

instance—do not get THE INTELLIGENCER very often for a week or two after publication. At the suggestion of a friend in the State last named, we have commenced the publication of the Calendar one month in advance of the time being, for the convenience of all who are so situated.

A kind and earnest friend in Charleston, S. Carolina, writes—"I have discovered, that the Almanac for 1851 answers for all the Church seasons for 1862, so that if you have Sword's, or the Church Almanac for 1851, you have the Church's year for 1862 before you." As it is not unlikely that many, at least of the Clergy, have one or the other, this will prove an agreeable piece of information.

The Almanac published by Mr. Mitchell, has the great convenience of an alphabetical list of the Clergy. We suspect the copies of this have by this time run pretty short, and would suggest to Mr. M., the expediency of a new and improved edition. If he will issue one he may depend upon us for any assistance in our power to afford, by way of gratuitous advertising, and otherwise. We had an application for it yesterday, and presume many would be glad to get it were it nearer at hand.

THE SUNDAY SCHOOL IN THE SOUTH.—We have received, with great pleasure, the December number of this valuable little monthly for Children, Sunday School Teachers, etc., and hereby give it the assurance of our hearty sympathy in its work, and desires for its success. It is very well gotten up for the times—the type exceedingly clear and the matter indicative of good judgment and taste. It ought to be, and we hope, will be very soon in every family in the Church in the Confederate States. The subscription price is only fifty cents a year, so that there can be very few within whose reach it will not come even in these hard times. By all means, send for it for the little ones. They love to have something coming to them personally and periodically in this way. Its tendency must be good. To say nothing of the sound, healthful moral and religious impressions it may, under God, be the instrumental means of making, it will be sure to produce something of that love of reading and literary pursuits which, next to the grace of God, is one of the best preservatives from idleness and vice.

We are assured that the enterprise has not been abandoned, nor is likely to be, but that subscribers will very soon receive the numbers for December, January, February and March.

As the temporal power of the Pope is the grand political question which for months past has been and still is agitating Italy, we lay before our readers the latest information on the subject which our limited means afford

CIRCULAR OF BARON RICCIOLI ON HIS POLICY.—The Correspondance Iulienne, of Turin, publishes a circular of Baron Riccioli, addressed to the Prefects, in which he observes:—"The Government still pursues the execution of the national wishes, and has formally stated by what means and ways it intends to proceed to Rome. The Ministry alone will decide upon these means and the opportunity of employing them. The dignity and the interest of the nation alike will not permit of its allowing itself to be preceded or hurried away. It is especially important in the Roman question to obtain a great moral triumph, in which the conscience of the sincere Catholics of the civilized world and of Italy are interested above all others. The Government has reason to be satisfied with the success it has obtained. The free Church and the States together will inaugurate a new order of things, of which the Italians may become the originators. In carrying out the programme of effecting a reconciliation between Italy and the Papacy, the Government desires that its labors may not be impeded by inconsiderate acts of enthusiasm and clamorous manifestations. The Prefects should enlighten public opinion, and make use of their authority in order to prevent these popular manifestations taking place."

There have been popular demonstrations for "Rome as the capital of Italy," at Genoa, Florence, and Parma. Preparations having been made for a similar manifestation in Milan, the municipality have published a proclamation, stating that demonstrations in the public streets were useless, and advising the Milanese to exercise their constitutional rights by signing a protest to the effect that the subscribers, "although respecting the Sovereign Pontiff as the head of the Church, look upon Rome as the capital of Italy, with one King, Victor Emmanuel." This protest, says the telegraph, already bears innumerable signatures. In a similar spirit a circular has been addressed by the Minister of the Interior to the Prefects, exhorting them to prevent, by the legitimate exercise of their influence with the citizens, the recurrence of such manifestations.

A letter from Rome, alluding to a late rumor of the Pope's death, says, the Mastai family, to which the Pope belongs, is remarkable for its longevity. He has two brothers and a sister older than himself—Count Gabriel, aged 82; Count Gaetano, aged 78; and Countess Isabella, 75. Count Jerome, father of his holiness, died at the age of 84; and the Coun-

ness Catherine, his mother, at the age of 87 to the his grandfather, the Count Hercules avowed with age of 96. It may consequently be truth that they are a long-lived freak of Vesuvius

The Athenaeum says of seventeen wild boars in has been the deſtroyed at Portici. They fell vic- the Bosco of the gases which issue from the times last several directions about Resina. Already vegetation has suffered from the same causes, and fine old Carruba trees, it is observed, have with- erred.

A coronet is being manufactured for the Empress of the French, to be composed of glass globules, illuminated by an electric light ruled by a conductor encircling the head.

Advices from Berlin state that Count de Bernstorff has reconsidered the decision he had taken concern- ing the use of the German language in diplomatic despatches. He has ordered that French shall be used whenever that language is spoken at Court; in other cases the German language is to be used.

Accounts from Irkutsk (Russian Asia) state that the quicksilver has been frozen there since the mid- dle of December.

The Old Government House, Toronto, was burnt on the 12th ult.

