Also Copied soap for the bath, 3 cts per cake. WHEN Boraxine is used according to directions, a third of the labor and the cost of soap in ordinary washing is saved. Samples free at J. F. Taylor's.

## Local News.

### NEW ADVERTISEMENTS.

Howard.

J. F. Taylor—Cheese.

Miss Hattie Harrison—To pupils.

Nancy A. Whitford—Executrix Notice.

Cotton sales yesterday 30 bales at 6 cents.

Maj. W. H. Chadbourne went down last night to spend awhile at Beaufort.

The Royal Arcanum will meet tonight at the regular place.

Fair weather to-day and slightly cooler, this morning is the weather prediction for to-day.

Prof. E. P. Mendenhall will make an address Sunday afternoon in the Y. M. C. A. hall on "The Character of The Christ."

Mr. Chas. Schermerhorn, who was with the New Berne Sewerage Company awhile died recently at his home in Plain field, N. J., of consumption.

The protracted meeting in the Free Will Baptist church is progressing well under the preaching of Rev. W. W. Lewis. The congregations are large, and the number of converts is being increased as the meetings go forward.

One of our young enterprising Broad street merchants, Mr. J. R. Parker, had a car load of flour delivered within fifty yards of his place of business yesterday, which was shipped direct from Grand Rapids, Michigan, to New Berne without any change of water.

We learn that the busy tender Holly which formerly did service in our waters is now off duty, not because she has given out, but because better boats have taken her place. It is suggested that by proper effort she might be located here to look after our inland waters. We would like to see it accomplished.

Some of the papers in giving the list of Agricultural Fairs soon to be held put down "Fair at New Berne, October 23d, 24th, 25th, and 26th." This is a mistake. The Fair which is held on that date is the State Fair at Raleigh. The East Carolina Fair at New Berne is a winter Fair held in February or March—the present date for the next one has not yet been fixed.

The tug Ella brought up a very pretty lot of fish to Messrs. Fernie E. Gaskill & Co., last night from their fishery at Broad creek. There were thirty boxes of them—barrel boxes, and it was both a fine variety and fine large specimens—Pooppo, sheepshead, rock, mackerel, trout, etc., besides drum and turbot and small fish. The trout would run in weight from nine to twelve pounds and some of them were longer than the boxes in which they were packed.

To talk about improving our roads is all right as far as it goes, but to stop there would amount to very little. Action must be taken. Each man that expects to even the least way to be benefited should bear his proportionate part of the movement. Will any one deny that it will not pay to construct good substantial roadways? If so we would respectfully ask them if they read the article in yesterday's JOURNAL, delivered by Col. Austin before the recent State Road Convention, on "What Good Has been Done by Macadamizing Roads?"

## Hotel Chatawa Arriva's

L. Colon, city; P. A. Carter, N. Y.; H. E. Wells, Wilmington N. C.; H. C. Lumsden, city; T. W. Gentry, Richmond, Va.; J. H. Ellsworth Columbus, Ohio; Fred G. Mitchell city; Mrs. F. G. Mitchell, city; Geo. A. Boyden, N. Y.

## The Concert To-Night.

The concert by the members of Mrs. W. B. Hill's music class comes off tonight in the Y. M. C. A. Hall, beginning at 8 o'clock. Tickets will be on sale during the day at Nunn & McSorley's. Reserved seats are 35 cents, general admission, 25 cents, gallery, 15 cents.

The class shows great proficiency and the attendance can rely upon passing a pleasant evening.

## The Law is Obeyed

Dr. Jno. S. Long, Superintendent, of Public Instruction informs us that the law about which inquiry was made requiring all students of public schools to be instructed about the nature of alcoholic drinks and narcotics and their effects upon the human system is carried out, the younger pupils being instructed orally and the older ones from text books.

He says also that in making the examination of teachers, he includes examination along this line.

## Naval Reserve Concert.

Mr. C. L. Gaskill is working up a minstrel company with nearly a score of members to give an entertainment for the benefit of the Naval Reserve, to aid towards the purchase of dress uniforms.

Nearly all composing the company are members of the Naval Reserve—a few are outsiders—among them are some very good men for the business and some good voices.

The proposal is to use Shakespearean costumes with the end men as regular court jesters—a variation that will no doubt add zest to the pleasure.

Messrs. Daniels and McSorley will have charge of the gymnastic part of the entertainment and they intend to work up something very good.

The entertainment is planned to come off the first part of November, and it is expected that a trip will be taken to Wilmington to render it there also.

