## CHILD MANGLED BY VICIOUS HOG

Telephone Message Brings Tidings Of Peculiar Accident Occurring Near Cove.

### LITTLE ONE BADLY INJURED

Condition Critical And Even With Recovery There May Be Total Blindness.

A telephone message received here yesterday afternoon told of a peculiar accident which occurred about 3 o'clock near Asbury church, five miles from Cove City, which may cost the life of the victim.

Yesterday afternoon the four-year-old son of Mr. and Mrs. Hervey Ippock who live at that point, went out into the stock yard for the purpose of catching a kitten with which he had been playing. In the stock yard was a hog and several small pigs. Not finding the kitten the child fully picked one of the pigs. With a grunt of rage the hog rushed upon the little boy, knocked him down and then literally tore his face to pieces with her sharp tusks.

The child's mother heard his screams and rushed to his aid and after a heroic effort succeeded in driving the infuriated beast away from the prostrate and blood covered form. Mr. Ippock was not at home at the time of the accident and it was some time before a physician could be secured to dress the injured child's wounds.

There were a number of deep lacerations on the victim's face and neck and he had lost a quantity of blood. The attending physician stated that his condition was critical and that even if he recovered he might never be able to see as his eyes had been badly injured.

### HOWLAND QUITS OUTLOOK

#### He Has Purchased A Large Interest In The Independent.

New York, June 19.—William B. Howland has resigned as vice-president and publisher of The Outlook after 23 years' service. He has purchased a large interest in The Independent, with which he will be allied in the future in an executive capacity.

Mr. Howland's two sons, K. V. S. Howland and Harold J. Howland, resigned last week from the Outlook.

Considerable mystery surrounded the sudden exodus of the Howland clan from the Outlook, leaving Roosevelt and the Abbotts in editorial control. It was denied that Colonel Roosevelt had crowded the other Howlands out. The resignations, it was said, was due to a fundamental difference of opinion regarding the publishing policy of The Outlook Company.

Mr. Howland gave out a typewritten statement in which he said he has taken this step with the purpose of developing certain publishing plans which he has had in mind, principally The Independent.

Considerable speculation was rife today as to whether Colonel Roosevelt would ultimately follow the Howlands into the Independent camp. Mr. Howland is a strong progressive and carried a spear for the Colonel in the battle of "Armageddon" last fall.

### WILL LECTURE TONIGHT

This evening at 8 o'clock Rabbi Browne of Columbus, Ga., will deliver a lecture at the Jewish synagogue. Rabbi Browne will take as his subject "The Talmud and the Crucifixion." He is a speaker of repute and those who hear him will without any doubt be well pleased. A cordial invitation is extended the public.

### WILL BE WELL VENTILATED

Strictly Modern System To Be Installed in New Theatre.

The Star Theatre, which is to be opened here soon, will have a modern ventilating system and many other conveniences for the benefit of its patrons. A recent issue of the Washington News says:

"Captain David Hill has received the contract for installing the ventilating system in the new Star Theatre in New Bern, one of the best theatres of its kind in the State."

"Mr. Hill has invented an almost perfect and ideal ventilating system and has had it installed in several of the theatres in this section. The Lyric of this city has it in use and it has proven highly satisfactory. The system in the new Star will be on a larger and more elaborate plan than any of the other systems that have been installed."

"The air is pumped into the theatre by a motor, which operates large fans, located on the outside of the building. It is practically noiseless and furnishes a cool and refreshing breeze."—Washington News.

## WHISKEY IS SENT BACK TO SHIPPERS

FORTY-THREE BARRELS TAKEN AWAY FROM NEW BERN YESTERDAY.

United States Marshal Claudis Dockery of Raleigh arrived in New Bern yesterday morning from Morehead City where he had been on a short visit, and a short time later turned over to a representative of F. Westheimer Sons Company, liquor dealers of Cincinnati, O., forty three barrels of whiskey which was confiscated by the government a few months ago at this point and which was being held in the Federal building.

As soon as the whiskey was released from custody several wagons were secured and it was hauled to the Norfolk Southern freight warehouse and shipped back to the firm which sent it to this city. F. Westheimer Sons Company have given bond for the value of the whiskey and the case against them in which they are charged with shipping whiskey to North Carolina to be used for illegal purposes will be tried at the next term of Federal Court at Raleigh.

