## SOCIAL SERVICE DEPT. OF THE WOMAN'S CLUB

Was Originated Last Wednesday Afternoon

### SEVERAL OFFICERS CHOSEN

Object And Aims Of This Department Discussed At Meeting.

Pursuant to the resolution adopted at a regular meeting of the Woman's Club of New Bern recommending the organization of a Social Service Dept. of the Club, the following ladies met at the club rooms Wednesday afternoon, March 25th and regularly organized this department of the Club:

Mrs. Charles R. Thomas, Mrs. S. H. Scott, Mrs. J. P. C. Davis, Miss Mary Roberts, Mrs. C. L. Ives, Mrs. M. M. Marks, Mrs. Lenister Duffy, Mrs. Moulton, Mrs. H. M. Bonner and Miss Clyde Cox.

Mrs. S. H. Scott was elected chairman, and Mrs. Charles R. Thomas vice-chairman of this department.

The election of secretary and treasurer was postponed until the next regular meeting.

The chairman then read a very interesting paper as to the meaning of Social Service, and the relation between this work and women.

Informal discussion were had concerning the objects and aims of this department of the club, all leading up to the one idea that these must be in the true sense the uplift and welfare of humanity, the making of the world better by filling it with healthier and happier and more human people.

An instructive clipping from a Southern newspaper was read in regard to the work of women in various Southern states influencing the Legislature in the passage of laws affecting the morals of the States.

It was suggested by Mrs. Marks that it might be well to have committee of the Social Service Department, to be known as the School Visiting Committee, whose duties should be to cooperate with the superintendent and teachers of the public school, in an effort to create lively school interest, especially among patrons of the school, organizing mother's meetings, and to do anything possible for the physical and moral uplift of the child.

This suggestion was put into the form of motion, duly seconded, and carried; and the Chair appointed Mrs. M. M. Marks, chairman of the committee, with the privilege of appointing such other members as she might desire, and also appointed Mrs. C. L. Ives and Mrs. Charles Hollister vice-chairmen.

The chair then announced that the Committee originally appointed, consisting of Mrs. Charles R. Thomas, Chairman, Mrs. S. H. Scott, Miss Mary Roberts and Miss Clyde Cox, should continue in charge of the Social Center work of the department. It was duly moved and seconded that at the next regular meeting of the Woman's Club it should be announced that the Social Service Department had been formerly organized, and that members were desired.

## PROMINENT NORTH CAROLINA ELK VISITS NEW BERN

William S. Moye, District Deputy and Grand Exalted Ruler of the Benevolent and Protective Order of Elks, arrived in New Bern Tuesday afternoon from his home in Rocky Mount, for a visit to the local lodge. During the evening a social session was held at the club rooms.

## BASEBALL GAME AT GHEENT PARK THW AFTERNOON

This afternoon at 3:15, the Goldsboro High School will cross bats with the New Bern High School team out at Gheent Park.

The locals have been getting in readiness for this game for several weeks and those who attend may rest assured that they will witness a fast and snappy game.

## NEW AND LIGHT A BIG IMPROVEMENT

The new twenty-five hundred power candle and light in front of the City Hall makes a beautiful light and adds greatly to the appearance of the building.

## PINE KNOTS MAY MAKE ORIENTAL MAN WEALTHY

R. A. Dudley Owns Unique Plant at That Place

### ONLY ONE IN THE WORLD

Oil Secured From Wood Is Used For Many And Varied Purposes

A number of years ago R. A. Dudley who is now a resident of Oriental, Pamlico county, conceived the idea that there was a fortune in the pine light-wood knots which are more extensively used for fuel than any other purpose. It was not Mr. Dudley's idea to use these knots for heating purposes but to extract from them the many elements which he knew they contained.

Lack of time to devote to the work of putting his ideas into operation at that time but a few months ago an opportunity arrived which led him to erect a plant at Oriental in which his long cherished dream is now being realized.