## The Edenton Fair.

The premium list of the Edenton Fair is before us. It is an attractive pamphlet of 84 pages. The fair will be held Oct. 16th, 17th, 18, and 19th.

The premiums are comprehensive, embracing just about everything in the way of Field, Garden and Orchard products of the season, live stock, poultry, pantry supplies, ladies work, fine arts, manufactures, fishing material, &c.

There will also be races every day, twelve trials of speed in all, for purses ranging from \$30 to \$200.

Cheap transportation has been arranged for. There is good reason to hope for a good attendance and an enjoyable fair. We hope it will be a success in every way.

## Changes in the Steamer Lines.

The new arrangement under which the Eastern Carolina Dispatch and the Old Dominion Steamship Company's lines are to continue their business here goes into effect the first of October.

The business will be run as two lines under one agency Mr. G. O. Henderson, who will have charge of everything at this point pertaining to both lines. All the warehouses and property belonging to both lines will be continued in use.

On the E. C. D. line there will be no changes in the force, every employee will be retained. There will be some addition to this force, but how much is not now known—the details have not been perfected yet.

The frequency of the runs has not yet been settled but will by the first of the month, but will be adequate, when needed a daily trip will be made.

All the boats will run to Elizabeth City and there connect with the Norfolk and Southern railroad for Norfolk. At Elizabeth City, as well as New Berne, the business is transacted under one agency; at Norfolk the two lines diverge. The new arrangements will ensure a saving to each line at both ends.

Mr. Henderson has been the agent at this point for the E. C. D. line every since it was established, eight years ago. Its success during that time has proved his ability in the transportation business.

The added responsibility is quite a compliment to efficiency and faithfulness. That he is equal to the demands, every one who knows him is perfectly satisfied of. Good service is assured.

## Excursion to Wilmington.

An excursion will leave for Wilmington over the W. N. & N. E. Ry. next Saturday night. Fare for the round trip \$1.35. The train starts at 9 o'clock Saturday night, and returning will leave Wilmington at 6 p. m. Sunday.

## N. H. B. & L. Association.

The annual meeting of Stockholders of the New Berne Building & Loan Association will be held in the city hall on Wednesday evening, Sept. 26th, 1894, at 8 o'clock.

L. H. CUTLER, Sec'y.

J. E. B. CARRAWAY, Pres't.

Attention Ladies.

Chickadee's English Red Cross Diamond Brand Penney-Royal Pills. For sale at W. W. Eddy Drug Co., Corner Broad and First Streets.

## LAW ABOUT PHARMACISTS.

### And a Druggist War in Goldsboro Growing Out Of It.

A Raleigh correspondent of the Charlotte Observer tells about some trouble among Goldsboro druggists arising from the enforcement of what we believe are features of the law relating to their business which are but little known. We copy the item:

"Sheriff Grant, of Wayne, was here to-day, and from him a lively story was picked up. There is a 'drug war' at Goldsboro. The druggists, it seems, are angry with a prominent physician, who is also a druggist, and the latter is angry with the sheriff, who is trying to do his duty and keep the law on the side of all parties concerned in the quarrel.

"In 1891 the Legislature passed an act that no one save a registered pharmacist could fill prescriptions, unless supervised and that no druggist could leave his store in charge of any one save a registered pharmacist. The law also says that not even a duly registered druggist can either fill or refill any prescription without the order of a physician.

"Ever since its passage the law has, it appears, been practically a dead letter, and few people knew of its existence. The Goldsboro doctor-druggist knew of it however, and saw in it a way to make a big business 'scoop.' As it happened he went to the sheriff and demanded that the latter enforce the law. The sheriff was bound to comply. The matter was investigated and it was found that all the drug stores save that of the shrewd doctor druggist had been violating the law. As a consequence some deserving young men were thrown out of employment, and two drug stores were compelled to close.

"Since that time things have been waxing warm. The druggists threaten the doctor, and he in turn threatens the sheriff for telling them who started the affair. At the last term of court he had Sheriff Grant indicted for neglect of duty but the sheriff was acquitted."

### ALIX TROTS A MILE IN 2:03 3-4

#### The Great Mare Distinguishes Herself on the Galesburg Track.

The Galesburg Pl., track now holds the world's record for trotting, Alex clipping a quarter of a second off her record there on the 18th, going the mile in 2:03.

It is said to have been one of the greatest achievements ever witnessed by man. The day was all that could be desired, the hot sun putting the track in perfect order. To witness the trial of Alex, and other events no less than 20,000 people were on the grounds.

