

EN ROUTE AND AT PHILMONT—Chapel Hill Boy Scouts Tammy Lefler, Allen Smith, and Mike Culbreth and Troop 39 leader Dan Rader participated in the Oconeechee Council's recent excursion to Philmont Scout Ranch in New Mexico. Shown in photos by Mike Culbreth (top) are Lefler and Rader in front of the bus on which they made the 6,000-mile round-trip journey and (bottom) Lefler with his back to the camera, helping other scouts build a dam on a mountain stream at the Ranch.

81 Miles On Trail . . .

Scouts Return From Bus Trip, Hiking In New Mexico Ranch

Three Chapel Hill Scouts returned last weekend from a 6,000-mile trip to the Philmont Scout Ranch in Mexico—thrilled with their trip, but admittedly tired from 81 miles of hiking during 10 days on the trail in the mountain reservation.

Those from Chapel Hill among the 30 from the Oconeechee Council who went on the bus trip to the Ranch were Mike Culbreth,

ing 10 days on the trail, which was over a mile high at the lowest point. The boys started out the first day on horseback but hiked the rest of the time, carrying packs averaging 15 to 20 pounds.

"They had us bring a lot of stuff out there we didn't really need and which we left in lockers before going on the trail," said Tammy Lefler. "I think it was mostly a psychological idea so our parents wouldn't worry."

Favorite activity during the jaunt was swapping—there being 2,000 scouts from all over the nation at the Ranch. The most unusual meal: their feast of meat loaf baked with buffalo meat from "Geronimo," an old buffalo on the reservation that was shot during their camping trip.

Asked what was the most interesting part of their trip the boys drew a blank: "It was all just too wonderful," each agreed.

League Of Women Voters Gives Survey Results For District

Sometimes the speeches and discussions about foreign trade seem very far away; but a group of hardworking women from the North Carolina League of Women Voters say that foreign trade is as near as your pocket book, as influential as an area-drought.

Members of the League in the Sixth Congressional District of the state recently completed a trade survey in this area, and some of the results they came up with may prove surprising to Tar Heel businessmen and citizens.

For instance, the survey revealed that the furniture industry, which is very important to North Carolina economy, does not think that foreign furniture imports are

injurious to the domestic market. Tobacco people state that the federal government should assist in promoting and developing more export markets for tobacco.

The textile industry in the South, as might be expected, feels threatened by stiff competition from imports from abroad.

These are some of the opinions drawn from the survey which the League completed this year on the effects of import and export in the Sixth Congressional district. The chairman of the local trade survey was Mrs. W. W. Cort. Results of the survey have just been announced by the State League President, Mrs. Adelaide Walters of Chapel Hill.

Not all textile manufacturers consider foreign competition their main concern. Many textile firms exhort. For them especially, the expansion of foreign trade is important. One firm indicated that

the real problem for the textile industry is not in foreign competition but from domestic competition.

League interviewers felt that the

survey indicated a stake in the problems of international trade, and that Carolina citizens should be influenced by local buying and selling. The trade policies had away.

KNOW HIM ?

Juvenile delinquency was just a term until they sent the boy down the street to what they politely termed a "training school." Then it became real, because this boy wasn't just a statistic but a kid who had played with your kids. Why, only last Sunday you had gone fishing with his father.

So now . . . you wondered why. The boy came from a good home—or did he? There was money enough, luxury enough, but it's true that his parents sometimes left him pretty much to his own devices. There were his mother's clubs and his father's business, and they led an active social life.

You asked yourself why . . . and in your heart you knew the answer. It lay in those gaps that had been left in his upbringing—great chinks, that should have been filled with faith, spiritual guidance, and solid enduring values. Thinking about it, you made up your mind to start taking your own kids to church on Sundays without fail—no matter how good the weather was for fishing.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
