#### BOUCICAULT'S PROFITS.

The Playwright's Fame Clung to Him Better Than His Riches. Dion Boucieault received £300 for his share in the authorship of "London Assurance." The way in which be spent that sum was an indication of spent that sum was an indication of things to come. He bought two horses, a cab and seven new costs. His ex-travagance reached a climax over "Babil and Bijou." produced at Covent Garden in August, 1872. The money was found by Lord Kondesborough, and Boucicsult (with him Planche)

and Bouciesuit (with him Planche) was under contract to produce some-thing that might be called dramatic. What was produced was a gorgeous and incoherent spectacle, with red lob-sters recumbent at the bottom of the sea. Bouciesuit, who had run up bills to the extent of fi0,000 or so, did not stay for the production, but betook himself abroad. All that persists of this magnificent flasco is the boys' cho-rus, "Spring, Spring, Besutiful Spring," which was setained almost by chance. But Bouckeault was better known by his Irish dramas that are fresh today, as "The Shaughrsum," "Arrah me Pogue," "The Colleen Bawn" and the like. By these he became rich and fa-mous, but his fame clung to him bet

No Landiubber. Young Jack Tabbs has only been in the navy for a few months, but there is not a more enthusiastic sea dog in the whole of his majesty's service. He recently made application for and received the usual leave and proceeded to London and his mother's house.

Mrs. Tabbs lives on the third floor of a house in Camberwell, and when he arrived at her address he stood in the doorway and bawled up the stairs: "Mother, aloft there! Jack's come

home! Open the window!" "Why, Jacky, my dear," cried the

with ineffable contempt. "What do I know about stnirs? Just you open the window and lower a rope to the main deck, and be quick about it!"-London Express.

#### "Females."

Our woman words have all experienced vicissitudes of fortune. "Female," like the rest, has had its day. Chaucer introduced it under the guise of "femelle" and Shakespeare used it a few times instead of "woman." But it was the early novelists who clothed it with respectability by making all their women "females." So exceedingly respectable had it become in the time of Dr. Johnson that Fanny Burney called the princess royal "the second female in the kingdom." Even so late as the publication of Tennyson's "Princess" Mrs. Browning was able to write with perfect propriety that the poem dealt with "a university attended by females." Then decadence set in till now no shred of respectability is left to it.-London Standard.
