Hon. H. A. Gudger

TELLS WHO HE WANTS
TO BEAT
THE BIG BASS DRUM

TUNE
HARK! FROM THE TOMB
I HEAR A MOURNFUL SOUND

Mr. Gudger spoke in the court house last night.

He said:

We ought to vote the Democratic ticket, because it is the ticket of the only National party in the United States.

I say so because the Republican Presidents have never recognized the people of the South.

I do not recall but two cabinet officers appointed by republican Presidents.

The Republican party has not shown itself national.

It has not shown itself friendly to the South.

They ignore their own party brethren.

They have no use for them except in the elections.

Under Mr. Cleveland the South was fully represented.

Byard of Delaware.

Lamar of Miss.

Garland of

were the representatives of the South

If Mr. Cleveland had done nothing else, we ought to feel proud of him, and extend to him the friendly hand of courtesy again

I wish to notice some objections that have been made to Mr Cleveland.

It has been said that he is the candidate of Wall Street.

Why, my friend, do you know that Cleveland did not get a single vote from New York at the great Chicago Convention

The great city of New York did not give him a single vote.

The great State of New York did not give him a single vote.

Mr. Cleveland was nominated not withstanding the politician.

He was nominated because he was the choice of the people.

When he was elected President he found a depleted Treasury.

He paid off the indebtedness and left \$100,000,000 when he went out of office.

Mr. Harrison has had the same sources of revenue and yet it has happened during his administration that the courts could not be held, because there was no money to pay expenses.

The Republicans have kept one promise at any rate.

They promised to reduce the surplus.

They have done it.

Mr. Cleveland's administration was an economic one.

It was predicted that if he were elected the country would go to ruin.

He was elected.

The country flourished as it had never done before.

It has been said that Mr. Cleveland was too honest.

I do not want our great leader to degenerate.

I want the times to improve.

I will not discuss the silver question to night I will say this.

Silver has been disgraced but twice in the history of the world

Once a Republican Congress de-

monetized it.

Once Judas betrayed his Lord and Master for thirty pieces of silver.

These are the only times.

The Republicans declare not simply for a tariff for protection; but for a high protection tariff.

The Democrats declare for a low tariff; one for revenue only.

They say that the McKinley Bill increases wages.

The New York World prints a list of 500 manufacturers who have reduced wages since the McKinley Bill went into operation

The World has challenged the Republican papers to show one instance in which wages have been raised because of the McKinley Bill.

They have not shown a single instance.

I ask any working man here if his wages have been increased by the operation of the McKinley Bill.

Who then is benefitted this tax.

Not the laborer clearly.

Who then?

The manufacturer.

They claim that the tax is to protect the manufacturer; and yet that they claim that goods are sold cheaper than they could be without the tax.

A strange anomaly.

They say that goods are cheaper than they were 50 years ago.

Of course they are.

The perfection of Machinery and the increased still in labor accounts for that.

The greatest objection we have to the Republicans is that they tax the necessities of life, the the and the poorest classes most heavily; and that the luxuries of life are subject to lower rates.

The Force Bill is not a dead issue.

Mr. Harrison was in the senate and lobbied for it.

The farmers at Ocala did not think it was a dead issue.

The Third Party wants the Government to buy the Railroad. Suppose they could do it. There are now 120,000 Government employees.

There are 800,000 Railroad employees.

This would give the President the power of appointing 920,000 men.

Nearly a million.

Suppose each one of these million men contributes five dollars to the campaign fund.

The president in power would have a million men and five million dollars to begin with.

He could never be turned out.

There would be monopoly

That is the one thing that the Democratic party stands opposed to.

There are only two ways of getting the railroads

1. By buying them.

2. Confiscating them.

No good citizen, no christian will entertain this second plan.

What would it lead to?

As for buying them:

The Railroads are listed for taxation at \$12,000,000,000.

During the last fifty years there has been mined in this country only four billion dollars worth of gold and silver

It would take all the gold and silver that could be mined in one hundred and fifty years to pay for the roads.

North Carolina demands that her sons shall serve her.

I appeal to you as sons of this great Commonwealth to do your duty.

I ask for nothing of your hand myself

All that I want is a great telescope placed on Mitchell's Park with the

focus on Washington, so that our people can see that solemn procession as they march out, two-by-two, to the tune of that old hymn,

Hark! from the tomb,
I hear a doleful sound.

Up in our country we are constructing a big bass drum. We want Jim Boyd, Charlie Price and Revenue White for drummers.

Tune: "Turn the rascals out."

And then we will all join in that other hymn—"Praise God from whom all blessings flow."

VISITORS.

J. A. Long is in town on legal business.

Mr. Jas. H. Wray, Deputy revenue collector for this District, is in attendance on Federal Court here this week. Mr. Wray is one of the stalwarts in Republican ranks.

Messrs. Southgate and Miller of the Prohibition wing, were here today.

Judge Farches, Republican candidate for Governor, left here this morning.

Judge Schenck is striking hard blows against the triple Alliance in the west, from which he returned last night in good trim.

If the Workman is not greatly mistaken there is a decided falling off in the members which constitute the "Triple Alliance" against the Democrats.

In places where the combination was strong some time ago it is now constantly on the wane. This, we learn, is strikingly true in Catawba county, where the Third Party is weakening and persons from that side are coming in to swell the ranks of "Cleveland and Steve."
