Price \$3.00 Per Year.

SUCCESSFUL.

The Colored Agricultural College Assured

Greensboro's Business Men to the Rescue—Satisfactory Arrangements Completed.

There was a meeting of several of our leading business men in the office of the N. C. Steel and Iron Co., on yesterday evening for the purpose of raising the necessary amount of money to retain the location of the Colored Agricultural and Mechanical College in this city and to raise a sufficient amount to proceed to work at an early date. We are glad to inform our readers that the necessary financial arrangements were made and that the work will commence soon. We have men here who always come to the scratch when the proper time arrives.

Beckwith—Gates.

News & Observer.

Edenton street M. E. Church was the scene of a very pretty wedding yesterday evening at 5 o'clock, when B. C. Beckwith, a popular young lawyer of this city, was united in the holy bonds of wedlock to Mrs. Iola Gates, one of Raleigh's charming ladies.

There were no attendants:

The bride entered the church on the arm of her uncle, W. H. High, and was met at the altar by the groom, who was accompanied thither by W. P. Bynum, of Greensboro.

The ushers, Messrs W. J. Peele, Thos. Partin, Charles Shaw and Prof. W. A. Withers, were ranged on each side of the bridal couple.

Rev. J. B. Hurley, of the Central church, performed the marriage cere-

mony in a very impressive and solemn manner.

The bride was attired in a handsome dress of dark blue material, while the groom was in conventional black.

At the conclusion of the ceremony the bridal party repaired to the home of the groom's mother, on Wilmington street where a handsome repast was spread later in the evening to which a number of their friends were invited.

Management of the R. & D.

SAVANNAH, GA., Feb. 3.—A committee of the Central railroad directors leave to night for New York to discuss the adjustment of the claim for \$800,000 presented by the Terminal people just prior to the recent election.

It is claimed here that a combination of banks, including President Olcott, William C. Whitney and Drexel, Morgan & Co., have come into possession of the Terminal securities and will support the Olcott committee in its coming proposition for reorganization. Samuel Spencer, formerly of the Baltimore & Ohio system, but now in charge of the financial interests of Drexel, Morgan & Co., is booked for the presidency of the Richmond & Danville system.

A Good Hunt.

St. Louis, Feb. 3.—A special fr. m. Anniston, Ala., to the Post-Dispatch, says: Deputy Collector Briggs and Deputy United States Marshall Colquitt returned last evening from C'burne county, where they raided half a dozen illicit stills Monday. They captured three men and destroyed several thousand gallons of whiskey and beer and stills. They had a lively fight, in which several shots were exchanged before the distillers surrendered. Their names are Lewis Darby, Tom Jones and Tom Ewing.

A REMARKABLE OPERATION.

By Dr. Whitehead of the Medical School of the University.

Dr. R. H. Whitehead, Instructor in Anatomy and Materia Medica in the University Medical School, at Chapel Hill, has just saved the life of a little negro girl nine years old, by producing artificial digestion in the gullet.

The girl, who lives in Durham, swallowed a large piece of beef with a cartilage attached, and it stuck in the gullet. A local physician pushed it down the gullet with an instrument, thinking to get it into the stomach, but it remained in the gullet several inches above the stomach. The child was unable to eat or drink for six days and begun to suffer great pain. Her life was despaired of, and she had the appearance of a starving person snatching at water only to throw it out again. Her mother took her over to Chapel Hill where the other members of the family lived, expecting her to die at any moment. Dr. Whitehead heard of the case, found that the obstruction could not be pushed down into the stomach without tearing the gullet, and made an artificial gastric juice by taking pepsin syrup and hydrochloric acid in proper proportions, these being the constituents of the natural gastric juice of the stomach. This artificial preparation was placed upon the beef and the process of digestion was begun in the gullet. In a few hours the piece of cartilage was vomited up. A few more hours and the beef was so far digested that it passed easily into the stomach.

The child is doing well, and she owes her life to the happy genius of Dr. Whitehead.

A Sickening Tale

The report of a horrible affair comes from Rutherford county. A distillery is in operation a short distance from Rutherfordton, and the rats became such a nuisance around the place that the storekeeper mixed some eggs and rat poison in a tumbler and sat it aside for the pests to partake of. While the storekeeper was busy at his work, the proprietor of the distillery entered the office and thinking the tumbler contained egg-nog, put the glass to his mouth and swallowed the poison. In a few minutes he was thrown into violent convulsions. A physician arrived but was unable to do anything, and the man soon died. At a hearing before a magistrate Tuesday night in Rutherfordon an attempt was made to lay the crime on the physician, but it did not succeed.—Char. Chronicle.

An Interesting Lecture

State Geologist, Jos. A. Holmes, delivered a very interesting and instructive lecture Tuesday night before the faculty and students of the University at Chapel Hill. His subject was "The Influence of the Physical Features of North Carolina upon her People," and it was a resume of the settlement of the various sections, a scientific description of the physical features of each section, and a philosophical analysis of the character of the people and their industries.

This was one of a series of lectures delivered each month in the Chapel by eminent scholars. The University lectures and sermons are very popular and instructive.

One of Fishblate's windows is filled with 25 cent cravats. Those in need of a cravat can now be supplied without ceremony or much expense.

A Sad Affair in Montgomery.

The Carthage Blade reports a horrible catastrophe, near Cagle's Mills, Montgomery county. Mr. Miles Jordan awoke and found his dwelling enveloped in flames, and his wife on fire and unconscious. In attempting to rescue her from the burning house he was terribly burned, and was unable to save his wife. She was burned to death, and he is lying at death's door from the effects of his burns.

Burned While Sleeping.

Alliance Gleaner.

Mary Dick, an old colored woman living here, was so badly burned last Thursday that she died the next day. She was sitting close to the fire nursing a colored child. She fell asleep and her clothing caught on fire. The child was only slightly burned. The cabin in which she lived was so caught fire.

A New Line of Scarfs.

"Spring time is coming gentle Annie," and Cartland has a line of new and elegant scarfs to make the heart of your lover glad. See them.

A woman has brought suit against a railroad in Missouri to recover \$50,000 damages for the loss of her husband who was killed on the cars by a maniac.