During the past few months the name of the Oriental Pine Oil Company has become familiar to the residents of Eastern North Carolina. This is the name of Mr. Dudley's concern. The plant, which incidentally is the only one of its kind in the world, is located on a point of land which gives it excellent docking facilities and in fact is ideally situated.

A few days ago a Journal reporter, who had heard of this unusual plant, paid it a visit and what he saw there was indeed interesting. The chief objects of interest are two large airtight kettles, or they might be called furnaces. In these are placed the pine knots and fire is applied beneath them. A terrific temperature is obtained and this draws from the knots the oil which they contain. From these kettles the oil is carried to a part where it is allowed to settle and is then carried on to the cooling vats. If only a medium grade of oil is desired the contents of this vat are not disturbed but from still another one is secured the very finest grade of oil. From this latter vat the drainings are a very low grade of oil and are used in the manufacture of creosote and floor oils.

After the oil is taken from the vats Mr. Dudley has it taken to his well equipped laboratory which is in the same building and there is prepared creosote, paint, rheumatic oils, oil to be used in paint, and varnish. Each of the products of the plant have been given a thorough trial and already Mr. Dudley is running his plant at a full capacity in order to supply the hundreds of orders he receives each week.

Going back to the two large kettles mentioned at first it is found that the pine knots have been turned into charcoal. As might be supposed this is one of the very finest grades, not having been touched by the fire; and Mr. Dudley has standing orders for all that he can supply to a large drug manufacturing concern.

There is not the least danger of the plant ever running short of pine knots. The owner has taken the precaution to secure option on hundreds of acres thickly wooded land and has enough material at hand to supply the plant for many years and down in that section of the country, where one finds thousands of pine trees, there is little probability of the supply ever becoming exhausted.

In addition to managing and operating this plant, Mr. Dudley is also the owner of the Standard Fish Company, located at Oriental, and is one of the largest shippers of fresh fish and oysters in Eastern North Carolina.

## COUNTY DEMONSTRATOR IS IN THE CITY

J. W. Sears, county agriculture demonstrator for this county arrived in the city yesterday afternoon from Fayetteville, where he attended a meeting of the county demonstrators. There were forty five counties represented and the work of discussing all phases of rural life was taken up. Mr. Sears states that he expects to do a great deal of work in this county this year.

## THE WEATHER

For New Bern and vicinity—Cloudy Friday and Saturday with probable showers.

## President Huerta Presents Regiment with Colors

The picture shows President Huerta and General Blaquet, secretary of war, at the recent ceremonies in Mexico City, when Huerta presented the Twenty-ninth regiment with the colors. President Huerta is seen returning the salute of the regiment.

## POLICE BELIEVE THAT ALFRED LYNCH IS HERE

### ARE ON THE TRAIL OF SLAYER OF MANAGER HATCH

The police of this city are positive that Alfred Lynch, the negro who last week cut the throat of Manley Hatch, manager of the Goldsboro Lumber Company's commissary near Richlands, Onslow county, is hiding in this city with relatives or friends and they are exerting every effort to locate and apprehend the murderer.

It is known that Lynch has dispatched one or more telegrams to relatives residing at Kinston and it is believed that these have been answered. However, the officials have been unable to find any clue from the telegraph people, they having refused to discuss the matter or to give the police any information. It is also known that a special delivery letter was dispatched from the local postoffice by Lynch. Rewards aggregating four hundred dollars have been offered for the capture of the criminal and this is an incentive to the officers to put forth their very best efforts.

## OFFER GOLD MEDAL TO ESSAY WRITER

### PUPILS OF ALL THE SCHOOL IN STATE CAN COMPETE

The North Carolina Society of the Sons of the American Revolution is offering a gold medal for the best essay on the life of Waightstill Avery, a patriot of the Revolution. This announcement will be of especial interest to the students of the Colleges and high schools of North Carolina, to whom the contest is open. A competitive contest for each school will be held to eliminate all but one from that particular school.

