

THEY MUST DO FROM NOW ON
In regard to the City Abattoir, I think it would be a great help to the city. It would enable me to make more thorough inspection of the meat, for if such is erected I can be present when all butchering is done, and would be able to examine the animals both before and after butchering.

Letters From a Living Dead Man.
Elsa Barker, famed in the literary world, vouches for the authenticity of what purports, through automatic writing, to be an astounding revelation of the spirit world, tending to show that it is entirely different and more wonderful than previous concepts indicated. So extraordinary is this "revelation" that it will be made a conspicuous feature of the Illustrated Magazine of next Sunday's New York World. Order from your newsdealer in advance.—adv.

THE DEADLOCK IN MEDIATION PROCEEDINGS IS ON
Waiting For Instructions From Washington.
STEAMER LOADS ARMS
Port of Tampico is Open And The Can Be Landed There.

(Special to the Journal)
NIAGARA, June 2.—The mediation proceedings are deadlocked, pending further instructions from Washington and Mexico City on the question of accepting General Carranza as a representative.
The officials at Washington have declined to discuss the situation for publication and it is a matter of speculation as to what is being done.
More Trouble

NEW YORK, June 2.—The steamer Antilla today loaded three million rounds of cartridges and one aeroplane which is intended for the use of the Constitutionalists at Tampico. The collector of port here had no instructions to prevent the steamer from sailing.

Tampico Open.
(Special to the Journal)
WASHINGTON, June 2.—State, Navy and Commerce officials say that no instructions have been issued to prevent the sailing of the steamer Antilla. The Navy Department states that Tampico is an open port and it is understood that there will be no interference in the delivery of the ammunition to the Constitutionalists.
Huerta Ag'n.

VERA CRUZ, June 2.—The feeling against Huerta is growing more acute each hour and an outbreak is expected at any time. His army is said to be on the point of mutiny and relations between he and Blanquet are strained.

Still Hope
WASHINGTON, June 2.—The semi-official statements from General Carranza's headquarters at Durango criticizing the course of the South American mediators, attracted wide

spread attention in the statement as the constitutionalists "point out the fact that the conquerors are not usually wont to permit the conquered to dictate terms of peace." Administration chiefs declined to comment on declarations from Niagara Falls that the Durango statement would not alter the mediators' attitude toward the constitutionalists.
Hope was not lacking, however, that differences between the mediators and the constitutionalists could be dissipated.
Secretary Bryan was in frequent communication with the members of the American mission at Niagara Falls and reiterated that the conference was "progressing satisfactorily." Beyond this he would say nothing.
Many observers today took the position that even if mediation were confined to differences between Huerta and the United States and the northern faction continued its campaign to Mexico City there still would be need of outside help to restore normal conditions in the republic.

"PLANTED" DYNAMITE UNDER HOUSTON'S HOUSE
WATCHMAN IN AGRICULTURAL DEPT TOOK UNIQUE METHOD TO WIN PROMOTION
(Special to the Journal)
WASHINGTON, June 2.—Daniel Jauch, a watchman employed in the Department of Agriculture, this afternoon reported that he had found five sticks of dynamite underneath the office of Secretary Houston.
Jauch first claimed that the fuse of the dynamite was burning at the time of the discovery and that within a few minutes the explosive would have

been ignited.
Later he confessed to "planting" the dynamite, claiming that he had no intention of making an explosion but that he did it in order to win promotion by apparently displaying greater alertness than his fellow watchmen.

TO EXTEND RAILROAD DOWN TO SWANSBORO
TWO SAMPSON COUNTY TOWNSHIPS VOTE \$65,000 BONDS FOR THIS PURPOSE
(Special to the Journal)
CLINTON, June 2.—A number of leading citizens of upper Sampson came before the county commissioners in session here to-day, and procured an order for an election on a \$65,000 bond issue in Newton Grove and Westbrook townships, in Sampson county, to assist in the extension of the Central Carolina railroad from Lillington to Swansboro, by way of Dunn, Newton Grove and Mount Olive.

It is said the bond issue is sure to carry as a large majority of the qualified voters signed the petition asking for a vote.
The northern part of Sampson offers the best field for a railroad in the State. It is a wonderfully fine section, in both soil and timber.
W. J. Edwards, of Sanford, who has associated northern capitalists with him, is said to be engineering the project. The people between Clinton and Dunn are determined to have a railroad and it now looks like they are going to get one.

NURSE WANTS
A Home Necessity
The nurse looks upon a fountain syringe as a necessity in every home, especially when her presence is demanded there. It is just as much a necessity for every day health purpose. The fact is, it is just as important to bathe the inside of the body as to bathe the outside of the body and the Fountain Syringe is the only convenient appliance for doing this. We carry a variety of sizes, colors and capacities, qualities ranging from 75c to \$2.00, and every one is amply worth the price asked.
