Local News.

NEW ADVERTISEMENTS
Howard.
R. N. Duffy—Group Syrup.
Bradham & Brock—Notice.

COTTON SALES.
Friday—24 bales at 5 11-16c.

To-day is the last day of the W. N. & N. Line. The joining with the E. C. D. Line goes into effect Monday.

The Directors of the A. & N. C. R. R. have authorized President Chadwick to purchase 17 more box cars for the road.

Capt. Anson Wallace will be the night watchman for the consolidated steamer lines. He goes on duty Monday night.

The weather bureau telegram yesterday read: "Rain to-day and on the coast to-night followed by fair, probably warmer Saturday afternoon."

The Steamer Albatross having lost a trip by reason of the storm the Enola will arrive to-day in her place for this trip.

Rev. Levi Branson is now engaged in work upon a State directory. He is at present at Morehead and Beaufort and will be up to New Berne in a day or two.

The crew of the Steamer Neuse left on the Steamer Newberne after the Neuse which has been undergoing repairs at Berkeley, Va. The Neuse is expected back Wednesday.

The circus which is to exhibit in Wilmington on the 15th, has arranged a tour of the State, reaching from Wilmington to Asheville and embracing eleven cities. It will show in Goldsboro on the 16th. New Berne is given the go-by.

Mr. J. W. Varnelson, representing the music house of Ames & Burke, Norfolk, left on the steamer Neuse. While here he made arrangements for space at the Fair and the company mean to make a fine exhibit.

The Democratic meeting at Mayaville yesterday was a fine one. Genl. C. A. Battle who is now canvassing regularly was the only orator of the occasion but he needed no assistance. He spoke from hall past two until four p. m., and made a very good impression. To-day he speaks at Jacksonville.

Mr. John D. Pittman's son Charlie of Cronan, aged fifteen years had the misfortune to break his arm Friday morning. He was riding a mule which became frightened at the firing of a gun and threw him. Both bones of the arm were broken near the wrist. He was brought up to the city and the broken bones were set by Dr. Chas. Duffy.

The Beaufort Herald states that the Martin Wagner Company, of Baltimore, have bought the machinery belonging to the Gibbs Preserving Company's oyster canning factory at that place. The factory has been undergoing some repairs and the indications are that it will run this winter.

E. J. Fuller of Fayetteville, who has been on trial at Rockingham for murder, is acquitted. The jury were out only about fifteen or twenty minutes. This was the second trial—the supreme court having granted a new one. On the first trial at Fayetteville last March he was convicted of the murder of B. C. Parker in the first degree and sentenced to be hanged.

The Wilmington Star speaks of the numerous addresses made at Charlotte showing the advantages of good roads from various stand points, but it says it was most impressed by the address of Mr. W. C. McEakin, Supervisor of Roads in Wake county, who has had practical experience with the working of convict labor, and showed by facts and figures that this labor was the cheapest and most effective that could be employed, and that for the convicts themselves it was the best two facts which ought to settle any difference of opinion there might be on the question of convict labor.

DOUBLE DAILY TRAINS.

Improved A. & N. C. R. R. Service on Both Trains.

Beginning with Monday, Oct. 1st, the A. & N. C. R. R., makes some additions to its service which will be greatly appreciated by the public. The principal change is in the mixed freight and passenger train.

The through train between Goldsboro and Morehead City is continued every other day just the same as now except that in the upward run between here and Goldsboro the train leaves here an hour later than now—at 2:30 instead of 1:30 p. m., and correspondingly arrives in Goldsboro just an hour later than now.

In addition to this service which we have had all along, a mixed freight and passenger train will be run between New Berne and Goldsboro on the off-days on exactly the same schedule. In other words a mixed freight and passenger train will leave Goldsboro every morning at 6:30 for New Berne and arrive here at 12:15. On Mondays, Wednesdays and Fridays it goes no further but on the alternate days, Tuesdays, Thursdays and Saturdays it goes on through to Morehead and comes back from Morehead the next morning as now and keeps on through leaving here at 2:30 p. m., and on the other days the train starts from here at 2:30 p. m., instead of coming all the way through from Morehead.

Perishable merchandise, such as fish, clams, etc., will hereafter be taken on regular freight days from Morehead on the freight train and on the other days as freight on the regular passenger train. At present they are taken on the latter train only as express.

Coming and Going.

