All aboard for Thanksgiving.

Today is income tax day. Have you paid yours yet?

To read the New York papers makes one believe there is not an honest and truthful man in that city.

Only four more days in which to get ready to work the roads. Have you got your pick and shovel ready?

Editor Farrabee will have a big job to fill the shoes of Mr. Clark, but it looks like he is filling the bill well.

The big fair is now a thing of the past. We were glad to be host to the many visitors. We hope they were favorably impressed with the town and will visit us again.

In accepting Billy Hitt, instead of continuing to wait for that Italian with a handle to his name, Katherine Elkins has at last displayed some common sense.

We are just guessing of course, but it looks to us like there is going to be one swell fight for the congressional nomination in this district when primary time rolls around.

Our congratulations to Wilmington on having such an excellent health department. There has been a big decrease in the death rate of that city of late and at the same time an increase in the birth rate. If that keeps up of course Wilmington is bound to grow.

Adolphus Busch, the beer manufacturer, died recently leaving a fortune of fifty millions. He should have bequeathed the entire amount to the widows and orphans of the land, the ones who suffered most because of his accumulating it.

Clarence Poe, who is ever on the lookout for the farmers, says there is a cotton buying trust. The way the buyers work it is by refusing to bid against each other, allowing the one who first sees a load of cotton to take it. If this is true it should be broken up. Wonder if there is anything like this going on in New Bern? The farmers ought to be on the lookout.

A woman writes the New York World and asks what to do for a nagging husband. We hardly feel qualified to give advice about such matters but we suggest that she try breaking a skillet over his cranium or bouncing a smoothing iron off his bean and if all that is of no avail, pouring something like a half gallon of hot coffee down the spinal column will sometimes give relief. If this treatment is persevered in the nagger usually becomes very docile.

Pull together, brethren. We are all here for the same purpose. Then live and let live. The best way to build up a town is for each and every man to pull together and not to rend and pull down. All the residents of a town are partners, not opponents. In all likelihood, the more business done by your rival the more you will do.

SLATE FILLED.

"With the announcement from Washington that Senator Simmons has agreed on Ernest M. Green of New Bern as assistant district attorney, the slate for the larger offices in this State has been made up or filled. In the Eastern half J. W. Bailey is collector, Francis D. Winston will be named district attorney and W. T. Dortch marshal. All of these men have rendered good service to the party. Colonel Dortch has done more for his friends and the Democratic party without reward than any man in the state, and we are glad that his services and ability are to be recognized at last."
—Raleigh Times.

A young man may fool a girl as to what wages he gets, but he can't fool her father.

Graham Crackers baked by the National Biscuit Company have a flavor and zest all their own. You will relish them. They will nourish you.

NATIONAL BISCUIT COMPANY GRAHAM CRACKERS

Made from the finest materials and perfectly baked, they come to you fresh, crisp and clean—in the moisture-proof package. Eat them at meals and between. Give them to the children without stint. Always look for the In-cr-seal Trade Mark.

10c

MUTT AND JEFF.

"There is a warm contest in New Bern for the postmastership. Basnight, incumbent, is in stature short; Weatherby, aspirant, extremely tall. Which causes Capt. Joe Gaskill to remark that the government has had the boxes fixed for Jeff, and think of the expense of altering them for Mutt.—The Square Deal.

SCHOOL NEWS OF THE WEEK

Dr. R. H. Von Ezdorf Pays a Visit to the City's Public Schools.

ROOMS ARE BEING FLOORED
Other Newsy Items Picked Up on the Campus During the Week.

(Written for the Journal)
Much interest was added to the Physiology work this week on account of a visit by Dr. Von Ezdorf, government specialist on malaria. After a lecture in Chapel, the two classes were taken to a nearby pond to observe the stages of the malaria mosquito. Specimens of these stages were found, and studied under the direction of Dr. Von Ezdorf. The class was impressed by the information given, and realized more than ever what the government is doing to improve health conditions.

The Fair took only two boys from the ranks of the 8A grade this week. It seems that those who can least afford to drop out are always the ones to be affected by special occasions.

Our visitors this week were Drs. Von Ezdorf and Taylor, and Mr. T. A. Freen. On Monday and Tuesday mornings at Chapel Dr. Von Ezdorf gave most interesting talks on malaria its cause, how transmitted, and the means of prevention. A more interesting and helpful talk has never been made at school, and Dr. Von Ezdorf was listened to with the closest attention and interest.

On Monday at 12 o'clock Dr. Von Ezdorf took a class of High School pupils to the low grounds in the new part of the city, and showed the pupils the breeding grounds of the mosquito, and gave them valuable instruction of the different kinds of mosquito, etc. The rooms in the basement of the Griffin Building on the south side are being floored, ceiled, and plastered for sections of the worst crowded grades. These new rooms will be well lighted, and well heated, well cleaned, and attractive, be equipped with new desks and blackboards, and will for the time being help very much to lessen the crowded condition in the three of the largest grades.

It was first decided to fix the old Methodist church for these rooms but later the committee decided on the Griffin Building as the best solution of the matter.

The monthly report for October shows enrollment of 883, and an average daily attendance of 811. Last year in October the enrollment was 815, and the attendance 747. The report shows for this year a gain in enrollment of 68, and an average daily attendance 64 over the same month last year.

