

### BUSINESS LOCALS.

**STENOGRAPHY and Type Writing.**—Miss Rachel C. Brown tender her services to the public as Stenographer and type-writer. She can be found at the office of Mr. O. H. Guion, over the Citizens Bank, between the hours 10 a. m. and 5 p. m. July 16th.

**MINERAL WATERS.**—Having received the agency to represent the Colemansville Mineral Spring Water of Cumberland Co., Va., I beg leave to inform the public that I have now on hand mineral spring water for sale at 40 cts. per gallon. Mt. W. CHAPMAN, Agt., 88 South Front St. July 13th.

**ROOMS TO RENT.** Corner of East Front and Pollock streets. July 15th.

**WATER MOTOR FOR SALE at \$7.50.** New and in perfect order. Just the thing for sewing machines, coffee mills, fans etc. Can be seen in operation at the JOURNAL office. Wishing to purchase a larger size reason for selling.

**MACHINE and hand made brick in any quantity for sale.** Apply to Chas. Reizenstein, or Joseph L. Hahn. a28 tf.

**BUY "The World's Congress of Religions,"** for sale by Mrs. E. F. Dillingham. Every minister should have one. call and see specimen copies.

**MONEY saved is money made.** Buy your Medicines at Mace's Drug Store. You will save money on every purchase. Quality guaranteed. A trial will convince you.

**WANTED.**—Copies of the WEEKLY JOURNAL of 1894. One copy February 1st, One February 15th and two of February 22d. Please send or address to this office.

**WHEN Boraxine is used according to directions,** a third of the labor and the cost of soap in ordinary washing is saved. Samples free at J. F. Taylor's.

### LOCAL NEWS.

**NEW ADVERTISEMENTS.** Howard.

Mr. J. W. Stewart received another lot of horses by the Nense Sunday.

Regular monthly parade and inspection of the Naval Reserves tonight at 8:30 sharp.

A visit to the encampment is very interesting, and frequent trains from Morehead at 5 cents per trip gives easy access between the two places.

A gentleman passing through Lenoir and a portion of Wayne and Jones counties writes: "I have never witnessed such universally good crops. Dr. Fred Whitaker of Jones county and Wm. Kennedy's near Falling creek are exceptionally fine. So are the crops through the La Grange, Institute and Kinston sections.

We publish this morning the proceedings of the Lenoir county Democratic convention. A private letter notices particularly the fullness of the meeting and that much interest was manifested. This is an encouraging sign. We doubt not that the Lenoir Democrats will do their full duty on election day, and will work well for success in the meantime.

At the Pamlico county alliance convention held at Vandouere Mr. Jackson Brinson was chosen as representative to the State convention to be held at Greensboro. Mr. Brinson is a good selection and will be worthily represent the cause. The attendance was good and all the business satisfactorily transacted. A big dinner was served and the meeting enjoyed.

The singing of Mrs. Hill at Centenary M. E. Church Sunday was much admired by those in attendance there. She has a remarkably pure and clear soprano voice, and sings with the greatest ease. At the Y. M. C. A. Hall yesterday Mrs. Hill sang to the pleasure of a number that had been notified that she would sing there. It has been decided to have an informal gathering at the hall Friday night at which she will be assisted by the Y. M. C. A. Orchestra, and other home talent.

Mr. Freeman J. Taylor, of Cove, tells us of some large Irish potatoes he raised this year. He had numbers of them that weighed in the neighborhood of one and a quarter pounds each. There were three that weighed 78 ounces, missing five pounds by only two ounces; one weighed two pounds and 2 ounces. Nearly all the crop were good sized and the yield was about sixty barrels per acre, which considering the freeze and dry spell which injured all the crops somewhat, is a very good one.

Our travelling agent, Mr. J. M. Hines, is now in the neighborhood of Seven Springs. He writes of his short stay at that place, as very pleasant. Among those he found there was Prof. G. T. Patrick of Bayboro, and Miss Mamie Lucas of New Berne. Two more New Bernians—Misses Rosa and Leona Cox were added to the number at the hotel. The new hotel which Mr. Whitfield is building is nearly completed. It is at the 9th spring, the water of which are very much like the 1st and 2d of the other group.

