The Asheville excursion will leave New Berne Tuesday week.

The number of visitors at Morehead is immense—estimated by many to be seven hundred. A large number for any resort.

The ordination to the Diaconate of Dr. John S. Long is expected to take place at Christ Episcopal Church on Wednesday next at 10 a. m. Bishop A. A. Watson officiating.

About sixty five delegates are expected to attend the district conference at Tabernacle church, Palo Alto. About twenty of them are ministers, the remaining members. The conference begins next Wednesday 13th inst.

The Silver Cross Chapter of the King's Daughters will give a lawn party at the Academy green, Wednesday evening, July 18th. Refreshments will be served from eight to eleven o'clock.

The Beaufort Herald tells that Rev. N. M. Jurney has bought a five thousand acre tract of land from Mr. C. L. Duncan of Beaufort. The land is near Morehead city and is known as the Della Webb tract.

The Jones County convention also endorsed Jarvis for Senator. There were no nominations for county officers. The Lenoir convention endorsed the holding of primaries as a choice of Senators, and recommended the present incumbent, O. H. Allen for renomination as solicitor in the 6th Judicial District.

Mr. J. B. Jones, of Yeatsville will preach this morning and at night at the Church of Christ. Mr. Jones has just concluded a two weeks' meeting at Edwards Mills and Aurora, at which he met with the success of having twenty-six conversions.

Mrs. W. B. Hill, formerly of Virginia, arrived on last evening's train and will organize a class in vocal music. Mrs. Hill comes highly endorsed as a cultured teacher in music with special attention to voice culture. She will sing at Centenary M. E. Church this morning and at the Presbyterian to-night.

Lieut. P. Winslow, and other officers of the Wilmington and New Berne Reserves went down to Morehead City to confer with Adj't Gen'l. Cameron relative to the Battalion cruise sometime during next month. We hope to see the New Berne Division get in good shape for the cruise and we have no doubt but it will, but a good deal of work will be required.

Mr. Elijah Taylor of Winthrop was in our office yesterday. He made the largest net profit from an acre in peas of any year from whom we heard this season. From the acre he cleared \$148.00 after paying for everything—fertilizer, boxing, picking, &c. This is a very good report Mr. Taylor only wishes he had planted more largely.

The county convention passed off in good order and becoming amicably. The large attendance showed that the proper interest was manifested. It is a real pleasure and commendable to know that our conventions can be conducted upon high ground principles and without wrangling, even if the result is a tie. The members of the Democratic Executive Committee of the 8th Senatorial District are requested to meet at the Hotel Albert, New Berne, N. C., on July 18th, 1894, for the purpose of appointing a time and place for holding the convention to nominate two candidates for the State Senate.

Coming and Going.

Capt. J. F. Hendree, of the Elkin rifle-men, and editor of the Elkin Times, came up yesterday from the encampment at Camp Vance to spend a day or two with relatives and friends.

Misses Theresa and Katie Roberts left on last evening's train for a visit at Morehead City.

Miss Leach of High Point, one of the season's belles at Morehead city, passed through yesterday morning en route to her home.

Presiding Elder F. D. Swindell, who with his family is visiting relatives near Beaufort, passed through en route to Kingston to hold quarterly conference.

Mrs. J. B. Taylor of the city and her brother, Mr. C. Dickinson of Brooklyn, are visiting at Beaufort.

Judge Geo. H. Brown, of Washington passed through en route from Morehead to Wilmington to hold court.

Mrs. J. W. Ruple, who has been visiting her brother, Rev. C. G. Vardell, left. She stops for a short time at her home and then goes to Black Mountain.

At a meeting of the committee held immediately afterward Mr. S. R. Street was elected chairman of the executive committee.

New York Truck Quotations by Wire.

Messrs. Palmer Rivenburg & Co., of New York, telegraphed the following quotations for that city last night.

Potatoes, \$1.57 @ \$1.50, Muskellons, \$1.35 @ \$2.00, barrels, crates.

About 200 people were present to hear Dr. Cy. Thompson speak at Vanceboro. It is spoken of as a speech such as any speaker might have made. He referred freely to the political status. He threw the blame upon the Republicans for the present condition of things but held the Democrats responsible for not having redeemed promises as this: It was a speech such a Democrat might have made and Democrats did not consider it one that needed from their stand-point any reply made to it.

Eighth Senatorial District.

