Cancer Movie To Be Shown For Women

A free showing of a film on breast cancer will be given in the Carolina Theater this Tuesday morning by the Grange County Unit of the American Cancer Society under sponsorship of the Chapel Hill - Carrboro Merchants Association.

Two consecutive showings will be held, the first to start at 9:15 and the second at 10:15 a.m., to enable more people to attend. Dr. Fred Patterson will be present at the two programs to comment and answer any questions.

The purpose of showing the film, "Breast Self - examination," is to enable the women of the community, whether working girls or mothers and housewives, to learn of a very important health habit, which is the only tool available now for the early detection, and possible lead to cure, of breast cancer. The film was designed and produced for this purpose by the American Cancer Society, and is being used in educational programs for women's groups and girl's high school classes.

Merchants are urged to bring this program to the attention of their employees, and to make arrangements to let them attend one of the two programs. No admission will be charged for the programs since the Carolina Theater has been made available without cost.