New York Truck Quotations by Wire. Messrs. Palmer Hinton & Co., of New York, telegraphed the following quotations for that city last night. Potatoes \$1.25 @ \$1.50; Muskellons, \$1.00 @ \$1.30; baskets 50 @ \$1.00.

Baptist Mission. Regular Tuesday evening services at the Baptist Mission, corner of Norwood and Pollock street, 8:15 o'clock. Rev. B. Post will conduct services. All persons cordially invited to attend.

### Moonlight Sail To-Night

Tickets for the moonlight sail of the Baptist church sailing party will be on sale today at both Nunn & Mesorley's and Gaskill's Pharmacy at 25 cents.

There will be both music and refreshments free. The Vauceboro will be the steamer used. She will leave from the foot of Craven street at 8:30 o'clock.

### A Ten Day's Pleasure Trip.

The yacht Emma S. with a pleasure party of four is off on a pleasure trip. The four cruisers "over the bounding main" are "Capt." Frank E. Morton, and Messrs. C. H. Richardson, W. C. Schenk and T. G. Hyman—we are not advised as to who is cook.

They left Monday, and plan to have a ten days cruise and to visit in the order named; Washington, Ocracoke, Portsmouth, Nags Head and Morehead City, and from Morehead to return home. They will no doubt have a "big old time."

### Coming and Going.

Mr. Chas. Reizenstein, who with his family is summering at the Atlantic Hotel came up yesterday morning to spend the day in the city on business.

Dr. Chas. Duffy returned from Morehead.

Rev. C. G. Vardell and his mother, left for Salisbury on account of the death of Mr. J. W. Rumpie.

Mr. J. R. Folsom left for Norfolk on a business trip.

Messrs. B. O. Barnes and Fred Lawrence the Hoe cake soap man left on the steamer Nense for Norfolk. They expect to be here again in 60 days.

Mrs. A. J. Yoman's left on the steamer Nense to visit her daughter Mrs. Clarence Enaley of New York.

Mr. Albert Bangert and Mr. Chas. Roberts returned from a "short stay" at Morehead—all day Sunday.

### Will Raise Bull Frogs.

A visit to the prospective poultry yards, dog kennels and pet stock farm of Messrs. F. E. Hege & Co., shows matters progressing well. The residence for Mr. Hege is in course of erection, and two or three dozen poultry houses which are to stand in the center of as many yards enclosed with wire fencing are being built, also the dog houses, pet animal house, with a cellar for the incubator, a cooking house, etc. The work has gone for enough to show the excellent plan upon which everything will be conducted.

Between the yards and the river Nense near the banks of which the yards are located is a pond—the main avenue through the yards runs directly to it. Mr. Dunn informs us that in this pond he has determined to raise bull-frogs. He thinks they will market about a thousand annually from the pond. This is a novel industry in these parts but we see no reason why it should not meet with the same success here that attends it elsewhere.

### District Conference at Palo Alto.

Wednesday night of this week the District Conference of the Wilmington District commences in Tabernacle church at Palo Alto, with the preaching of the opening sermon by Rev. E. Pope of Scott's Hill. The Conference opens for regular work Thursday.

Bishop Wilson, under whose jurisdiction the North Carolina Conference comes will be present.

Rev. J. T. Kendall, from Missouri, will be present, accompanied by a Japanese lecturer, who after finishing his education is to return to Japan as a missionary. He will exhibit interesting things from Japan as well as lecture.

A good and largely attended meeting is expected. There are, as we have stated, about 65 delegates—a little over twenty of them ministers.

### Morehead Crowd Increasing.

The crowd at Morehead constantly increases. Very few of those who have gone down are leaving—every night additional visitors go down.

It is the best season Morehead has had in years, and one of the best that was ever there. And the crowd, though so large, is a very pleasant one, and every thing is running on delightfully and to the entire satisfaction of every one.

