-In a fire in LuChow, China twelve hundred people perished in the flames, and several hundred were killed by accident and otherwise. The people were so thick that they were in one anothers way, and several were jamed to death.

clubs played a match yesterday in Raleigh. When Raleigh had played by a fine play succeeded in making a score. So the score was 4 to 3 in side opinion. favor of Nortolk.

-Greensboro and neighborhood had one of the heaviest rain falls last night that it has had in sometime. The C. F. & Y. V. railroad track be tween the College and R. & D., was covered with water and the early freight for Mt, Airy did not go out. We expect to hear of a number of washouts.

-Persons who were sufficiently awake to hear the rain that fell last night, will not be surprised to hear that much damage was done to crops of corn on bottoms and hill sides, to mills, to railroads and to bridges. Persons began early this morning to exclaim, "Did you ever !"

A SOUND LEGAL OPINION.

E. Bainbridge Munday, Esq., County Attorney, Clay County, Texas, says:— "Have used Electric Bitters with most happy results. My brother also was very low with Malarial fever and Jaundice, nt was cured by timely use of this med-ine. Am satisfied Electric Bitters wed my life."

Mr. D. I. Wilcomon, of Horse Cav Ky., adds a like testimony, saying: I positively believes be would have die had it not been for Electric Ditters

for all Kidney, Liver and orders stands unequaled, and 31 at C. E. Holton's.

-Father Curley, Director of the Georgetown College observatory, died last evening at 6:20. He was the oldest priest in America and perhaps in the world. He was in his ger, Miss Emma Wilson, M J Gleeso 93d year. He has been connected Miss Bessie Good ow, Henry Jarrett, with the Georgetown College for sixty-two years.

-E. T. Brown a banker of Wichite, Kans., has returned home dehe was murdered. He is scarcely able able to talk, and from what he says, it is thought that he has been held by a gang of scoundrels who were in hope of getting a large sum for his release.

The New Steward.

The Ex-Com. of the N. C. Insane Asylum elected a Steward vesterday to succeed Mr. Thompson, who resigned on the acquittal of Dr. Grissom. There were twenty four applicants for the place. On the nomina tion of Chief Mogul Grissom, they elected W. R. Crawtord, Jr., of Raleigh. Mr. Crawford may be a good man for the place, and for anything we know is, but there are a great many good men in the State that would not accept the position on account of the Superintendency. Mr Crawford will serve until Dec., when a permanent Steward will be chosen. Dr. Grissom has appointed Mr. Louis Blount Engineer to succeed Mr. West.

The Grissom Affair.

Raleigh was greatly stirred when the Grissom investigation was under way, and now that the investigation is closed the excitement continues, and Tuesday night in that city an inenation meeting was held, partici-ted in by shout 400 persons, eaches were made and resolutions

vere passed, and a telegram from many citizens at LaGrange read giving three cheers for the indiguation meeting. As strong an opinion as we care to express is that Dr. Grissom ought to resign his position, and we thought that he would do so at the first opportunity. His tenscity in holding over against the protests of so many citizens and in despite of the very resyectable minority that voted against his acquit--Raleigh and Nortolk base ball tal will not inure to his benefit. He may think other wise. Nothing less than an unanimous acquittal, with her ninth inning the score stood 3 the advantages he had in the investito 3, but Norfolk came to the bat and gation, should have been considered satisfactory reason for ignoring out-

We too Have Thieves'

We see from the papers that there are thieves and burglars in Charlotte, Winston and other cities and towns of the State, and now we rise to say that we have some of these gentry in Greensboro. Perhaps there have been fewer such cases here than anywhere else, and because of this fact the cases we have are more noticeable. We learned yesterday that some thief had gone to the Cemetery grounds at Green Hill and stolen a thermometer from the cottage, and that there had been several cases of the the't of choice flowers placed about the mounds for adornment. In many cases rare flowers had been emptied on the ground that the thieves might carry off the platters and jars con taining them. We can make no comment, and no suggestion is needed.

Foolish Preaching.

St. Paul says the world is to be saved by the foolishness of preach-ing. But not by foolish preaching. What wonder if stand up essays, steeped in poppy juice, should send the congregation to the land of Nod? Who is to blame if barrennesss fol-lows the sowing of nothing? The reason why many a preacher has not better "luck" 'n fishing for men, affirms a successful pastor, is that he will insist on whiming a stream he will insist on whipping a stream already fished out, or in trying to catch salt fish in fresh waters, or in flying for salmon where only mud fish abound, and not infrequently in angling on dry grounds! -Clergyman.

No Po a ble Escape.

"If I were in your place, Angie," terday, "I'd never speak to Mr.
Threadbare sgain. I know he comes of an excellent family, but he's an awful flirt and is dissipated besides."

Angie (sweetly) — I thank you so much, Cisra; but I don't see how I can escape talking to him now The fact is we were quietly married the night you tried to get him to propose to you.—Philadelphia
