#### Presidents Calters-Hon J Taylor Ellyson-Senate Bill Accepted

The tariff situation is more serious to day than it has ever been. I have informafrom to the effect that Senators Harris and Vest are unxious to seize the first opportunity to ally themselves, with the Hou-and President in this fight.

A heated discussion in the Senate wa avoided to-day by a motion to go into ex-ecutive session. It is the evident wish of the majority of democrats to have the Senate conferees resign and new men ap-

#### DRIVEN FROM VIRGINIA

Coxogites and Industrials' Camp at Rosslyn Raided by State Troops Tempory Asylum in Washington City.

Washington, Aug. 11—The assemblage f Coxevites, Galvanites and so-called industrials, who have been camping at Rosslyn, were driven from the soil of Virgin ia shortly after daybreak this morning, by

the militia of that State. The raid was made without the least resistance from the armies. The buts which had been erected from straw and other material which could be secured and every vestige that the flames could

destroy were burned.
Yesterday afternoon orders were issued. to companies A, B and C of the First Virginia regiment at Richmond to assem ble at their armory, and within two hours the men were on special cars on their way to Alexandria.

Gen. Anderson and his officers then went to the leaders of the Industrials and told them in plain, but courteous language, that they must leave the State, An hour was allowed for breakfast and gathering up what little effects each might desire to take away.

Not a mutter or grumble was heard. The men packed up their little belongings and murched from their harriedly constructed tents up to the banks and on to the Acquishiet bridge. A guard of some twenty men was placed at the Vir-ginia end of the bridge and not one who could not give a proper accounting of himself was allowed to return. So then they sit waiting for some one to suggest what should be done.

WILL BE SENT WEST.

Washington, Aug. 11—The Commo realers who were this morning driver from their camp at the Virginia end of the Acqueduct bridge by the Virginia militia, by order of Governor O'Ferral'

They remained on the bridge until the middle of the afternoon, when they were marched to the grounds of the old naval observatory, at the foot of Twentyscould street, Washington, Permission to use the grounds was granted by Assistant Secre-tary of the Navy McAdoo, at the solicitation of the District authorities, The Industrials are to remain on the observa-tory grounds until Tuesday, By that time the District authorities expect to be able to turnish transportation West for all who choose to go in that direction, Some wish to go East, and with these more trouble is expected. They will probubly have a final choice of walking away or going to the work house.

#### New York Truck Quotations by Wire, Messrs, Palmer Rivenburg & Co., o New York, telegraphed the following quotations for that city last night,

The industry which has been put under vay in Western North Carolina by the discovery of large quantities of monazite, a mineral employed by electrical-supply companies is expected to be a very profitable one This metal is now being excounties. It brings \$120 per ton, and the cost of development is said to be small. The shipment of the metal has just been started and promises to rapidly grow in volume. - Manufacturers Record

An indictment of the Alabama Democ racy by such a man as Reuben F. Kolb is a farce. Probably he raves merely for the benefit of the Republican boodle as-sociates in the North, which poured money into his pockets for the purchase of votes. Let Kolb bellow as long and as loud as he likes. Alabama is all right and honest gallant William C. WATCH THE CHOLERA,

#### Plenty Of It in Europe It May Reach the United States-Strict Cleanliness Should Reign.

The Savannah News has this time!) crticle to regard to cholera which is a applicable to New Berne as to the cut) or which it was penned. Sanitary preautions are always advis dde, especially at this season of the year, and under such incumistances as are spoken of.

"It is to be presumed that the health authorities at all of our ports are using very precaution to prevent the cholers rom gaining an entrance into this coun try. Every day our dispatches contain accounts of the spread of the disease in Europe, It is in Galicia, Holland Germany, Belgium, and especially in Russia. It is doubtful if reports of the number of deaths from it daily in St. Petersburg at obtained. It is well known that its praence in that city was concealed until conadment was no longer possible

"We escaped the disease in 1892 and 1893, and there is no reason to doubt that our escape was due to the precau-tions against it taken at New York and ther ports. It was freely, predicted that it would reach us in 1893, on account of European visitors to the Chicago for The watch upon incoming steamers, how ever, was a very thorough one, and weffective.

"Because we escaped a visitation of the cholera last year and the year before we should not be less cautious this year Not only ought there to be watchtune at the ports, but in all our cities per attention should be paid to sanitary made ters. As long as there is cholera in Europ this country is in danger from the diase, because we have communication more or less direct with all the cholera infected districts. Watchfulnes are cleanlines are our only suggrands again-

#### The August Races.

The race schedule for the 2.50 cm - i the August races was not flash. The managers have decided to make a new departure, and larve decided to arrange a free-for-all race, open to all horses owned in this State, May 1 last. The purse is \$100, with no entry fee. The distance is one mile and 200 yards. Four horses are to enter and three to start. The mone are but remarks of their former appear-ance. After their occupants had been forced from them the torch was applied 10. It is very unusual to charge normal trance fee. Parties who think they have speedy horses now have a chance to prove that matter. The distance is one which will not affect a horse's record in humo races, as it is more than a mile, New
