One Dollar Deposits

Some people think that Dollar deposits are too small to have any significance. But if a depositor will bring in one dollar every working day to this bank he would have the snug sum of \$315.00 deposited at the end of the year. This is an object well worth working for. Many a man has begun business on a smaller fund or has made a first payment on a home! We cordially invite deposits of one dollar and pay interest on the money, at the rate of 4 per cent. compounded every three months.
