A BIG TRAIN LOAD OF GOLD

A UNION PACIFIC SPECIAL HAULS TWENTY MILLION DOLLARS

New York, Aug. 10.—A train on the Union Pacific road has been on its way for the last few days from San Francisco to New York loaded with \$20,000,000 in gold from the San Francisco mint.

It arrived here yesterday afternoon, coming by way of Omaha and Chicago.

The train was a Union Pacific special, which has come from the mint at San Francisco as fast as it could turn on wheels. It was run "wild" over the road, and everything else had to get out of the way to facilitate the progress of the cargo of gold on metal. The gold was in coin, and twenty million dollars worth of it was piled on the floors of the cars. A squad of forty men of the regular army was on duty as guards. They were armed with Springfield rifles, and two Gatling guns were also among the weapons of defense on board.

The train consisted of one private car, one mill car and three express cars. The bags of coin were piled up in these three latter cars. It was in charge of General Superintendent James B. White, of the railway mail service, and his assistants were Lewis Troy, superintendent of the western division of the railway mail service, and Superintendent Kupper, of Cleveland, in charge of the eastern railway mail service.

It bears one of the largest shipments of specie ever made on one train in this country, the value of the gold bars aggregating \$20,000,000. The shipment was made by Secretary Foster in view of the fact that the San Francisco subtreasury had a plethora of gold in store, the excess over all probable requirements reaching \$60,000,000, while the recent demands for gold for shipment to Europe made upon the New York subtreasury have reduced the supply on hand below the demands of prudent management. The treasury officials were averse to telling of the shipment or telling any details of the movements of the train, being animated by a desire to avoid furnishing any information that might stimulate desperadoes to make an attempt at train robbery.

GOV. NORTHERN RENOMINATED.

NO OPPOSITION TO HIM AT THE GEORGIA DEMOCRATIC CONVENTION.

Nesbitt, and for Attorney General, J. M. Terrell. An elector ate ticket pledged to Cleveland and Stevenson was also placed in the field.

THE YEARLY MEETING

The Friends are having an interesting session of their Yearly Meeting at High Point this week, and yesterday was an important day, notwithstanding the great heat prevailing.

The morning session yesterday had relation chiefly to business affairs, and was presided over by Prof. F. S. Blair.

In this meeting were delegates from the various quarterly meetings of the State. There is also a branch of the Yearly Meeting known as the meeting of ministers and elders, which met in the afternoon, with Hugh W. Dixon, of Snow Camp, as Clerk. Messrs. Geo. Grubb, of Cork, Ireland, Jenkins, of Kansas City, Daniel Hill, editor of the Messenger of Peace, Richmond, Indiana, Wales, of Minneapolis, Samuel Miles, of Faresburg, Vermont, Reynolds, of New York, and Baldwin, of Indiana, were visiting ministers to the meeting, which is a very interesting feature and full of edification to one and all.

One peculiarity among the Friends in their Yearly Meeting is the emphasis which they put upon the devotional exercises and the relation of Christian experience. The presence of several ministers who emigrated from North Carolina in early youth was an incident of marked interest, and of which a minute was made.

The night session, which was presided over by Rev. J. R. Jones, of Greensboro, with Mary Peel as Secretary, was one chiefly of inquiring, and related to the present system of evangelistic work. Priscilla Hackney opened the discussion, followed by James Potts, David Farlow, Abram Fisher and Frances Jenkins, the last named a visitor from Kansas City. A number of the questions raised were important and led to interesting discussion and the development of much information for future service. The meeting will continue throughout the week.

Kolb Claims His Election.

WASHINGTON, Aug. 10.—A special to the Evening Star from Montgomery, Ala., says:

"Ex-Commissioner Kolb, the Alliance candidate for Governor, is out in a published letter this morning disputing the claims of Jones' election. The letter concludes: 'I have been fairly and honestly elected by over 40,000 majority and the people of my native State recognize the fact and will see that justice is accorded me by placing me at the head of our State government for the next two years.' R. F. KOLB."

The letter creates a sensation and is regarded as an evidence of Kolb's intention to challenge the official count, which is nearly finished, and fixes Jones' majority at between 9,000 and 12,000.

Branch Renominated.

Edenton, N. C., August 10.—W. A. B. Branch was nominated for Congress from the first district by acclamation and L. L. Smith for elector by acclamation. Convention harmonious and enthusiastic.

Colored Firemen's Tournament

In the Colored Firemen's Tournament at Raleigh yesterday, Greensboro bore off quite a number of the prizes: The Grab Race was won by the Greensboro Company. The 100 yard foot race was won by Joseph McConnell, of Greensboro. The Potato race was won by Wm. Claiborne, of Greensboro. Only one other prize was won, and that was taken by Victor, of Raleigh, in a race of 150 yards. So it will be seen that Greensboro is immense on a run. She is hard to catch.

Alderman McMasters, of Pittsburg, has received an anonymous letter in which there is a threat against his life. The bad thing about it is that although the fellow who writes the threat may not be able to carry it out, the woods around Pittsburg are full of fellows who wouldn't hesitate to shoot an alderman any more than they would hesitate to shoot a wild pigeon.

Editor Charlotte of the Elkin Courier will remove his paper from Elkin to Littleton, N. C. He goes from one good place to another good place, and can probably tell in the course of a few months which is for him the better place of the two. Elkin is a manufacturing town, but Littleton, while it is not so, is the seat of a popular literary institution and the centre of an excellent population.

NEWS NOTES.

It is said that the heat is so great in Washington that the knobs have been melted on the weather bureau drawers, so that no rain predictions can be fixed up.

Durham Globe. A little boy who lives in Durham and whose parents are clever people, but not accustomed to giving much attention to religious ceremonies, is now visiting his grandparents in a mountain city. When they sat down to dinner after the boy's arrival, the old grandsire asked a blessing. The boy, in astonishment, said: Grandpa, what did you read off your plate? many children might ask the same question. A young lady of this town gives us this information.

Mr. Sol. C. Well, who was nominated for elector in the Democratic Convention at Lumberton yesterday is a nephew of Mr. E. R. Fishplate, of this city, and is said to be a talented young man.

STRAWS

Such straws as the Force bill and the Tariff are too insignificant for the notice of the Third party. They are on a big trade that carries them the other way—what way is earned by reference to the platform of the Republican party. Under the guise of wanting to buy the railroads they have other matters of exchange.

Vanstony & Co. would say to the public that they have in a brand new stock of umbrellas which they are selling at next to nothing. You can't beat 'em.