Miss Harriette Lane, who has been North after her fall and winter millinery and Miss Nellie Wood who accompanied her, have returned home.

Miss Lillian Roberts who has been visiting in Raleigh returned home last night.

Mr. J. M. Howard returned from Chapel Hill.

Mr. and Mrs. W. J. Smith left on the steamer New Berne moving to Elizabeth city. Mr. Smith has been holding the position of purser on the steamer Neuse; under the new arrangement he goes to Elizabeth city, to take the position of joint clerk of the E. C. D. and O. D. S. S. Lines.

Geo. J. Dudley, Jr., of Vanceboro left on the steamer New Berne for Baltimore to finish his medical education. He will graduate next Spring.

Col. J. D. Whitford and Capt. Reid Whitford returned from the western part of the State.

Miss Lizzie McLaughlin who has been visiting friends and relatives in this city left for her home in Hyde yesterday.

Mr. and Mrs. Chas. Brian who have been visiting friends returned home in Hyde.

Improvements at the Post-Office.

We observe some changes going on in the post office building in the way of some other new and different boxes. A hundred boxes known as call boxes have been added.

This addition is made to relieve the delays at the general delivery window, and it is hoped it will prevent the crowding which has so long been an annoyance to the public as those renting one of the boxes can see whether there is any mail for them or not and pass on without delay if there is not.

As soon as proper authority is received a full announcement will be made by the postmaster of the disposition of the boxes. Additional boxes for mailing letters have been put in the office and will be properly designated in a few days. In the meantime any of the boxes may be used for letters.

Mr. Manly and his efficient assistants well understand what the public needs and these little improvements they have brought about will be duly appreciated but improvements though they are nothing like either the postoffice officials or the public need and require. A larger building. The present quarters are not adequate. The government should provide suitable ones with as little delay as possible.

The Road Construction.

The entire road construction committee took a drive over the portion of Neuse road yesterday afternoon which it is proposed to macadamized and especially noted the worst places. They also drove over the macadamized road which Messrs. Heckburn and Willett are building from their farm and found it in good condition. There having just been a storm made the occasion a good one for both examinations.

The collections are progressing with entire satisfaction and work is to begin next week.

Big Ike Excites Attention.

Mr. Hill Humphrey and bride, nee Mrs. Georgia Ward of Jacksonville, who were married on the 26th inst., are now in Washington City. The Richmond Dispatch has the following special under date of September 27th about their arrival there:

"A well dressed, nice looking man arrived at the Metropolitan Hotel to-day, accompanied by a lady. He registered as follows: 'Big Ike, Mrs. Big Ike, New Berne, N. C.' None of the North Carolinians about the hotel knew anything of the new arrival, who displays so much acrobatic in registering his name."

Corbett Must Fight or Give up the Championship.

The Olympic Club which awarded Corbett the championship belt declares that the meeting of Fitzsimmons with O'Donnell will not be tolerated by either the club or Fitz and that Corbett must give a satisfactory answer in three days or they will transfer the championship to Fitzsimmons.

The Washington Post speaks quite sarcastically of Corbett's repeated evasions of Fitzsimmons's challenge. It says: "The New Orleans Club has offered a purse of \$25,000 for the fight. Fitzsimmons offers, as further inducement, a side bet of \$10,000, and the promoters of the contest guarantee immunity from legal prosecution or retaliation. What more does Corbett want? Is he a fighter in actual fact, or is he only a 'saw' fakir looking for sure things and keeping out of harm's way?"

John L. has this to say: "A Post reporter called at the dressing rooms of John L. Sullivan at the Bijou Theatre last evening just after his performance and showed him the dispatches from Corbett and Brady. In reply the burly champion snapped his fingers at both propositions. 'Corbett,' said he, 'is unwilling to run even a slim chance of endangering his reputation by meeting Fitzsimmons; not that I believe Fitzsimmons can lick him because I believe a 200 lb. big man can whip a good little man and Corbett is a heavy-weight and Fitzsimmons is a middle-weight.'"

"Corbett," said Sullivan, "knocked me out because anybody could knock me out when I entered the ring at that time. Corbett is all bluff."

"The real truth of the matter is that Corbett, while a great fighter, has no sand." The Fitzsimmons-O'Donnell mill, he hardly believed, would ever come off.

Increasing Attention to Forage Crops.