At 5:10 the track was put in shape and Mr. Williams announced the special event of the day—the attempt of Alex to beat the world's record of 2:04. When the mare appeared on the track, with McDowell behind her, she was greeted with a mighty cheer. On the second score, McDowell nodded and with the runner by her side the little mare was off on her journey. To the quarter she went in 30 1/2 and sped on to the half in 1:01 1/2. As she neared the three-quarter mark the watches marked her at 1:33 1/2. When the mare turned into the stretch she fairly flew and without a skip came up under the line in 2:03.

The crowd went wild and cheer after cheer went up for Alex, McDowell, Morris and Williams and his favorite track. Robert J. will try to beat his record of 2:04. Directly to beat his record of 2:10, Flying Jib to beat his record of 2:04 and Outline to beat the 4-year-old record of 2:07.

#### South Carolina Democratic Convention.

The Tillmanite Democrats of South Carolina met in convention at Columbia on the 28th and nominated John Gray Evans for Governor and W. H. Trimmerman for Lieutenant Governor. Over 300 delegates were present, all were Tillmanites except the delegation from Charleston—they were conservatives.

The Charleston delegation tried hard to get the convention to come out squarely on the Democratic platform and denounce Populism, but their efforts were defeated by an overwhelming vote.

The platform indorses the Ocala platform, as well as the Chicago platform. It demands the free coinage of silver at a ratio of 16 to 1, and indorses the dispensary law as the best solution of the liquor question.

The argument in favor of choosing our Senators from the eastern and western sections of the State is an unnatural and demoralizing one. It is a specious theory, based upon false promises, and is capable of being so perverted as to become inimical to that wide liberty for which Democracy stands. Such a theory of Senatorial representation proceeds upon the assumption that geographical limitations must be placed upon intelligence, culture, virtue, patriotism, party service and political availability in choosing a candidate. Such a system of reasoning is pernicious in the extreme, is capable of great abuses and is susceptible of incalculable injury to the party. It is a vicious doctrine which interferes with the party's freedom of action and limits its choice to a comparatively narrow sphere. The restrictions it imposes upon a Legislative body confines its selections to two necessarily extreme, remote and circumscribed sections of the State without reference to the interests to be represented, or the general fitness of the candidates concerned. It is through a sectional favoritism like this that an office-holding caste is established and the cry comes that Senators are too far away from the people. Fixing such a precedent naturally leads up to the abuses which have made the present method of electing Senators universally unpopular. If the Governor or other State officer can come from the middle section there is no reason why a Senator cannot also. An invidious distinction is created which should never exist.—Raidville Review.

Atlanta is excited by the discovery of a base crime. The body of Forrest Crowley was found in a thicket on the 18th; he had been shot to death. He was murdered for his money. He had \$700 before the shooting—only \$126 when found—that was in a pocket which appears to have been overlooked. Will Myers and

## HAPPENINGS OF THE DAY.

Willie Beckinridge doesn't sneer at the power and influence of women in politics, now that he has had time to quietly think over the matter.

Miss Paulina, of Holland, is probably the tiniest woman on the planet. She is eighteen years old, weighs less than nine pounds, and lacks four inches of being as high as a two-foot rule.

Of the large number of clerks dismissed at Washington, five-sixths have been women clerks of high salaried grades. Henceforth, it is said men will be appointed to the higher places.

There will be a Democratic bolt in South Carolina. The Butler men have called another convention because the one held on the 18th failed unequivocally to denounce Populism. The convention is called for the 25th inst.

If the failure to use good English is a sufficient reason for turning down a Congressman, as certain Kentuckians are alleging it to be, lots of the old members will have to go.

Walter Whitley, a white boy eleven years of age, has been arraigned in Rockingham court for murder, for shooting a negro white out hunting. He says the shooting was accidental.

A special to the Wilmington Messenger on the 19th, gives this item: "The Republicans in their committee meeting this evening did not discuss the matter of making a nomination in lieu of Mr. Connor. One of the committee said he did not think there would be a nomination as they were afraid the nominee might write another letter."

The Asheboro Courier says that Mr. John H. Fero was here Saturday and closed a contract with John T. Moffitt of the Asheboro Wood and Iron Works for the lumber for a new cotton mill at Randleman 200 feet long and 100 feet wide. The mill is to be filled with looms.

The Durham Sun tells of a fire near Kaysville, the loss by which was between 2,500 and \$8,000, all caused by a small boy, the son of the owner of the premises smoking a cigarette while feeding up. The barn and contents, the stable and four milks were all burned.

The Shelby Review tells that Mr. A. Logan son of Mr. John R. Logan, is a specimen of what Cleveland county can produce in the way of a giant. He is seventeen years old, and 6 feet 3 inches high. His average weight is 187 pounds, and he is still growing.

