Association.

Ever since the days when the colonists associated themselves together and entered into a compact in the Declaration of Independence, the habit of forming associations for mutual protection has strengthened and increased. It has been found that bodies of men combined together have great strength and are in a condition more favorable to success. Still this fact does not prepare us to expect such occurrences as the one that happened at Goldsboro some days ago when, as the papers state, fifteen boys concluded to leave home in a body without giving any notice to their parents. They went off South with an unprincipled white man who persuaded them that they could do a rushing business when they should get free from parental restraint. It will not be surprising if the parents of these youthful exodus ters shall raise the dust out of their jackets when they get back from their wanderings.

Monument to the Signers.

The Charlotte Chronicle of the 25th instant gives an account of the revived effort to erect a monument to the Signers of the Mecklenburg Declaration of Independence, May 20th, 1775. The President of the Association is Mayor McDowell, and the Executive Committee is composed as follows: Geo W Graham, A F Brevard, H C Jones, Jos Graham, R J Brevard, J H Weddington, J L Chambers, E B Springs, and J P Caldwell. There is the sum of about \$3,000 in sight as a nucleus of a fund for the object in view.

A Week of Interest.

The present week will be one of much interest to our people. To-night there will be a sermon by Rev. Dr. Lambeth in West Market Street Church. To-morrow Dr. Crowell will address the Alumnae Association of the College, and this will be followed by other interesting exercises.

Lynched.

John E. Starling, who was tried last February in Johnston county, for the murder of his mother-in-law and her little grandson, was taken out Saturday night by the citizens and strapped to a tree near Selma and shot.

He is supposed to have killed his mother-in-law and her grand-son, a son of another daughter than his wife that he might get possession of the entire property of Mrs. Brown, his mother-in-law.

The evidence of murder was not direct and Starling was acquitted, although people generally believed him guilty. The News and Observer says, "For some time past he has been making himself odious in the community, terrorizing and bulldozing everybody till the people determined to be rid of him."

About 2 o'clock Sunday morning a band of masked and disguised men went to the house, 4 miles from Selma, and took him from his bed, carried him into the yard where they tied him to a tree with a rope, and all emptied the contents of their guns and pistols into his body. One bullet passed through his head. He was found with a rope around his neck, but was not hanged. He was tied tightly to the tree. All the lynchers were disguised in various kinds of costumes.

Starling was about 40 or 45 years of age, and was said to be a man of very bad character.

The Sad Homecoming.

It is a sad thought that the Rev Dr Mann, whose remains are expected to arrive here to-night under an escort on the way to their final resting place at Winston, was expected to return from St Louis about this time, and to greet his many friends face to face as he should proceed to his home at New Berne. What a change on the face of all the circumstances as to him and his! The manly form has been laid low, and comes back to us a lump of clay ready to return to its mother dust. How often along our streets for four years was his tall and commanding figure seen. It seems so natural to see him here that the change is hard to realize. But he is gone and we shall hold friendly converse with him no more.

A North Carolinian Persecuted.

The New York papers report that Rev M V McDuffie, a Baptist minister, who went from Henderson, N C to New Brunswick, N. J., has lately had his house stoned by certain roughs, in consequence, no doubt, of his plain manner of dealing with sin of various sorts. Considerable damage was done to the windows, but the police drove the attacking party away.

Riot on a Steamship.

As the ocean racer City of Rome, which arrived yesterday, left Quarantine for her dock a stabbing affray occurred in the steerage between some cattlemen and the firemen. One of the latter may die from his injuries, and his assailant was locked up in the Charles street station house. According to the statements of the passengers almost a reign of terror prevailed in the steerage during the entire trip. Revolvers were flourished and free fights indulged in, which resulted in several men being injured. These disturbances finally culminated in the assault of the fireman, for whose recovery little hopes is entertained.—N. Y. Star.

The Benbow Dairy.

About one mile east of the city is the location of the above establishment, which will pay any one interested in such matters to make a visit to it.

Dr. Benbow has thirty-six cows of the Holstein and Jersey breeds, which supply nearly all the milk and butter used at his hotel. Last week he made seventy-nine pounds of butter. The yield of milk is fifty-five or sixty gallons per day.

The Doctor has an admirable arrangement for keeping his cattle clean. They stand on a slatted floor, slatted with iron, which allows the filth to pass through. A cup is in each stall constantly fed by a pipe from the water tank so that the cattle can have water at any time, day or night.

The Doctor uses the Davis' Swing churn, which makes granulated butter. The churn he uses has a capacity of thirty-gallons. In speaking of making butter, the Doctor told the reporter of a process now being introduced, by which butter could be extracted from milk, and made ready for the table within half an hour after the milking. There could be no doubt about that butter being fresh. Around the dairy are fine lots of clover, grass, and alfalfa, from which the cows are fed. In addition to grasses, the cows are fed on cotton seed, bran, and corn-meal.

Coroner's Inquest Ended.

The inquest over the body of Lemuel Bryan, who was shot on the banks of the Neuse on the night of the 17th instant, has ended, and from the News and Observer we slip the following: STATE OF N. CAROLINA, Wake County, Before J. B. Knight, Coroner:

Whereas the jury has this day returned a verdict that Lemuel Bryan came to his death by a gunshot wound at the hands of Ike Williams.

(Signed) J. B. H. KNIGHT, Coroner.

STATE OF NORTH CAROLINA,)
Wake County,)
To any constable or lawful officer of Wake County—GREETING:

You are hereby commanded forthwith to arrest Ike Williams and him safely keep so that you have him before me INSTANTLY, to answer to the above complaint and be dealt with as the law directs.

(SEAL.) Given under my hand and seal this 26th day of May, 1890.

(Signed) J. B. H. KNIGHT, Coroner.

Sheriff J. Rowan Rogers at once executed the warrant by reading the same to Williams who was in court.

As the offence is not bailable, he was taken at once to jail, where he is now in custody.

The General Conference at St. Louis.

St. Louis, May 26.—The General Conference of the M. E. Church convened this a. m. The first business done was the election of a book editor whose "O. K." must be attached to every bit of copy that goes into type at the publishing house at Nashville. Rev. W. H. Harrison who is Secretary of the General Conference and who has also been the book editor for many years was re-elected by a vote of 154 out of total of 180.