The editor of the Wilmington Review speaks of a trip he has just taken to the interior of the State and he tells of the remarkably fine crops he found everywhere. After speaking of cotton and corn he has this to say of hay:

"Not much money will leave North Carolina this year for hay because not only is the crop of fodder enormous but a great deal of hay and clover has been cut. There have been as many as three crops of grass cut from some fields, and we understand that the people are getting into the way of making more and more hay every year. The encouragement of big crops of feed this year will have a wonderfully stimulating effect on all kinds of farm labor next year and we may yet hope to see the day when our people will regularly, year after year, export corn and hay instead of importing them."

Around New Berne the growing tendency to raise hay and other home supplies is plainly discernible. Whole fields which a few years ago would have been devoted to cotton with scarcely a blade of grass to be seen can now be seen in the summer time covered with a luxuriant vegetation of some kind of forage crop and some of the farmers, not only raise their home supplies but have hay to place on the market in neat bales that will rival in quality any imported. There is not enough grown however to stop importation but the leaves are at work and a few more years may see this result brought about, may even see us sending hay to places which have sometimes supplied us. There is no reason it should not be so.

With the introduction of improved roads which are now being inaugurated it will be an easier matter to market such crops and this will have a tendency to encourage their growth.

Maj. Daves Still Searching Early Records.

The Raleigh News and Observer gives the following item in reference to the efforts of our townsman Maj. Graham Daves in making his researches into the early history of this State:

Maj. Graham Daves has written to Mrs. Cicero W. Harris, of this city to find out where the private papers of her great, great uncle, Maj. Howell Tatum, an officer in the Revolution, can be found. Major Tatum was the last secretary of the Cincinnati society of North Carolina, and Major Daves thinks these papers will give some clue to the whereabouts of the records of the Cincinnati society. He also says if these records can be found they will throw much valuable light on the early history of North Carolina. They are wanted by Maj. Daves for the Colonial Records of North Carolina, now being collected by Judge Walter Clark.

Maj. Tatum was a young brother of Hon. Absalom Tatum, who represented Hillsboro district in the 2nd Congress and whose monument, erected by the Legislature of North Carolina, stands in the old disused cemetery in the city of Raleigh.

If the claims of the inventors hold, the bicycles which the owners now pride themselves so much upon will soon be old-time slow-moving wheels. An Italian mechanic, a resident of Florence, is said to have made an improvement on the bicycle by which the rider can fly at a speed of more than a mile and a half a minute with one-twentieth of the exertion now required, while E. P. Holley, of Providence, R. I., claims to have invented a hydraulic bicycle, which will make twice the speed of the present racing machines. It is built of aluminum, and weighs only three pounds.

Attention Ladies.

Chichester's English Red Cross Diamond Brand Penny-Royal Pills. For sale at Wm. E. D. DAVIS Co. Corner Broad and Fleet Streets, 191m.

Bay Horse at Auction.

I will sell, Saturday Sept. 30th, corner of South Front and Middle street, one bay horse 4 years old, guaranteed to be perfectly gentle, not afraid of anything, any lady can drive him, guaranteed to work anywhere. B. B. STRAYER, Jr.

HAPPENINGS OF THE DAY.

The Democratic nominees for the Legislature from Rockingham county are both pronounced anti-Ransom men.

Bro-kentridge men in Kentucky threaten to vote for Judge Denny, Owen's Republican opponent.

Rev. Dr. Mianogrode, formerly pastor of Hon. Jefferson Davis, is nearing his end at Alexandria, Va.

Forsyth county Republicans say that they are Republicans still and they do not know how to take hold of an outsider and affiliate with the pops. Vance county Republicans also put out a straight ticket.

A northern paper says the pleasure-loving people have taken the last row of summer, but not a blooming one on them is left alone.

One of the signs of the revival of business in the country is the heavy demand for small bills. The New York Sub-treasury has been taxed for some days to supply this demand.

Mr. Mancharja Merwanjee Bhowanjee, the Parsee who is about to seek Parliamentary honors of an English constituency as a Unionist, is well known in London. He should win with ease.

Senator Hill is thinking over his nomination for Governor. There is nothing definite yet in regard to his intentions, but there is little doubt left of his acceptance. Congratulations are pouring in to him from all parts of the country.

By order of Secretary Herbert the Naval Observatory at Washington is to be reorganized, Prof. William Harkness being placed in full charge of all the astronomical work of the institution. It is understood that the reorganization does not contemplate any change in the present working force.