Trinity College is now cutting upon its forty-first year. The number in attendance is larger than at the same period last year. The students keep arriving and the number is expected to be 20 per cent larger than last year.

E. J. Fuller of Fayetteville, has been brought to the bar at Rockingham, for his second trial which is set for Saturday, 22d. A venire of 225 men was drawn. Fuller looks well and seems cheerful. Some of his lawyers and some of the witnesses are there. It is pretty generally conceded that it will take all of a week to try him.

The Democratic party is to be congratulated that Marion Butler has thrown off his disguise, that he and the Republican bosses have spiced, for this simplifies the issues and makes it more clean cut. We know now whom and what we have to fight, what there is behind the fight, and can go into it, kill two birds with one stone and finish up the job.—Wilmington Star.

The Danbury Reporter says that the Republican ticket put out there is a badly mixed up family arrangement. D. V. Carroll and Gaston Carroll are brothers; Mr. Slate, the candidate for coroner, is related to the Carrolls by marriage; N. O. Petree and R. J. Petree are brothers; Elias Voss is a brother-in-law of the Carrolls; Clerk Petree is related to Fulton by marriage, and then to cap the whole thing, the Petrees and Carrolls are related. They all hail from the same section of county.

While the Duke and Duchess of Connaught were inspecting the performance of a military band at Aldershot on Sept. 15, the balloon was struck by lightning, which followed the anchor wire to the earth and seriously injured three men who were holding the wire. The duke rushed to the assistance of the unfortunate men, who were shrieking with the agonizing pain their contact with the wire caused them. They were released from their predicament and taken to the hospital, not mortally hurt.

Orders have been issued to hurry the work on the Detroit and Norfolk that she may sail for China in compliance with Secretary Herbert's directions as soon as possible. Secretary Herbert is determined that the Detroit shall sail from Norfolk for Gibraltar, her first stopping place, by October 1st. The Machias will probably not leave New York until several days later, and as she is to stop a short time at Cadiz and Rome in order to return the Columbian relics, the Detroit will not wait for her, as was first intended, but will push on with all possible speed through the Mediterranean and Indian oceans and make a record voyage to China.

Atlanta is excited by the discovery of a base crime. The body of Forrest Crowley was found in a thicket on the 18th; he had been shot to death. He was murdered for his money. He had \$700 before the shooting—only \$126 when found—that was in a pocket which appears to have been overlooked. Will Myers and

He had \$700 before the shooting—only \$126 when found—that was in a pocket which appears to have been overlooked. Will Myers and

Charlie P. Jones are suspected of having committed the murder. Myers has fled. Jones has been arrested. He was a chum of Myers but declares he knows nothing of the murder. He is a nephew of Evangelist Sam P. Jones.

A negro 23 years old has been landed in Wilmington jail charged with criminal assault upon a mulatto girl. The crime was committed near a Wilmington turn-pike Saturday evening. He was taken at Scott's Hill, Pender county.

In Forsythe county R. E. Transeur is trying for the nomination for Register of deeds of that county and J. F. Miller is making a strong pull for the Republican nomination for the same office. The two men are partners in a mercantile business, but declares that he nominated they will fight the battle out with gloves off though good-naturedly.

A special to the Charlotte Observer gives the information that genuine emeralds have just been discovered in Mitchell county, three miles from the crest of the Blue Ridge and 15 miles south of Bakersville. Mineralogists will be especially interested in this discovery, as it is the second locality for genuine emeralds in North Carolina, a gem which is so rarely found in this country at all. The other locality is in Alexander county, and was discovered by Prof. W. E. Hidden along with his famous hiddenite. Emerald is a variety of the mineral beryl. The ordinary mineral is found extensively through several of our mountain counties, but the chrome colored variety, the true emerald, is rare.

Notice.  
Notice is hereby given that the Board of Commissioners of Craven County, at their meeting on the 1st Monday in Sept., 1894, passed an order changing the polling place at Fulcher's No. 2 Township in said county to Truitt's school house in said Township. And also an order changing the polling place at Conner's in No. 7 Township in said county to Riverdale; said polling places will hereafter be known as Truitt's School House voting Precinct and Riverdale voting Precinct. By order of Bd. Comm. of Craven Co. JAMES W. BIDDLE, Clerk.

Shiloh's Catarrh Remedy. A marvelous cure for Catarrh, Diphtheria, Canker mouth, and Headache. With each bottle there is an ingenious nasal injector for the more successful treatment of these complaints without extra charge.
