**VISION TESTING.
Don't Risk Your Eyes.**

Never select glasses for yourself and never purchase glasses from a peddling spectacle seller. It's a thousand to one that you'll select the wrong glasses. Anyhow such spectacles always have poor lenses and wearing them will injure your eyes. Our instruments for eye examinations are so accurate that a mistake is almost impossible. And we have the lens ground to suit you.

TO THE TRADING PUBLIC

Hendersonville, N. C., October 28, 1903.

The information has been given many people who are willing to testify to it, and we want to give you prices on some of our goods and put you on the inside track. When we fail to do this, we feel that our usefulness is ended, but we are proud to tell you that our business is continually growing, and to say that our business has more than doubled each year. We are getting bigger and bigger, and our goods are growing cheaper and cheaper. We gain new customers every day because we make those high priced fellows howl, and when they can't match us they black-guard us. Every enemy we make with our competitors adds a score of new customers to our list. We are satisfied and happy to be called "Price Cutters" and "Scalpers." We buy for cash and sell for the same. Cash always bobs up smiling, and we open up our hearts. Credit has a hang-dog look (downcast.)

You may ask how we sell our hats so cheap—simply because we bought them at a bargain. We believe in witch-craft; the kind of conjuring that makes us sell cheaper than any of our competitors.
