Theatre Revival Being Planned

A movement "to bring theatre back to the country" is being initiated by a group of national theatre leaders, including Samuel Selden, Chairman of the University Dramatic Art Department.

Mr. Selden reports that a "40 Theatre Circuit Plan" is being worked out under the guidance of the American National Theatre and Academy, on whose board of directors Selden serves. Dramatic centers in four regions of the United States are proposed on the tentative outline of the plan, he said. Plays would be produced simultaneously in these four areas and then tour 10 cities in each of the areas.

"The regional play-groups will do their own producing and we hope that they will take the initiative in play-production under advisors from New York," Selden said.
