IN TWO MAJOR WAYS

Sec. Benson Says Govt. Attacking **Production-Consumption** Problems

From a longer-range perspec-tive, the United States is attack-ing the Production-exceeding con-sumption problem in two major ways. Secretary of Agriculture Ezra Taft Benson told an audience in Canada recently. in Canada recently.

m Canada recently. "One is an effort to bring pro-duction more nearly into line with demand through market-ing quotas and acreage reduc-tion", the Secretary said. "The other is through the adjustment of price-support levels, which will tend to bring production and consumption into better balance in an atmosphere free from production and marketing controls."

The secretary predicted marketing quotas for he loss of products.

Regarding foreign marketing programs, Secretary Benson ex-plained that the U. S. Agricultural Export Policy is based on three principles: 1. We must compete fairly on the world market; 2. We must be commetting in guilding must be competitive in quality; and 3. We must participate in a mutually profitable international

Basic Home Decorating Colors Should Compliment Personality

"Be bold!" the Small Homes Guide suggests, "in choosing home interior color schemes. And be consistent." The Guide lists four points of procedure to follow in decorating the inside of your home: 1) Start with a color scheme plan — and stick to it. 2) Make a simple for plan, establish basic traffic pat-terns and arrange your furniture —on paper. 3) Select window treatments, 4) Select your acces-sories. For your basic colors the Small

For your basic colors, the Small Homes Guide emphasizes that you should pick a pattern you like and which compliments you and your personality. Whether you choose period. con-

whether you choose period, con-temporary, or a combination of both for a decorating scheme, the Guide suggests wood wall paneling as a soft background. Among the most popular woods being used today for interior finish