## INSECTS COST FABULOUS SUM

DESTROY \$300,000,000 YEARLY IN WHOLE COUNTRY IS CLAIM.

Albany, N. Y., June 19.—That insects destroyed \$100,000,000 of vegetables, fruits, flowers and trees in New York State last year and that the total loss from this cause is over \$300,000,000 a year in the whole country is asserted by the New York State Conservation Department.

The estimate is made by Cassius Johnston, Chief of the Eastern Division, who adds that thousands of song birds that are insect destroyers are wantonly killed, in violation of law, among them being robins, woodpeckers, wrens, bobolinks and swallows.

"The greatest trouble the game protector has," says Chief Mullin of the St. Lawrence Division, "is to catch the illegal fishermen. The fish pirates usually work at night. Some of them have dogs that follow along the shore and bark when they see or scent a game protector."

Division Chief Hamilton asserts that some of the special game protectors don't know a bass from a perch, a woodchuck from a snipe, a seine from a gill net. The chief urges that these "specials" be investigated.

W. B. Merriman of Greensboro, State agent of the Aetna Insurance Company, was in the city yesterday.

## CAN'T SELL DEAD MAN'S ORGANS

Unusual Controversy Arises In Baltimore Over Vital Parts Of E. O. Painter.

### HE WAS HEAVILY INSURED

His Grave Guarded Night And Day To Prevent Body From Being Stolen.

Baltimore, Md., June 19.—An injunction was issued by Judge Duffy in the Circuit Court here restraining Charles Glazer, a Baltimore chemist, from disposing of the internal organs of Edward O. Painter, a wealthy business man of Jacksonville, Fla. According to a coroner's verdict, Painter was drowned by falling from a ferry boat near Jacksonville last month.

Circumstances surrounding Painter's death induced the Jacksonville coroner to send the dead man's vital organs here for chemical analysis. Glazer and Dr. Standish McCleary made the analysis and submitted reports that no trace of poisoning could be found. Application for the injunction was made by the United States Fidelity and Guaranty Company of this city, which in April issued an accident policy containing a suicide clause in Painter's favor. The applicants say an autopsy was refused and claim they want an independent examination of the organs. They have been advised that Painter's family has made a demand for the organs.

The complaint alleges that Painter within three months prior to his death obtained insurance policies exceeding \$1,000,000. It also alleges that the aggregating premiums on the policies issued to Painter exceeded \$3,000,000 a year and that so far as has been ascertained his income did not exceed \$25,000.

Jacksonville, Fla., June 19.—According to information obtained here today the grave of E. O. Painter, late fertilizer manufacturer, in Evergreen cemetery here, is being guarded day and night by deputy sheriffs to prevent the body being stolen by ghouls. This action is declared to have followed information given the Painter family to the effect that six men had come to the city with the intention of tunneling into the grave and carrying away the body.

Five deputies are said to be guarding the grave at night and three in the day time. Mrs. Painter also is said to be spending much of her time during the day beside the grave.

George S. Attmore, teller at the National Bank, went to Oriental last night to serve as teller of the Bank of Oriental while Teller J. W. Miller is off on his vacation.

## FRENCH PAPER BADLY HOAXED

THOUGHT IT HAD INTERVIEW WITH MRS. TAFT, BUT IT DIDN'T

Paris, June 18.—The newspaper Liberté, which yesterday printed sensational interview with "Mrs. W. H. Taft," learned today that it was the victim of an elaborate hoax. A woman posing as the wife of the ex-president of the United States gave the newspaper an interview in which she said:

"If the suffragettes get the upper hand in America I will become a naturalized Frenchwoman. But I learn with sorrow that there are also suffragettes here. What a horrible epidemic this feminist movement is. I did not know that France had fallen so low as the other countries which tolerate suffragette movements. Mr. Wilson was elected President of the United States chiefly through the aid of the suffragettes. They simply worship him. What a charming yet hysterical condition such a thing is."

