## DROUGHT WILL BE BROKEN SUNDAY

### WEATHER FORECASTER EXPECT RAIN NEXT SUNDAY OR MONDAY.

(By George H. Manning.)  
WASHINGTON, May 29.—Professor Edward H. Bowie, official forecaster of the United States Weather Bureau, today held out no prospects of immediate relief from the drought conditions which are daily becoming more serious throughout North Carolina and Virginia. Hot and dry weather, he stated to the correspondent of The New Bern Journal today, will continue through North Carolina during the remainder of this week, with probability of local showers on Sunday or Monday.

There is very little prospect of rain in sufficient quantities to relieve the drought, which set in with the coming of May, and has continued unbroken since. The showers which are probable next Sunday or Monday will be small local showers of insufficient proportions to prevent probable damage to crops of all kinds.

After the showers towards the end of the week, Professor Bowie expressed his belief that the hot and dry weather will continue throughout the following week.

Reports have been reaching Washington from farmers in different parts of North Carolina during the past few days that damage to wheat, hay and all growing crops has already reached the stage where rain cannot wholly remedy and unless rain is had within a short time, early and late crops of all kinds will be practically lost.

Lack of moisture is now beginning to affect fruit seriously, these reports state. Early fruit is stunted in some localities, and late fruit is being blighted to the point of ruin. Insects, thriving under the influence of dry atmosphere, have already attacked trees, and fruit and many apples are falling, and in places entire fruit-bearing twigs are dying.

## Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly his health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by all dealers.