"1. It will be limited to students of the colleges, high schools (public and private) in the State of North Carolina."  
"2. All essays must be original work of the contestants, giving credit by quotations where verbatim copying is resorted to, and referring to book and page from which the quotation is made."  
"3. Essays must not exceed 3,000 words."  
"4. In all essays facts must be stated as facts and traditions as traditions."  
"5. Three typewritten copies are required of each essay, one each to be sent to Judge S. C. Bragaw, ex-president North Carolina Sons of American Revolution, Washington, N. C.; Mrs. W. N. Reynolds, regent of the Daughters of the American Revolution of North Carolina, Winston-Salem, N. C.; and Dr. S. Westray Battle, Asheville, N. C."

"6. The essays must be filed with the above named persons before May 15, 1914."  
"7. If several students in a college or in one high school prepare essays, the best one to be selected from these by a local contest or in any other way the school authorities prefer. Only one essay, the best one from any one school can compete in this contest."

## THE FIRST STEAMER WILL ARRIVE TODAY

### THE L. B. SHAW LEFT WASHINGTON LAST EVENING ENROUTE TO THIS PORT

The L. B. Shaw, the first steamer to be operated between New Bern and Baltimore on the DeaKyne line, will arrive in New Bern today. The vessel left Norfolk on Monday and came down to Washington, N. C., where she discharged and took on cargo, leaving there last evening. Upon arrival here the boat will land at the Bladock dock, foot of Middle street where she will dock on each trip.

J. B. Blades, the owner of this dock, has been chosen as the local manager of the line by Mr. DeaKyne and will attend to all of the business in this city. The operation of this line means much to New Bern shippers. The rates for handling shipments of freight will be from five to fifteen cents lower on the hundred pounds than that charged by the railway companies.

## TO PROTECT WARSHIPS WITH LINT COTTON

### NORTH CAROLINIAN SAYS IT IS SUPERIOR TO IRON AND STEEL

Ashville, N. C., March 26.—Colonel Marcellus E. Thornton of Hickory, near here, has offered to Secretary of the Navy, Josephus Daniels, a plan for making armor-plate for battleships out of cotton, which the inventor claims will revolutionize the building of warships. Colonel Thornton's plan is to make the armor from cotton, compressed and shaped in a double compound compress, his own invention. He declares that the new armor, besides furnishing another market for Southern cotton, will save millions to the government, as a ship can be armored with a few thousand bales of cotton.

"I have been studying cotton for armor-plate purposes for 25 years," said Colonel Thornton today, "and I have invented a machine that will make the armor. I have offered it to Secretary Daniels and if he wishes to experiment, my knowledge and plans are entirely at his service. Cotton is more impervious to a projectile than the steel armor now in use, and will prove more dependable in actual tests."

Asked whether he would patent his machine, Colonel Thornton declared that it depended entirely on the market for cotton armor.

## LARGE STILL DESTROYED IN CARTERET COUNTY

### WAS LOCATED NEAR THE TOWN OF BEAUFORT—OPERATORS ESCAPE

Parts of a still which was estimated to have a capacity of about one hundred and fifty gallons, was located and destroyed near Beaufort Wednesday afternoon by U. S. Deputy Marshal I. M. Tull of Kinston and Sheriff Hancock of Beaufort. A few weeks ago a raid was made in that section but the operators of the plant had been "tipped off" of the approach of the revenue men and had removed the plant.

The operators of the plant found Wednesday afternoon had evidently received word that the raid was to be made for only a part of the still was found, the kettle having been removed. However, the owners of the plant did not have time to remove it all and the "worm" was left intact by them. This was made of the very best of material and was very costly. Only a few gallons of low wine were found and this was destroyed. The revenue officials have an idea who the operators of the plant are but no arrests were made.

## SPIRITUS FRUMENTI GOES ADRIFT AT RALEIGH

### NEARLY SEVEN HUNDRED BOTTLES OF LIQUOR FED TO THE FISH

Raleigh, Wednesday March 26.—Nearly 700 bottles of liquor, formerly owned by five negro druggists were broken into and emptied into the sewer at the corner of Martin and Fayetteville streets at 5:30 this afternoon by order of Sheriff Braes. Rev. S. J. Betts has the honor of selecting the hour and he chose 5:30 today.