The members of the Democratic Executive Committee of the 8th Senatorial District are requested to meet at the Hotel Albert, New Berne, N. C., on July 18th, 1894, for the purpose of appointing a time and place for holding the convention to nominate two candidates for the State Senate.

COUNTY CONVENTION.

Nominations for Officers—Delegates to the Several Conventions.

The Democratic convention of Craven county met in the Court House Saturday at noon with 63 delegates present.

The convention was called to order by Jas. W. Biddle, chairman of the county Executive Committee and John M. Hargett was chosen as temporary secretary.

A committee on credentials was appointed consisting of one delegate from each township as follows:

1st township, Geo. J. Dudley; 2d township, J. A. Thomas; 3d a. W. Avery; 5th John S. Morton; 6th, J. H. Hunter; 7th O. H. Perry; 8th W. P. Mcets; 9th O. H. Wetherington.

The committee made their report and it was adopted.

Geo. J. Dudley was elected permanent chairman and W. D. Wallace permanent secretary.

W. W. Clark introduced the following resolution:

Resolved that the Democratic party of Craven County does not favor the election of Senator Ransom to succeed himself.

Jas. A. Bryan offered as a substitute the following:

Resolved that the delegates from this convention to the State convention be instructed to cast their votes and use their influence for the adoption of a resolution favoring a primary election for United States Senator, said primary election to be held at the time of the general election in November.

The substitute was adopted.

Mr. Clark then introduced the following which was adopted unanimously.

Resolved that the Democratic party of Craven county endorse Hon. T. J. Jarvis for election to succeed M. W. Hansom, as Senator.

Mr. C. R. Thomas introduced the following which was unanimously adopted.

Resolved, That it is the sense of this convention that every delegate to this convention and all Democrats should stand by and support the ticket nominated to day.

A committee composed of one delegate from each township was, on motion appointed by the chairman to recommend delegates to the several conventions. The committee was as follows:

OUR PINES AND CYPRESS.

Interesting and Generally Little Known Truths About These Valuable Timber Trees.

We had a very pleasant call last night from Mr. Chas. Mober, Ph. D. of Mobile, who has for several years been in the employ of the government in the Forestry Division connected with the Agricultural Department. He has had opportunities for wide observation of the swamp lands of South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas and Texas, having traveled extensively through these States, hundreds of miles, on horseback, frequently alone for many days or even weeks. His narration of the condition of things in these regions—

face of the country, soil, climate, productions and people—is exceedingly graphic and interesting.

His investigation has been confined solely to two sorts of trees and the timber made from them,—Cypress and Pine. The object was to ascertain the facts in regard to the different varieties, in what way and degree they were influenced by location, soil and climate, their adaptability to certain uses, etc. He stated that notwithstanding all the different appearances presented and apparent varieties known as black, white, red, etc., there is but one cypress, all differences being attributable to environment. The condition frequently observed in cypress lumber, known as "pecky" cypress is produced by a fungus, and is understood to be caused by a "shake" or fracture high up in the tree, in which the water gathers and descending by gravity or entering the circulation distributes its spores which in time contaminate the whole trunk. While it cannot be detected by the appearance of the bark or body of the tree, a lumberman well up in his craft can give a very shrewd guess by observing closely the lower or larger limbs.

These are facts well worthy of special remembrance, for never have we found any one before able to account for this condition of the trees. The mill men know the defective places apparently eaten out by some little timber pest, are not caused in that way for no worms are ever found in them, but they were all utterly at loss as to what did cause it. The timber thus affected is sometimes called "beaver-eaten" but when the applicability of this name lies we have never been able to see.

Dr. Mober's special errand here was to ascertain what varieties of pine grew in our forests, and what are the principal or prevalent kinds manufactured at our saw-mills. After a brief stroll in the woods in this vicinity he expressed himself as having realized in a very satisfactory degree and manner, the object of his quest. His statements are on many points quite different from the popular opinion. He says the variety commonly used for making turpentine is known by its proper and correct name, Long Leaf Pine (*Pinus Australis*); that the variety commonly called Short Leaf Pine (*Pinus Mitis*) is the Loblolly or Old Field Pine (*Pinus Taeda*), and comprises 85 per cent of the manufactured lumber of this region; that the Short Leaf Pine—having leaves only an inch or a little more long—is seldom or only occasionally met with, and is called incorrectly Rosemary Pine, and that the Rosemary Pine does not grow in this region.
