New City Ordinance Placed In Effect.

Charles Taylor Thinks Gold Drinks And Cigars Are A "Necessity."

Early Sunday morning the "lid" was placed on the sale of cold drinks, cigars, cigarettes and all articles but food and drugs in this city but it did not stay on for any great length of

As was stated in the Journal Sunday morning every one of the local drug stores was closed as tight as a clam shell and in fact the majority of the proprietors and their clerks spent the day at the seashore.

With the exception of one cafe, that conducted by Charles Taylor at the Union Passenger Station, none of the articles supposed to be prohibited sell food and drink at any time, refused to abide by the recent ordinance and kept his place of business open all during the day and did a rushing business in the sale of cold drinks and cigars.

Naturally, there was only one thing for the officer on that beat to do and that was to order the proprietor of the funch room to appear before the Mayor yesterday and this he did. Mr. Taylor was on hand at the hour set for the hearing of the case and was arraigned for trial.

However, Mayor Bangert stated that he had not decided just what might be classed as "necessities" and that he would not try the case until after the next meeting of the Board of Aldermen which is to be held on June 7, at which time that body is to be asked to name the "necessities."

There is considerable speculation as to what action the Board will take. Many are of the opinion that they will come to the conclusion that cold drinks and smoking material are necessary during this hot weather and will allow these to be sold. Other the opposite view and interest in the ultimate outcome is very great.