The Chicago Herald observes: It is alleged that a Democratic newspaper at Woodstock has been converted to Republicanism. If the statement is true the Louisiana missionary plan—a change of heart for the bounty—probably was adopted.

The saving in salaries in Washington in one year by Democrats was one million dollars. Is that nothing, Mr. Pops? If so, what have you to say about the reduction of twenty-eight million dollars in all expenditures in one year?—News and Observer.

The Democrats are coining silver every day. In July the amount was \$430,000 silver dollars, and in August it reached \$738,000. That part of the Sherman act not repealed requires this coining for the redemption of treasury notes issued under its provisions.

The United States had a fleet of nine vessels patrolling the Bering sea, to prevent seal poaching, which cost \$400,000 while Great Britain had one (G. B. was) as anxious to prevent poaching as the U. S. were, for the poaching was mainly done by Britishers.

It is the irony of fate that after modern nations have spent untold millions upon developing the steel-clad warships, big guns, torpedoes and dynamite-throwing apparatus, the first trial of these in actual warfare should be made by the two old nations of the orient—supposed, hitherto, to be some thousands of years behind the times.

Professor Roux, of Paris at the recent Hygienic Congress at Buda-Pesth, asserted that in the Paris hospital 75 per cent of the children inoculated with Behring's anti-diphtheritic serum taken from horses were saved, while of those not inoculated 60 per cent died and only 40 per cent survived.

Will Wattles, of Pumptown, Conn., has lived for seven years exclusively on a diet of pop-corn and water. Wherever he goes carries his popper with him. The continuous use of the one article had a peculiar effect on Wattles. His hair grows in tufts and his eyebrows have disappeared completely.

Operators on the New York Produce Exchange laugh at the Government report on the corn crop. Operators have their own sources of information, and they always stick by the figures privately obtained in preference to the Government reports. Some of the best posted brokers claim that the total yield of corn will be 1,500,000,000 bushels, and that the damage by drought was greatly over estimated. Ex. President Evans Thomas said that there would be as much corn in the country this year as ever before.

A special dispatch to the News and Observer from Washington City says: "Senator Stewart has been exonerated from the Glasscock affair. The Judge by having the case taken out of court, declares Senator Stewart innocent, and that Mrs. Glasscock's dealings with the Senator constitute a case of black mail. Since this action of the court she states that her degradation is due to a certain North Carolinian who holds a high place in the synagogue and who is noted for his much speaking in the field of politics. She has shown several letters, and says this respectable citizen of North Carolina sent her to Washington to get clear of her, but before the divorce suit is ended it is feared he will have to come up and 'own the corn.'"

The third and Republican parties are small enough by themselves, but together they are less than when separate. They fused in Arkansas and it went Democratic by 25,000 majority—the usual majority being 15,000. Georgia is usually Democratic by 50,000, but the Reds, and Pope, fused there and it went Democratic by 80,000 majority. In Alabama they fused and it went Democratic by 41,000 majority, and Kolb hallowed out he was cheated. Old Geo. Hoar, of Massachusetts, raised \$5,000 among the protectionists in one hour to help carry Alabama for the Populists. Because the people couldn't be bribed Kolb says he cheated. The truth is when the Pops, and Reds, fuse about half of each vote the Democratic ticket—Extract from Attorney General Osborne's Kinross speech.

More Fish Than is Needed.

The Southport Leader of September 27th, says:

"The mullet catch around here this year has been far greater than the demand there being absolutely no market for this fish. During the past week quantities of these fish have been salted down by many families in Southport. There is no sale for them in Wilmington."

Big Rally at Seven Springs.

There will be a big Democratic rally at Seven Springs on Friday, October 12th. The following well-known speakers will address the public: Hon. Thos. J. Jarvis, Hon. C. B. Watson, Hon. Thos. W. Mason and Hon. Lee S. Overman. This is a big army of fine oratorical talent, and those who attend have a treat in store. Everybody is invited to attend and hear the views of the campaign honestly and fairly discussed.—Kinston Free Press.

Fifth Ward—McCarthy's Precinct.

The registration books, McCarthy's precinct fifth ward, are now open at McCarthy's store on Norwood street. Close Oct. the 27th at noon.

J. E. GASKILL, Registrar.

Notice.

As I will discontinue my milk wagons after Sunday, Sept. 30th, I would like for all who owe me to settle their accounts this week WITHOUT FAIL.

Respectfully,
Mrs. J. W. MOORE.