Brigham Young, the Mormon ruler of the Great Salt Lake, is now giving another proof of that shrewd- ness for which he has long been notorious. Under his inspiration the Mormons have drawn up a State Constitution, which will be submitted to Congress, with a view to the admission of Utah into the Union as a State. This has long been an object of Mor- mon ambition, but it has hitherto been defeated by the detestation with which the peculiar customs of this singular community are regarded throughout the Free States. The Mormons, however, having proclaimed their loyalty to the Federal Government, think the present by no means an unfavorable mo- ment for securing those privileges which in less trou- blous times they would probably plead for in vain.

LATER FROM FRANCE.—We have it upon the authority of a correspondent of the New York Herald, that the masses are frightened, and, as usual with the French when they become so, they also become cruel. Now they snarl and sneer at the *enkowage* or the Emperor, speak of the millions swallowed up by those persons, and hint at a day of reckoning. I tell you the time is fast approaching when the government must strike some grand coup if it wishes to avoid the fate of its predecessors.

The great idea now seems to be an intervention in favor of the South. I can assure you that such is the Em- peror's hobby, and has been all along. He has been kept back because England would not act before him, and that he does not desire a war single-handed with the North.

The commercial classes in France are in dismay. The diminution of business is really appalling. A few of the northern iron manufacturers are steadily employed, it is true; they are manufacturing arms and war imple- ments—but the regular commerce is quite done. The result is a state of alarm and anxiety that is menac- ing.

DOMESTIC.

There is little of interest or importance on this Continent, either from Mexico, in the U. S., or among ourselves. Rumors are rife, but there is scarcely any thing new in which confidence can be placed. It is said our forces have won a battle at *New Smyrna*, Florida. The system of Guerrilla warfare, on which we shall have hereafter to depend in a very great degree, is rapidly coming into vogue. A small party have made a dash at a picket guard near Jacksonville, Fla., killing four and capturing three of the enemy.

On the 22nd inst, a party of Capt. Owen's Cavalry Com- pany—about 80 in all—killed 42 Federalists, who had landed at New Smyrna, from a Gunboat, took one pris- oner, and mortally wounded two men—in all 45 out of 52, the whole number that landed. Pretty well for only thirty men, especially as on our side there was nobody hurt. Our troops also hung the Negro boy who had piloted the Feds. in. They also recovered seven negroes the Feds. had stolen, and which they agreed to give up on condition of being permitted to bury their dead.

We are anxiously awaiting further intelligence from Genls. Price and Van Dorn, from Island number 10, from Kinston, Fortress Monroe and New-Port-News, at all of which important events are daily looked for. We await with painful anxiety news of the movements of the Virginia—it would seem as if she must soon make a tremendous dash at something.

It is a moment of awful solemnity and suspense. Politically speaking, the whole Country seems to be in a still, dead calm—the calm, we fear, that precedes the earthquake. We are watching events, which must transpire in a few days, with an anxiety which suspends our very breath. Let us prepare ourselves in Christian faith and patience for the upshot. Should Heaven see fit to favor our cause, and grant us the victory, let us receive it with gratitude and humility, not in the proud, vainglorious, boasting spirit which followed the victory at Manassas; but recognizing in it the hand of Infinite Power, Mercy and Goodness; and should the struggle go against us, let us not be too much depressed. We have

just as much confidence now as ever we had, may more confidence than we ever had, that this Country must and will come out of the contest victorious, if we will only be true to ourselves.

It is gratifying to learn that a move in the right di- rection is about being made in the Confederate Congress in regard to Chaplains in the Army. The Senate has passed a bill fixing their salaries at \$100 per month.

A proposition has been before Congress to raise one million of men for the war, and an appropriation of two thousand millions of dollars.

It is now freely admitted that the number of prisoners taken at Fort Donelson, instead of 15,000, did not ex- ceed six.

HAMNER HALL.

A SEMINARY FOR YOUNG LADIES.

MONTGOMERY, ALA.

REV. J. AVERY SHEPHERD, A. M., PRINCIPAL.

IN addition to excellent facilities for a comprehensive and thorough English Course, arrangements have been made for giving instruction, to such as may desire it, in French, German, Italian and Spanish. Teachers have been engaged with whom these languages are vernacular, and whose pronunciation is perfect.

The French Teacher comes highly recommended from Charleston. She has taught in families of rank in Europe, and brings the following well-endorseed testimonial: "Her French style, both in speaking and reading, possesses the utmost elegance."

The Music Department will be under the charge of a gentleman of distinguished ability and courteous manners, who is eminently successful in rendering his pupils skillful performers.

Hamner Hall, when complete, will be one of the largest and most beautiful Seminaries in the country. The main building is now rapidly progressing, and will accommodate a large number of Pupils; but, owing to the extent of the work, it will not be ready for use until the Session is far advanced.

In the mean time, nearly twenty Pupils can be received into the family of the Principal, in the commodious dwelling which is used for the temporary purposes of the School.

The Session begins on the 1st of October, and continues until the 1st of July.

Catalogues, containing full information, will be promptly sent to any address. [90-4]