Good music, dancing, sailing, surf and still water bathing, etc., give all the variety, and enjoyment needed and the table is all that could be asked. Mr. Perry keeps his guests pleased in every way. He was known as a good hotelier before but he is making a reputation for himself this year, which is likely to cause people to seek Morehead in still increasing numbers.

The Atlantic has many now, but like a street car, there is always "room for one more" and the building is so admirably constructed that no matter how many there are they do not get in one another's way. They can move about easily anywhere at any time.

Morehead is one of the best places any one can be at in hot weather, and for royal fare, high enjoyment the Atlantic takes the lead, while for those who want to enjoy the delights of the seaside in a more quiet way the New Berne House, Arendell House, Sea House, etc., offer what they want and are also well patronized.

### KILLED BY A LOCOMOTIVE.

**Jos. Bryan, Col., in Trying to Save a Mule, is Himself Killed.**

Jos. Bryan living near the dark house of the A. & N. C. R. R., a little beyond the city tied his mule to the railroad track Sunday, and while he was tied a special engine came along.

Seeing the engine approaching, the old man ran out to free his animal and the engineer perceiving the condition of affairs used every effort to stop the engine but could not in time.

Before the mule was reached the frightened best in his struggles broke loose, but Bryan was struck, his leg run over and crushed, his arm broken and a wound given on the head which produced concussion of the brain.

The old man was taken to his home and the railroad officials promptly sent Dr. N. H. Street to him, who rendered what aid could be given. The crushed leg was amputated and the other wounds dressed, but the injuries were too severe and Bryan died yesterday afternoon.

It seems almost incredible that any one should hitch an animal to a railroad but there are all kinds of people in the world, and the thoughtless and reckless have to bear the consequences of their folly.

### Mr. J. W. Rumpie Drowned.

A telegram to Rev. C. G. Vardell from Port de Posit, Va., Sunday, brought the distressing intelligence of the death of his brother-in-law, Mr. J. W. Rumpie, of Salisbury, by drowning.

No particulars were given. Mr. Rumpie had business at Shenando, and there is a ford between that place and Port Deposit, and the supposition is that he probably met with the fatal accident at that place Saturday or Saturday night.

Mr. Rumpie was the son of Rev. Dr. Rumpie, a leading Presbyterian divine, and was himself a young man of ability, usefulness and piety. He was a member of the Salisbury bar, and had been ordered with the majority of the city. He was a robust young man, and none could have been picked out with better promise of a long life. The news of his untimely death was startling and a great shock to his friends and relatives.

Mr. Rumpie leaves a wife and child. His wife is a sister of Rev. C. G. Vardell, and Mrs. Vardell is his sister.

They left New Berne only last week, having been here visiting, Mr. Rumpie going North on business, Mrs. Rumpie returning home.

The stricken families have the warm sympathy of our people.

### Revival at Amity.

Rev. Henry Winfield, of this city, assisted by Mr. J. V. Winfield, has just closed a very successful meeting at Amity church, Pamlico county. During the week there were nineteen accessions to the church, seventeen of whom were by baptism. This is a stronghold of the Disciples, and under the charge of Mr. Winfield, it being one of his regular visiting churches, it has prospered and is stronger to-day than it ever has been.

Just before the meeting, closed Mr. J. V. Winfield went to Broad Creek, where arrangements had been made for another meeting, and began one, resulting in two conversions. This meeting will be continued through the present week.

For a number of years Rev. Mr. Winfield has devoted his entire time to church work in Pamlico and they are building up under his indefatigable energy. He has eight regular points in the county and he manages to visit them all at least once a month, even though some of them are nearly forty miles apart.

Much benefit was derived by the meeting in having secured the services of so excellent an organizer as Miss Mollie Winfield. She will also assist in the Broad Creek meeting.

### North Carolina's First Printer and his Descendants.

Under the head of "A New Berne Hero of the Revolution," we published from the pen of Maj. Graham Daves, an account of the great fortune of Wm. Davis, who suffered a brutal, cruel death on board a British war vessel rather than obey the orders of his captors, and with no reward save a sense of duty done.

