Three Valuable Booklets

For the Homeowner who contemplates painting his home this spring

For the Artist

These booklets tell most of the important things which should be known before contracting for the painting of the home.

"A stitch in time saves nine!"—has saved millions. So it is with paint knowledge—before spending time and money in dollars for the professional and beautifying of the home, know about the proper condition of the surface to receive paint, know about the necessary qualities of a good paint—which will save money in first cost and in years of wear. Then choose your painter.

We sell "High Standard" Paint because it is the best paint we know about—and we have gone into the subject thoroughly—it has the highest reputation among the painters, contractors, engineers, architects and consumers who have had the opportunity to use it
