There were never more reasons for a visit to Morehead than now. The weather is warm and the sea breezes are cool; many people are out of the city at pleasure resorts and many of the people from all over the State are at Morehead; among them every one will find some one he knows and many whom he does not know, and it is a pleasure to mingle with them, greet new friends and form new acquaintances. **The Military Ball the Finest Event of the Kind That Ever Took Place at Morehead.**

From every one who was at the Military Ball at the Atlantic hotel, Morehead, Thursday night comes reports of the brilliancy of its success in every respect. It is conceded to have been the grandest affair of its kind ever held at Morehead and to have passed off most pleasantly.

First there was the march, and Governor Carr and his staff and officers of the Revenue Cutter Colfax and their ladies received. About 500 people greeted the Governor and party.

Then the ball opened with the Lancers quadrille, in which the delightful matrons and military escort of the Governor took part. The cotillon began at eleven, and was led by Mr. Milan Howard and Miss Morehead, and lasted until about 1 o'clock. About forty couples were on the floor at one time.

The decorations were beautiful and very elaborate, all the bunting and emblems of all nations from the Revenue Cutter Colfax being brought into requisition for the occasion.

The costumes were elegant and many were adorned with diamonds and other handsome jewelry. The attendance of spectators was immense. There were the six hundred regular guests of the hotel, the military, many citizens of Morehead and Beaufort, visitors from the other hotels and a few who simply went down for the ball. The lowest estimate we have heard of is to number was a thousand or twelve hundred. The number is generally spoken of as fifteen hundred.

**HAPPENINGS OF THE DAY.**

The Chatham Record speaks of a chinquapin tree on Hlaw river that measures 12 feet and two inches in circumference.

Mrs. R. B. Vance, with her sister and children, arrived Thursday at Gombrood, their mountain home.

There is a very heavy chestnut bloom on the mountains this year, and if nothing prevents, a heavy chestnut crop may be expected. This is no chestnut, says the Franklin Press.

At Concord eggs are being bought from the farmers at 6 cents per dozen, says the Concord Times.

Pittsboro Record says: Mr. L. D. Holland of Centre township informs us that he has a bunch of oats that contains 210 heads and that will average 60 grains to the head, that is the product of one grain. This will give 12,600 grains to one grain sown.

Gen. Miles is authority for the statement that half a dozen attempts have been made to blow up the Pullman building with consequent loss of life. It is known that agents of the Government are now engaged in securing evidence necessary to expose the entire plans of the conspirators against that and other buildings.

The Raleigh correspondence of the Wilmington Messenger says: "The leading Republican paper in the extreme East says it favors fusion with the Populists on the legislative tickets. It urges that in counties where the Populists are strong they put up the nominee and the Republicans support him, and that where the Republican are strong they name the man and the Populists give him their votes. It is the Legislature which the 'combine' wants to capture. There is where the joint assault, if made at all, will be made."

A telegram has been sent to President Cleveland inviting him or some one deputed as his representative to take part in the conference of labor leaders at Chicago. The invitation is from Samuel Compers, President of the American Federation of Labor and its other officers, and the representatives of all organizations present at the conference.

The cost to the United States of putting down the railroad strike in the West is estimated by Government officials at fully \$1,000,000. It may foot up more. The estimates include telegraph bills, deputy marshals' pay and transportation and maintenance of United States troops. The estimates of marshals pay at Chicago alone are \$150,000, and Congress in a few days will be asked to appropriate this as it is urgent.

The Oxford Orphan's Friend tells of an encouraging offer from Dr. Winston to the inmates of the Orphan's home. It says: "We are in receipt of a very kind letter from Dr. Winston, saying: Please tell them that I will give a scholarship, and lend \$100 a year to the best scholar that comes annually from the asylum to the University. We heartily thank Dr. Winston for this kind and liberal offer. We shall hold it out from this time forth to our boys, and hope to inspire them to labor and work for an education."

Rev. R. L. Abernethy, D. D. President of Rutherford College, is using the summer months traveling in its interest. Dr. Abernethy is seventy-three years old; has been teaching school fifty-nine years and has presided continuously over the destinies of the college for forty-three years. The Concord Times pays the aged educator the following tribute: Dr. Abernethy is a man to whom the State of North Carolina owes a great debt of gratitude. It is the candid opinion of men who know that he has done more for the education of poor young men without compensation than any other North Carolinian, living or dead.

**Eighth Senatorial District.**

The members of the Democratic Executive Committee of the Eighth Senatorial District are requested to meet at the Hotel Albert, New Berne, N. C., at 7:30 o'clock, p. m., on Monday the 23d day of July 1894, for the purpose of appointing a time and place for holding the convention to nominate two candidates for the State Senate.

**The Great Chicago Strike and Blood Shed.**

The country is in a fearful condition, hundred thousands of men becoming frantic over the labor situation in the West. Trains blocked by strikes and cannot be moved. Steam Boats sailing with half freight, people suffering in some parts of the country on account of uncomtable transportation. With such state of affairs the country is in a fearful condition, especially the Northern and Western States.

Wars, strikes, and bloodshed, are not the proper way to adjudicate matters, there must be some compromise between the manufacturers the money kings and the laboring man. At the present prices the manufacturer North cannot increase wages and compete with the manufacturer in the South, hence the cut in wages. In the near future seven eights of the manufacturing in the United States will be done in the South. Legislation alone can settle this matter. Emigration must be prohibited for a few years, and prevent the scums from all parts of the earth from settling among us.

But why need the South be troubled? This is no fight of ours, it is a question that we are not interested in. There has been no day in the annals of history that the South has been more prosperous than the present day. While our smoke houses and corn-cribs are amply filled, and the crops bid fair to be the best we have had for years, then why should we strike?

The strike made by the Great American Bankrupt Dealer is sufficient for the demands of the South. Then in the name of peace and common sense, why don't everybody strike for BIG I. K. E. who has bought the fifteen thousand dollar stock of Men's and Boys' Clothing and Gents' Furnishing Goods of Frank W. Thornton, at such great sacrifice. Merchants and farmers of Fayetteville, Wilmington and surrounding country, why not strike while the iron is hot and lay in your supply for the coming year at seventy-five cents on the dollar of New York cost? The hard, solid cash accounts for the above strike, and the great bargains accounts for the great rush every day, and people are daily convinced that all our advertisements are true.

We respectfully call your attention to our immense stock of Young Men's Youtils' and Boys Clothing. Please see us.