This William Davis was the son of James Davis, who in New Berne, in 1749 established the first printing press ever in North Carolina and was the State's first printer.

Maj. Daves now furnishes us the following additional facts and mention of some of the descendants of this pioneer in journalistic work.

Wm Davis, son of James Davis married Miss Ward of Wilmington, sister of John Frank Smith of New Berne. "Jack Smith's" creek and road are named after him. On 1st September, 1778, William Davis was appointed Captain of the 1st N. C. Continental Regiment, and was later promoted Major and Lieut. Colonel of the same. On the 1st of June, 1778, he was transferred to one of the four new regiments to be levied in N. C., for the Continental service, and was doubtless with Gen. Jethro Sumner's command at Stono, S. C., in June, 1779. Among his descendants in the State are Dr. Davis, formerly of LaGrange, now of Winston, Col. A. P. Davis of Winston, Mr. T. C. Davis, of Wilson, and Mrs. Thos. W. Stocomb, of Goldsboro—Col. Wm. Davis died in 1814.

Thomas Davis another son of James Davis, inherited his father's business and his printing materials, and lived at one time in Halifax, N. C., but died in New Berne. He never married.

### BOILER EXPLOSION.

**The Jacksonville Saw Mill Blown to Pieces and Three Men Killed.**

One of the eighty-horse boilers of the Parnelee and Eccleson Lumber Company's immense saw mill at Jacksonville exploded before day Sunday morning—it was about 3 a. m.—and carried death and destruction in its path.

Eight boilers were used to run the mill, and it was the fifth one that burst. The shock displaced every one of the others, and stood some of them on end. Steam was being kept up for the dry kiln.

The boilers were in a house between the saw and planing mill—something, either a piece of the boiler or some projectile thrown by the force of the explosion went through the saw mill, cutting it in two, demolishing a space worth it about the width of an average street.

The boiler itself took an opposite course, broke through the side of the planing mill, went out at the roof, flew nearly a quarter of a mile away in the direction of the railroad Y, struck, and rebounded and went many yards farther; it moved a path through the woods cutting down trees before it of considerable size, as a scythe would mow down grass.

Both the saw mill and planing mill are badly wrecked, the loss will run into thousands of dollars and it will be several weeks before the mill can be got into running condition again.

Three colored men were killed by the explosion and a third so badly injured that it is thought he cannot live. A white man was slightly injured.

Those killed were mangled and torn to pieces. The head of one of them had not been found at last accounts. The cause of the explosion is supposed to have been letting the water get too low in the boiler before refilling it.

### Lenoir County Democratic Convention.

J. W. Granger called the meeting to order and called Col. N. B. Whitford to the chair and requested that W. O. Herbert act as temporary Secretary.

Each township sent in a list of electors, and every township except South West was represented. On motion E. P. and E. J. Loftin were recognized as delegates from South West.

Motion prevailed that temporary organization be made permanent.

A motion prevailed that each township select one member of a committee to recommend delegates to the various conventions.

The committee was as follows: Kingston, J. Harvey; Vance, Samuel Taylor; Nense, M. G. Taylor; Pink Hill, George Turner; Event, D. S. Davis; Woodington, C. A. Dudley; Falling Creek, D. Wood; Institute, A. J. Dawson; Neck, A. E. Moore; LaGrange, K. E. Sutton; South West, E. P. Loftin; Sand Hill, Seth West.

Pending the meeting of the committee, the following resolution was adopted: Resolved that the Delegates to the State convention be and they are instructed to advocate holding a Primary meeting throughout the State on the day of election for the purpose of ascertaining the choice of the people for the offices of the United States Senate.

Also the following resolution was unanimously adopted: Resolved, That we the Democrats of Lenoir county in convention assembled, feeling that our country man, O. H. Allen, Esq., has made an able, faithful and acceptable officer for the people of his District, recognizing his ability as a lawyer—his spotless character as a citizen, we do earnestly and respectfully recommend him as a fit and suitable person to be his own successor as Solicitor of the 6th District (Judicial) of North Carolina, and our delegates are hereby requested to use all fair and honorable means to secure his re-nomination at the Democratic convention which meets at Morehead July 25th.

