

New Intercom System Given UNC Hospital

Christmas carols and tall tales of that merry old elf from the North Pole will be heard throughout the children's section of the North Carolina Memorial Hospital during this holiday season.

This has been made possible by the installation of new intercommunication system this week in the University Hospital.

The new unit, costing about \$1,500, was donated by the Sigma Sigma Sorority, a national social sorority and a member of the National Panhellenic Council. The money for the system came from the Robbie Page Memorial Fund, a sorority project.

The control panel for the system is located in the children's

playroom and will be operated by Miss Katherine McLaren of the Pediatrics Dept. Miss McLaren is the Coordinator of Rehabilitation Activities for the children who are patients at Memorial Hospital.

From this central location the intercommunication system will have speakers in each of the rooms on the children's floor. This will enable Miss McLaren to entertain all of the children in this section of the hospital at the same time. She will tell them stories, play phonograph records for them and tune in children's programs on the radio, which is part of the system.

Robbie Page was the son of Mr. and Mrs. Robertson Page of Douglaston, New York. In 1951 the child entered school at Newton Center, Mass. On the same day he entered school he suffered a polio attack. He never returned to school and died two weeks later.

At that time, Mrs. Page was national president of the Sigma Sigma Sorority and the Robbie Page Memorial Fund was established in memory of her son.

Aside from paying for the intercommunication system, the sorority has indicated that it will give future support to the Pediatrics Service of Memorial Hospital.

Mrs. H. W. Morrison, chairman of the social services of the sorority and the Robbie Page Memorial Fund, visited Memorial Hospital this summer and made arrangements for the installation of the new system.

Two On UNC Faculty Honored By Scientists

Two University professors were among the scientists elected to the fellowship in the New York Academy of Sciences.

They were Dr. Edward C. Curnen Jr. and Prof. J. In Gulick.

Dr. Curnen is a professor and Chairman of the Department of Pediatrics in the School of Medicine. Before coming to UNC, he was connected with the Harvard and Yale Medical schools.

Prof. Gulick is an assistant professor of anthropology, and is also director of the Cross-Cultural Laboratory and a research associate in the Institute for Research in Social Science.

TOBACCO MEETING

A county-wide tobacco meeting will be held at Aycock School in Cedar Grove Township Thursday night, January 3 rd, at 7:30 p.m. At this meeting representatives of the State College Extension Service, Oxford Experiment Station, and North Carolina Tobacco Stabilization Cooperative, will present their views on the tobacco situation.

The 20 per cent cut in the allotments for 1957 and the uncertainty about the best variety of tobacco to plant, makes this meeting one of the most important to be held in a long time. All tobacco farmers are invited to attend.

GROWERS TO EXPERIMENT

The Coker Pedigreed Seed Company of Hartsville, South Carolina is putting on the market for the first time a new variety of tobacco called Coker 187. They claim that this variety produces a leaf which cures out to a rich orange color, with a moderately high nicotine content. This variety is a cross between Golden Wilt and Oxford 1-181. They do not recommend that growers plant all of their crop in this variety since it yields only a little more than Hicks and about 20 per cent less than Coker 139.

The following growers from Cedar Grove Township are planning to try out a small acreage in 1957: J. T. Daniels, Maynard Parker, Jack Monk, and Vance Roberts.

WINS FIRST PRIZE

P. W. Scott, technician for the Orange County Artificial Breeding Association, has just received congratulations from the American Breeders Service on winning first prize in the technicians contest for this area. He has increased the number of cows bred this year over last by 66 per cent. The prize for this accomplishment is a gold Gruen wrist watch.

SIMPLE DAIRY FEED

Variety in the cow's diet may not be as important as we have thought. Cows tested during the short winter feeding period gave as much milk on a 2-part concentrate ration as with one having several ingredients. So, dairymen may want to use more home grown

FEEDS.

A simple feed mixture of corn and cottonseed meal will likely produce as much milk from the average dairy herd during the short winter feeding period as will a complex concentrate ration with four times as many ingredients.

It did in feeding trials at North Carolina State College.

A corn-cottonseed meal ration was tested against a mixture of corn, oats, wheat bran and five protein supplements. Both feeds had salt, calcium and phosphorus added. All were fed a poor quality timothy hay.

The tests ran for 10 weeks, which corresponds to the normal short winter feeding period in North Carolina when poor roughage might be fed.

There were no differences in milk production or body condition between the cows on the simple ration and those on the complex feed. Also, the addition of trace mineral salt failed to step up milk flow with either ration.

GUERNSEY RECORD

A registered Guernsey cow, Guernsdel Maxim Juanita, owned by Henry C. Carr, Chapel Hill, North Carolina, has completed an official production record in the Advanced Registry division of the American Guernsey Cattle Club.

This record was for 12,911 pounds of milk and 718 pounds of fat.

"Juanita" was a junior four-year-old, and was milked three times daily for 365 days while on test.

