to each hand-jumper. This will reach any house on any portion of a block from the hydrant at the corner, as the blocks are only six hundred feet, some of them less, in extent, and in the suburbs which do not have the pipe mains on every street, the hose from the horse reels can be used and they will reach to the utmost limits.

Many of our citizens, we find, have an erroneous impression about the protection given to the property on the outskirts of the city. They think that one of the engines at least, ought to have been kept on for the sake of this property. They fail to realize that the water works were constructed on so admirable a plan that any house in the city limits can be reached with the hose now on hand, to say nothing of any more that may be ordered.

As an illustration take Norwood street, the one leading from McCarthy's store to the river, which is the most westerly street down which the water works pipes run. It looks like a good long stretch from there to End street but the amount of hose on hand now will reach the entire distance and then there will be a thousand feet to spare.

The fact is the suburbs are really better protected by the water works than they were by the engines, because the nearest wells to some of the property from which the engine could obtain water are more distant from it than the fire hydrants are.

Ye Editors in Convention.

The editors are at Morgantown this week, and presumably having a good time. They generally do—when not at home.

Next to the preachers they manage to get more good "vitals" and other condiments, at their Associations than any other set out. They all need it, and most of them deserve it.

And it is a real pleasure to see how they enjoy it. They are away from home and office cares, and not without honor—save in their own country.

The good people who feast them till the "flow of soul" reminds one of Sheridan and Pitt, of Clay, Webster, Calhoun, Primas, et cetera, know that many of them are cursed year in and year out—mostly by delinquents, for serving their community and the country.

But with all their bad backs, they get one week of square meals, and as much happiness as can be put in that length of time.

HAPPENINGS OF THE DAY.

The Republicans of Texas met at Fort Worth on the 13th, and decided to put a full State Ticket in the field.

The U. S. war ship Mohican, of the Bering Sea patrol squadron, has captured two sealing vessels, both from Seattle.

Another opponent has entered the field for Congress in Breckinridge's district, Maj. Henry Clay McDowell, who lives on the Henry Clay estate at Ashland, Ky.

There is trouble in Morocco. The old Sultan is dead, and his youngest son, being elevated to the throne, will have to fight with his uncle to keep it.

J. B. Crawley, who killed Richard Harris at Ruth 1889, has just been tried in Washington. A verdict of manslaughter was the result and the sentence is six years in the penitentiary.

The Baltimore Sun is authority for the statement that the Cape Fear and Yorkin Valley Railroad is to be extended to Southport.

A band of Coxeyites seized a train at Fairfield, Illinois, on the 13th and the United States Judge has ordered the U. S. Marshals to recapture it. The Coxeyites resemble Banquo's ghost in that he will not down.

The Senate is doing nothing on the tariff bill—they say it is too hot to work. The impression is their thermometer will register a few degrees higher this fall, and they will be working like Turks for reelection.

President Holcomb of the Oxford Baptist Female college, favors the co-education of the sexes, and is endeavoring to introduce it at Wake Forest college. Why not?

In the seventh district it is said Hon. John S. Henderson will have as his competitor for Congress, Hon. Zeb Vance Walser, republican.

Negro traps are now numerous, and it is to the credit of colored men that he didn't join the Coxey army, either as a general or high private.

A red-killed fraud is being exhibited at the Antwerp exhibition as "Sitting Bull." The genuine old chief, it will be remembered, went to the lumpy lumping grounds many moons since.

The Kansas Republicans are in State convention at Topeka. They rejected the Woman Suffrage plank in their platform, though strongly advocated in speeches by Susan B. Anthony, Rev. Anna Shaw and the women orators.

Durham is having a blue time this week. It is beleaked in the Trinity's bright blue colors, and the girls who will be left behind next week when the boys are gone, will still wear their blue dresses in perfect accord with the "fittness" of things.

The Richmond, Va. Howitzers, one of the oldest military companies in the country, have done themselves credit by the adoption of resolutions looking to the erection of a monument to the women of the South—those to whom the credit of almost every monument in the land belongs.

Hon. Chauncey M. Depew delivered the oration before the joint Literary Societies of the University of Virginia on the 12th inst. Vice President Adlai Stevenson also spoke. The Faculty decided adversely to the proposal to admit women to the Academic departments.

Mrs. Z. B. Vance is out in a card in which she declares the statement of Mr. C. N. Vance in reference to the removal of his father's remains as "simply malicious falsehoods or the outgivings of a disordered brain." This is most deplorable, and brings sorrow to every North Carolinian. "Tis enough to make the general turn in his grave.

Mr. Henry O. Havemeyer, of New York, President of the American Sugar Refining Co., when being examined before the Senate Committee, on the 13th inst. denied that he had ever seen President Cleveland. In consequence of such testimony as this, J. S. Shiver, correspondent of the Mail and Express; and J. E. Edwards, correspondent of the Philadelphia Express, are to be indicted by a U. S. grand jury for the news they sent out about the sugar frauds.

A MERITED TRIBUTE.

Rev. H. W. Battle Cited by the Atlanta Journal as a Peer in Culture and Eloquence of Georgias Most Gifted Sons.

The Atlanta Journal in referring to the Commencement Exercises at Shiloh College, Rome, Ga., of which Rev. A. B. Battle, D. D. LL. D., is President says:—
The commencement address by Dr. Henry W. Battle, of Petersburg, Va., was a masterly discourse. Replete with eloquence, thought and learning, it was no wonder that the audience punctuated it with frequent and spontaneous applause. He had in it fine, the fire of enthusiasm, the magnetism of the man who can sway his hearers, the dramatic force which impels attention and brings spontaneous admiration, and which he had brought together by the philosopher, the thinker, the student, and the knowledge imparted by one who loves Honor, Honor, and who scorns with unflinching will through all the realms from Chamber and Browning to the wondrous histories of Babylonish and Biblical lore.

A patriot and a southerner, he paid a glowing tribute to Henry Grady. He said that Grady with his matches have had embraced all sections, that the love which he had taught us we had followed, and it had led us on to God.

Speaking of Rome, he called it a beautiful gem set in an emerald ring, and said that nature and the Creator had been so kind to us that we were to be better than other cities—less favored.

Dr. Battle was a college mate of Hon. John Temple Graves, of Atlanta, and he has also been paid a worthy compliment, and Georgia should be proud of both Graves, and should struggle to have also "the immortal Sydney Lanier, the emine of whose life was so full of joy with an unquenchable thirst."

Dr. Henry Battle should belong to Georgia, as he holds an equal rank in culture and eloquence with Georgia's most gifted sons. No more can be said.

All New Bernians who have not congratulated under the direction of Dr. Battle, while passing at the Baptist church of this city, will realize how worthy the above high commendation from one of the South's leading journals is bestowed.

Rev. H. A. B. Battle, the president of the college, is an uncle of the Reverend gentleman who delivered the address. A brother of our equally eloquent townsman, his father, Gen. C. A. Battle.
