- Judge of the Superior Court of the Sixteenth Judicial District
James L. Webb, Cleveland county.

Maine's reputation for good, hard Yankee common sense is safe.

Only a few log-rolling politicians are kicking against the war taxes.

The Progressive rank and file has evidently reached the conclusion that the progressive thing to do is to line up with a real progressive—Woodrow Wilson.

And now come Gallinger, of New Hampshire, and Smoot, of Utah, survivors of that notable political era when certificates of deposit nestled under Senatorial dinner plates, fanning the air with charges of "graft" in the river and harbor bill. Why, the word was invented when they were running the Government!

With Gallinger and Smoot officially on the job as watchdogs of the Treasury, the total annual budget of the Government rose from \$765,000,000 in 1906, to \$1,028,000,000 in 1910. Last year, under Democratic rule, the expenditures were \$1,090,000,000. The present total for the current fiscal year, exclusive of the river and harbor bill, is \$1,089,000,000. Increase under four year of Republican administration—\$250,000,000! Increase since the Democrats have controlled one or both branches of Congress—\$70,000,000.

If the Gallinger-Smoot combination had remained in the saddle, it is reasonable to suppose that they would have maintained the same percentage of yearly increase. So the Democratic administration has already saved the country about \$300,000,000.

A FACTORY ON THE FARM

A silo is a factory on the farm and therefore lends itself to co-operation of the commercial and agricultural interests. The farmer gets the profit of both producer and consumer.

We need more of these twin agencies of prosperity on the farms of North Carolina and business men cannot render a better service to their communities than in encouraging the building of silos. The silo is a great business educator. It arouses the spirit of enterprise, develops business ingenuity and awakens the joy of ownership.

A farmer can build a silo for two or three hundred dollars, and it will, under ordinary conditions, pay a dividend of 100 per cent when it is used to capacity.

Says the Wilmington Star—New Bern is going right ahead preparing for her fair. If there is one place in North Carolina which knows how to make a fair successful as an exhibition of resources and as a source of entertainment it is the city on the Neuse.

These kind words from the Star are greatly appreciated, and the people of New Bern will endeavor to live up to these statements. We regret that Wilmington's annual corn show has been cancelled, but we extend to every citizen of New Hanover a hearty invitation to come over, and help us make the Eastern Carolina Fair a big success.

THE UNDERTAKER A DEVELOPER

There are in many communities successful business men and farmers who stand like stumps in the highway of progress, and in such a situation the undertaker is an important factor in development. Scarcely a day passes that they do not add a new terror to death by refusing to join with public spirited citizens in a movement for the upbuilding of their community or by their indifference snag an industrial enterprise.

It takes live men to build a community and there is no sadder sight in life than a few noble spirited citizens staggering under a load of dead timber. The undertaker is oftimes a developer.

A goat getter—A man who asks you a question and then after you have given him an answer he sweetly comments, "Oh, you don't exactly know, do you?"

Every citizen of Craven county is urged to boost the coming Eastern Carolina Fair. This event means a lot to the eastern section of the State and everyone should want to see it become a complete success.

Mrs. A. D. Rooks passed through New Bern yesterday enroute home to Havelock from a visit to her daughter in Kinston.

—Carter in New York Evening Sun.