R. R. Eagle returned last evening from a short business visit at Dover.

## SOMETHING WRONG WITH THE SYSTEM

Inquiry Into New Haven Wreck Indicates Carelessness In Engineer's Assignments.

### TAKING EXPERT TESTIMONY

General Manager Declares He Will Exert Himself To Have Changes Made.

Bridgeport, June 19.—Officials of the New York, New Haven and Hartford railroad heard one of their expert witnesses testify at the joint session of the interstate commerce commission, and the public utilities commission, that Charles J. Doherty should never have been permitted to run engine 1338, which crashed into the train ahead of it in the Stamford yards, last Thursday and killed six passengers.

Then right on top of that these officials heard their own witness declare that in his opinion, no railroad management could justify itself for trusting an engine to a man of Doherty's experience.

If the hearings before Coroner Phelan and the tests and investigations under the supervision of the interstate commerce commission, and the public utilities commission, have developed anything, it is the impression that something is radically wrong with the system of assigning engineers that has been forced on the New Haven railroad. This is realized by the railroad officials, and General Manager Bardo declared after the hearing that he would exert himself to the utmost to have the present system changed.

Mr. Bardo took a hand in the questioning of a witness today. After Patrick J. Langan, brake inspector for the Lackawanna railroad, had submitted statistics of the test runs made yesterday, Mr. Bardo asked:

"What is your opinion of the kind of air brake used on the type of engine driven by Doherty?"

"It is the best locomotive air brake to be had."

Several railroad employees were examined as to train sheets, time clocks and speed of Doherty's train. Doherty was called upon again to relate the story that broke him down when he was testifying last Friday before Coroner Phelan. His story did not vary from that which he has already told.

Engineer John Harmon, who was suspended for running by a signal, on Monday, with engine 1338, testified that the brakes were all right. He said he ran by because the signals were twisted. He said he could stop an eight car train, going sixty miles an hour, within fifteen hundred feet without using the emergency brake.

## ATLANTIC HOTEL GETS NEW TYPE

MATERIAL FOR FAMOUS RESORTS PRINTING PLANT MADE IN NEW BERN.

Printers doing business in this section of the State have the advantage over members of the same craft at other points by being able to get their type manufactured almost at their very door, while others are compelled to send to the type foundries in the North for their supplies.

The E. J. Land Printing Company yesterday cast on their Monotype machine a large quantity of type which will be used in the printing plant at the Atlantic Hotel. Less than forty-eight hours elapsed between the time that the order left Morehead City before the finished type reached the managers of the hotel.

The Monotype is a complete type foundry within itself and any "face" up to a certain "point" or size can be turned out at a moment's notice.

C. P. Fulcher of Edwards was among the business visitors here yesterday.

### INCREASES CAPITAL STOCK

Stockholders Of Peoples Bank Take Progressive Steps

At a meeting of the stockholders of the Peoples Bank last Tuesday night they decided to increase the capital stock from \$50,000 to \$100,000 and this stock has been issued. The majority of it has been placed with the present stockholders of the bank but a portion of it will be distributed among new investors.

The Peoples Bank is not the youngest bank in the city, that distinction being claimed by the Citizens Savings Bank and Trust Company, but since its establishment five years ago it has made a creditable record and is now one of the strongest institutions of its kind in Eastern North Carolina.

At an early date the bank will be moved into the new building which is in course of construction on Middle street.

J. W. Stewart is making an improvement at his lot corner of Pollock and Craven streets by having a concrete driveway laid from his garage to the street.

## AT WORK NO N WHOOPING COUGH

POSSIBILITY OF THE DISCOVERY OF A CURE IS HELD OUT.

Paris, June 19.—The possibility of the discovery in the near future of a cure for whooping-cough was held out at the Academy of Sciences by Dr. Emile Roux, Director of the Pasteur Institute and a member of the Academy of Medicine.

Dr. Roux was merely transmitting the report of Dr. Alfred Conor, bacteriologist of the Belvedere Military Hospital, Tunis, where with the collaboration of Dr. Nicolle, he had prepared a solution containing living whooping-cough bacilli, which they injected into 122 children suffering from the disease, repeating it every two days.