This official production record was supervised by North Carolina State College.

DEDUCTABLE ITEMS

Farmers can deduct costs of leveling, grading, and terracing land; construction of earthen dams and ponds; eradication of brush; and the building of diversion channels from their income before paying tax, provided the deduction in any taxable year for these expenditures does not exceed 25 per cent of the gross income derived from farming during the year.

Farmers who have engaged in any of these activities should get additional information about this deduction before filing their 1956 income tax. We have, at the County Agents office several copies of the 1956 Farmers Tax Guide which we will be glad to distribute as long as the supply lasts.

Conventions

(Continued from Page 1)

They are Profs. Milton S. Heath, Paul N. Guthrie, Lowell D. Ashby, Ralph W. Pfouts, J. C. D. Blaine, Robert L. Bunting, Rashi Fein and Clarence E. Philbrook.

Another member of the Business Administration faculty, Arthur M. Whitehill, Jr. will attend the annual meeting of the American Business Writing Association in Oklahoma City on Dec. 28-29.

Philadelphia Meet

The entire faculty of the Classics Department will attend the annual meeting of the American Philological Association in Philadelphia. They are Profs. B. L. Ullman, P. H. Epps, J. P. Harland, Walter Allen Jr. Albert Suskin, Charles Henderson Jr. and Dorrance White.

Also going to Philadelphia are six graduate instructors and assistants in the Classics Department: Charles Gross, Ben Reece, Ronald White, Mary Martin, Elizabeth Hunter and Charles Milhauser.

Law Meet

Eight members of the law school staff will go to the annual meeting of Association of American Law Schools in Chicago Dec. 28-30. They include Dean Henry Brandis Jr., Profs. M. T. Van Hecke, Frank W. Hanft, John P. Dabzell, Robert H. Wettach, Fred B. McCall, M. S. Breckenridge and Miss Mary Oliver, law librarian. Van Hecke is Association President and will preside at the Chicago gathering.

Other faculty members scheduled to attend meetings during the holidays are: Prof. John F. Dashiell of the Psychology Department who will attend the annual convention of the American Association for the Advancement of Science in New York; Prof. Glen Haydon, chairman of the Music Department, who will attend several meetings in Urbana, Illinois; and Profs. Alfred T. Brauer and W. Robert Mann, Mathematics Department who will attend the annual winter meeting of the American Mathematical Society in Rochester, N. Y.

Also to attend meetings from UNC are Prof. Harry Davis, Prof. Tom Patterson, and Prof. Samuel Selden, who will attend the annual meeting of the American Educational Theatre Association in Chicago.

E. R. Rankin, head of the Department of School Relations of the UNC Extension Division, will attend the meeting in Chicago of the committee on discussion and debate materials and interest's cooperation of the National University Extension Association.

Club Women Decorate Hospital In Motifs For Christmas-Time

Through the combined efforts of local garden clubs, civic organizations, staff personnel and patients, Memorial Hospital is dressed up for Christmas.

The festive dress begins with the Christmas tree in the main lobby, rears into each waiting room, and on Christmas day will enter the patients' room as favors on the meal trays.

The tree and other decorations for the main entrance and hall were arranged by these ladies from the W. C. Coker Garden Club: Mrs. W. C. Coker, Mrs. Collier Cobb, Jr. and Mrs. St. Pierre Dubose.

A committee from the Chapel Hill Garden Club, Mrs. L. J. Phipps, Mrs. P. H. Quinlan, Mrs. H. R. Totten and Mrs. J. M. Tilley, decorated the two main waiting rooms.

Mrs. William Sprunt and Mrs. Tom Barnett of the Woman's Auxiliary of the hospital decorated the back lobby.

From the Community Club, a committee made up of Mrs. C. C. Shotts, Mrs. H. C. Robb, Mrs. F. J. LeClair, Mrs. J. S. Haminger, Mrs. J. A. Warren, Mrs. H. S. McGinty, Mrs. W. F. Pendergraft and Mrs. Kelly decorated the waiting rooms on the fourth, fifth, sixth and seventh floors. The decorations for the third floor waiting room were arranged by Mrs. Susie Weaver and Mrs. Ruby Jones of the Negro Gray Ladies.

The entrance to the clinic was decorated by representatives from the Oakview Garden Club, Mrs. John Golden, Mrs. M. M. Timmons, Mrs. H. E. Thompson, Mrs. H. D. Crookford, Mrs. F. W. Ellis, Mrs. Sandy McClamroch, Mrs. William Moffitt and Mrs. William Harrison.

The seventh floor of the hospital is particularly interesting as the children have helped make their own decorations. Part of this

WON MEDAL THREE TIMES

Jerry Vayda, Carolina captain in 1955-56, is the only player ever to win the Foy Roberson, Jr., Memorial Medal more than one time since it was instituted in 1943. He won it three years in a row. The medal is awarded to the player making the greatest contribution to team morale and sportsmanship.