The cases were disposed of finally in Wake Superior Court Tuesday afternoon, when the defendants came into court and paid the fines and accepted judgement. The liquor to be confiscated was gathered from the following places: Love Brothers, 308 bottles; J. E. Hamlin, 305; Malette Drug Company, 84; Mr. Betts said that if the raiders had made an earlier start it is probable that there would be more stuff to destroy this afternoon.

The consent of Judge Cooks was secured this morning to give some of the confiscated liquor to the various hospitals of the city, and Messrs. Betts made the following distribution: Soldiers Home, 25 bottles; St. Agnes Hospital, 12 bottles; Leonard hospital, 23 bottles; Rex Hospital at St. Augustines, 25 bottles; St. Lukes Home for Old Ladies, 24 bottles; Country Home 24 bottles.

Later 71 bottles of sherry wine were found to be among the whiskey, all put up in small bottles, and this was also sent to Rex Hospital.

The liquor held the right of way in the sheriff's office during the day

## ARRANGE FOR BIG MISSIONARY MEET IN NEW BERN

Interesting Program For Each Night

ALL MEETINGS ARE FREE

Object Of Meeting Is To Quickening Interest In This Missionary Work

During all next week the people of New Bern will again have their attention called to the great missionary enterprise with its present challenge to the church and to the individual. Beginning Sunday with sermons and Sunday School talks on some phase of missionary work and continuing through the week with a different program each night there will be something of special interest to everyone who may attend.

The object of the meetings is to quicken an interest in the most interesting question that can possibly engage your attention today. No one can read carefully current literature and especially the religious papers without being stirred by the unparalleled situations. It has ceased to be the work of the women and children only. It is beginning to occupy a most prominent place in the program of our churches. Laymen are coming to the help of pastors and the women are wanting not only by hundreds but by thousands; men of large capacity for business are giving up their thought and time, millionaires have heard the story and have modern missions been led to think more of treasures in heaven than of earthly store. There are many in New Bern who will gladly give their time, talents, money—then all to help forward the cause of missions when they are made to see the possibilities and privileges of it, that is an enterprise evidently worth while.

The addresses and discussions will not be confined to foreign missions or even to missionary work but important questions in connection with our own city will be considered. The meetings will be held in the different churches all the denominations cooperating most heartily and representatives of all the churches will take part.

The meetings will be under the direction of Rev. L. B. Padgett of Greensboro, N. C., secretary of the Laymen's Missionary Movement, in North Carolina, who will speak a number of times and conduct one or two conferences with the use of a series of new and very interesting charts and maps. The people of the city should attend every meeting. Leave the night free for this purpose. There will doubtless be a crowded house each night.

The Christian people are requested to make "Missionary Week" a subject for prayer in the home and wherever meetings are held this request should be remembered.

## MARRIAGE ANNOUNCEMENT

### Popular Young Couple Wed In Winston-Salem.

The Journal acknowledges receipt of the following:

Mr. Joseph Henry Wadsley and Miss Sadie Belle Williamson announce their marriage

on Tuesday, March the twenty-fourth One thousand nine hundred and fourteen, Winston-Salem, North Carolina.

At home after April second, New Bern, North Carolina.

The groom holds a position with the Bradham Broad street drug store and since coming to New Bern has made a host of friends who will learn with pleasure the happy event.

## ANTI-TUBERCULOSIS SOCIETY TO MEET TODAY

The Anti-Tuberculosis Society will meet in the Elks Club rooms this afternoon at 3:30. Many matters of importance are to be transacted at this meeting and every member is urged to attend.

awaiting the call for its final outpouring. It made a big showing and attracted a few admirers and others wise to visit it in its last hours. The fish of lower Crabtree Creek will have a chance at it and fears are expressed for their sobriety.
