The Greensboro News is getting a lot of praise these days on the excellent paper they are getting out. The News, in our estimation, is one of the best papers in the South and deserves all the nice things coming its way.

The Ford Motor Company underestimated the damage that they were going to cause when they decided to distribute ten million dollars among their employes Tuesday a crowd of ten thousand job hunters stormed the plant and it was necessary to resort to the asy of the fire hose to cool off the mob. It would have been a much better plan to have given each employe a certain som and allowed him to pursee their duties at the usual compensation.

Those are political birds down in the Third Congressional District. The matter of who shall be the next Democartic Congressional nominee has been agitating the public mind for some months, though it will be summer time before a decision has to be reached. Now the solicitorship, in the Fifth Judicial District, covering perhaps the larger part of the territory embraced in the Third Congressional District, has become a bone of political contention. It is a post of importance, affording a fine field for being of service to the public, and the ambition to win it is an honorable one.-News and Ob-