Thirty-seven per cent. of the children recovered in less than three weeks. Dr. Roux, while declaring the experiments thus far were on too small a scale to make a definite pronouncement, said he believed an effective cure for whooping-cough was in sight.

## ROAD CONVENTION OPENS JULY 30

IT WILL BE HELD IN MOREHEAD CITY AND WILL BE GREAT MEETING.

The next convention of the North Carolina Good Roads Association will be held in Morehead City beginning July 30 at 8 p. m. and continuing through the 31st until August 1st. Every possible effort will be made to make this the biggest and best good roads convention ever held in the State.

H. B. Varner of Lexington president of the association, Governor Craig and several others are going to Morehead City for the annual good roads meeting will travel over the Central Highway leaving the Tennessee line July 25 at 7:30 p. m. Mr. Varner and his party will make short stops at a number of places on the way from the Tennessee line to Morehead City.

Morehead City is planning to give the good roads people a royal welcome.

### METHODIST PICNIC TODAY.

Today the Methodist Sunday school will picnic at Morehead City. A special train has been secured to carry the crowds to the seashore and this will leave the corner of Hancock and New streets at 8 o'clock. The members of the school are requested to meet at the church at 7:30 o'clock and go from there to the train. Those who have not secured tickets may get them at Hibbard's drug store.

## MANY THRILLERS ON PROGRAM

There Will Be No "Tame" Events At Fair Grounds On Fourth July.

### MANY VISITORS WILL ATTEND

Will Be An Event Which Will Appeal To Nearly Everyone.

(By J. Leon Williams)  
The American public craves something exciting, that is the reason that one hundred thousand people recently witnessed the automobile races at Indianapolis. That is the reason that forty thousand people witnessed the one championship game of baseball last fall. This is the age when the public wants to witness events that stir the blood, events where there is fierce rivalry. Realizing that the above is true, the management of the Eastern Carolina Fair has mapped out a program of real "thrillers" for July 4th.

There will be nothing tame about this program. You will have no opportunity to think about your worldly cares nor will you be able to talk about your crops, you will be too busy keeping your eyes on the exciting events that will take place before you. Will the people be here? You can just bet that they will for every newspaper in Eastern North Carolina has had long articles on their front pages about this great event for the last two weeks. Everybody is talking about it. There will be more people here on July 4th than have been here in one day since the big day of the last fair.

Just think what the public is getting for 59c—the small sum of 50c. It cost that much money to get into the "peanut gallery" in the average theatre, yet, for 50c you can see two horse races, two motorcycle races, a bicycle race and a firemen's tournament and you will be given a free seat in the grandstand with beautiful ladies to serve you refreshments. This is an event that appeals to everyone. At the Fair grounds on July 4th you will see "Tom, Dick and Harry," also "Claud and Reginald."

The railroads are offering special rates and everybody will take advantage of them.

FRIEDMANN PATIENT ASSAILS SECRECY.

Pittsburgh, June 19.—Attorney David S. McCann, Dr. Friedmann's first American patient, is expected from Europe this week. He believes he is cured, but criticizes Dr. Friedmann for keeping secret his tuberculosis discovery while humanity suffers.

McCann, in a letter from Sorrento, says: "I don't believe Dr. Friedmann has a tithe of the scientific and medical knowledge that hundreds of other physicians of today possess. And when this remedy is known to the profession at large, and they have experimented with it, then we will have a remedy that will not only cure but will cure quickly and in no uncertain way."

### PROGRAM AT THE ATHENS TODAY.

#### VAUDEVILLE

**Diamond and Diamond**  
King and Queen of Irish Comedy—in a good lively, singing and talking act, featuring Will Rossiter's great ballad success "In Old Ireland, where the River Kenmare Flows." This is a very good act and pleased a large audience last night.

**"The Man From The West"**  
An Edison drama.

**"Glimpses of the National Capital"**  
An excellent scenic and educational picture.

**"The Sponge Industry In Cuba"**  
An interesting study of all the phases of an unfamiliar although thriving industry.

**"The Sheriff's Baby"**  
One of those thrilling and hair raising Western pictures by the Biograph Co.

Matinee daily at 5 o'clock. Shows at night. First starts 8 o'clock; second about 9:15.