The committee recommended a full list of Delegates for the State Congressional Judicial and Senatorial convention which were unanimously adopted, the Chairman and Secretary being added to the list of delegates.

### HAPPENINGS OF THE DAY.

Gov. Altgeld doesn't care whether his bean-shooter breaks window lights in the White House or not.

"And your Senate, what does it do?" asked the intelligent Hindu. "The 'Senate' said the man who was showing him around, 'is something like your Nirvana. It doesn't do. It merely is.'"

The rumor that President Cleveland and Senator Hill are to assume the characters of Damon and Pythias during the coming big encampment of the K. of P. at Washington lacks confirmation.

Mr. Frank MacVough appears to have played a thinking part during the strike troubles at Chicago. When he begins to talk Senate he may find other people doing the thinking.

Regardless of his personal sympathies the first duty of every patriotic citizen is to aid in the maintenance of law and order.

The monarchists of Europe who are predicting that the present labor troubles in the United States will lead to the fall of the republic are false prophets who are merely predicting what they would probably like to see.

A physician of South Haven, Mich., intends to make a voyage around the world in a schooner one hundred and twenty-five feet long, with a beam of about twenty-five feet.

Charles B. Carey, of Boston, is the first to utilize aluminum for leggies. He had a pair made of the metal, and to test them trapped through the swamps of Florida, infested with venomous snakes. They were long proof.

At Greenwich, Conn., the other day, women—twelve of them—voted for the first time at an election for school officers. A woman was a candidate for one of the places, and she came within one vote of being elected. As all of the women who voted cast their ballots against her she must be inclined to think that female suffrage is a failure.

### OUR LUMBER RESOURCES.

**Ample for the Present and a Good Outlook for Future Years—Is the Opinion of an Expert.**

Dr. Chas. Mohr, Ph. D., who, in behalf of the Forestry Division of the United States Department of Agriculture, has been making investigations about our pine and cypress timber, has left for Mount Airy.

Dr. Mohr was surprised at the readiness with which the lumber interests of this section were developed. Our article on the weeks shipments of lumber from here appeared the first morning after his arrival and he not only read that but former articles that had appeared in the JOURNAL, giving statistics of the annual output of our mills, varieties of trees that grow in the county, etc. He conversed with our best informed citizens on these subjects, visited some of the leading mills and drove out in the country.

Dr. Mohr's time here, and consequently his personal observation was somewhat limited, but as far as his observation and inquiry extended, he expresses, we are pleased to say, not only a favorable opinion of our lumber interests of the present but also of the outlook for a future supply. Relying mainly upon statements from extended investigations made by others and taking these facts in connection with what he saw for himself he thinks it will take years yet for the virgin forests around us to be worked over for the mills one time—so long that by the time it is done the young trees coming on will have attained an age and size sufficient to give another supply. We are glad to hear such an opinion from one who makes these matters a special study.

Dr. Mohr not only expressed surprise at the development to which our timber industry has attained, but astonishment, at the fine fall crops of corn, cotton, etc., which he saw growing on land that had already yielded a truck crop this season. To his mind it perfectly demonstrates the great capacity of our soil for producing two crops a year. Such visits and investigations as this are good for us. The better our resources are understood, the better it will be—they will stand the closest investigation.

### Moonlight Sail.

The Baptist Aid Society will give a Moonlight Sail Tuesday, evening July 17, on steamer Vauceboro from foot of Craven street at 8:30. Refreshments will be served free of charge. Fare only 5c.

"Think naught a trifle though it small appear." —YOUNG.

The trifles of dress if neglected detract from are otherwise neat appearance. We have some trifles of dress that you can not dispense with. They are Ties and Scarfs, Dude Bows, Handkerchiefs, Collars and Cuffs, Garters, Collar and Cuff Buttons, Scarf Pins, &c. We have a real good Black Half Hose, fast color, at 75c for a half dozen pair. Try them.

J. M. HOWARD.
