Quick and Easy Cheese Biscuits
Grate 1/2 pound of sharp cheese and mild American cheese. With a fork, mix cheese into three packages of prepared pie-crust. Add 1/2 spoon red pepper and one teaspoon paprika. Gradually add one six-ounce can frozen lemonade. Mix well. Roll thin on wax paper and with a 1/2 inch biscuit cutter, cut into rounds. Press with a fork, sprinkle with paprika, bake at 400 degrees until edges begin to brown or 12 to 15 minutes. This makes 200 biscuits. They can be stored in freezers for many weeks.

Hints: During a large tea there is so much to do that nothing should be left till the last minute that can possibly be done ahead and only those foods that are easy to serve should be used. Anything requiring last-minute cooking, heating or spreading should be avoided.