In the 6B grade twenty-five stood a test on Arithmetic, and the following received 100: Ester Berry Newberry Ruth Smith, James Long, Elgie Carraway, Joseph Hatem.

Only three girls and three boys have an absence recorded this week in 5A grade.

In a spelling match today, the last to remain standing were Anella Hahn and Ruth Edwards.

There was a spelling bee in 3A grade

of 215 words and the following were were left standing: Frank Carter, Margaret Warters, Vivian Peterson, Elma Watson, Annie May Lupton, May Bell Lee, Ethel Batts, James Stewart, William Ireland, Frederick Nelson, Claude Allen, John Goulding, Eloise Peterson, Eleanor Taylor, Sarah Spencer, Raymond Suskins, Herbert Ireland.

All lessons missed by the pupils on account of holiday are being made up by the teachers in the Instrumental Music Department.
The advanced Piano Department has reached its limit in regard to the number of pupils who can be accommodated, and very nearly so in the Prima Piano Department. Much interest is being shown in the harmony and Ear-training class, and one of the pupils has acquired almost absolute perfect pitch.

We Have an Elegant line of Pipes

in merchaum, French Briar and Calabash to make your selection from. Prices to suit you Also a nice Line of "High Grade Tobacco's Cigars etc. Park and Tiffords and Bells Fork-dipt chocolates. "STARVING TO DEATH"

Was Mrs. Bell, of Florida, When She Began Taking Peruna.

"Yes, I was starving to death," said Mrs. Emma Bell, of Fort Pierce, Florida, Box 294, "when I began to take Peruna. I could not eat anything. If I swallowed anything it soured on my stomach. My stomach was very much swollen. My bowels acted as if I had acute dysentery. I was in great distress and pain. Three doctors had been employed, but gave me no relief. I was continually growing worse.

I Was In Despair.
"In my despair I caught at every straw. Picking up a newspaper I saw some account of Peruna. There was a testimonial from a woman who had been troubled much like myself. I concluded to try Peruna.

I Wrote to Dr. Hartman.
"At the same time I wrote to Dr. Hartman. He pronounced my case catarrh of the stomach and bowels. I soon began taking Peruna. At once I began to improve. After taking half a bottle my stomach was so improved that I could eat some."

I Began to Recover.
Then this good housewife goes on to narrate in detail her rapid improvement and final recovery. She said, "After taking two bottles of Peruna I was strong enough to stand up to wash the dishes." When she began taking Peruna she weighed 107 pounds. After she had taken five bottles of Peruna she weighed 123 pounds. She concludes by saying that she is well.

It Was Twelve Years Ago.
The letter from which the above quotations were made was received January 25, 1901. In a later letter, written September 11, 1904, she says, "I sing the praises of Peruna far and near. It is used a great deal in our vicinity. This seems to be a bad place for catarrh." We have received letters from her since. The last one

CHILD KILLED BY AN AUTOMOBILE

NORFOLK MISS MET DEATH BETWEEN WHEELS YESTERDAY

Norfolk, Oct. 31.—While racing with several playmates to see who get across the street quickest, Mildred Garringer, 5-year-old daughter of Joshua Garringer, agent of the Peninsula Casualty Company, was run down and killed by an automobile at 2 o'clock yesterday afternoon in front of her parents' residence, 233 North street. Taken immediately to the Protestant hospital, the child died in the elevator on the way to the operating room. Her neck was broken.

The automobile belonged to Mrs. G. C. Gray, 3611 Granby street, and was driven by her chauffeur, Delmar Ogdouin, who was its only occupant when the accident occurred. In the neighborhood accounts by eye-witnesses varied as to the speed of the car, but all said the driver stopped the machine within a few feet of where it struck the child. One of the front wheels passed over the child's neck and when the car was stopped the little girl lay between the front and rear wheels.

She was taken from beneath the car by a passerby and, over the protest of neighbors who insisted the child should be carried to her mother, was rushed to the protestant hospital in the automobile which had run her down. After turning the little girl over to the doctors at the hospital Ogdouin sped back to the Garringer residence for the mother, who, accompanied by Mrs. Hunter McCauley, 226 North street, reached the hospital a few minutes later, and was informed that the child was dead. Mrs. Garringer was prostrated.

Mildred was one of three children, and the only daughter. Her brother are eight and seven years old, respectively.

Miss Marie Fentress, 225 North street, who saw the accident, said that the car was not running much faster than the usual speed at which automobiles pass on North street. "It couldn't have been going very fast," she said, "because the chauffeur stopped it within the length of the car." Others declared the machine was moving swiftly, at a speed variously estimated at between 20 and 25 miles an hour. A neighbor who lives across the street from the Garringer home, declared the machine was speeding. At the speed he was making, she said, the chauffeur could not possibly have avoided the accident as the little girl ran in front of the car when it was too late to stop.

Ogdouin was arrested and held by the police on the technical charge of reckless driving. He will be arraigned in police court this morning.

That cold day is coming soon We have our heaters on display. Come and pick them while the time is ripe. J. S. Basnight Hardware Company, 67 South Front street.
