GUDAN NEDELS BLOW UP STEEL BRIDGES

Pino Guerra Rejects Armistice by Renewed Activity.

TAKES JUAN DE MARTINEZ

Government Forces Unable to Cope With Rebel Chief, Who Demands President Palma.

Havana, Cuba. - All peace overtures were blocked by the refusal of Pino Guerra, the insurgent leader in Pinar del Rio Province, to enter into an arrangement for an armistice. Guerra's answer to the Government's announcement of its readiness to grant an armistice was the blowing up of two bridges on the Western Railway, an English company, the cutting of railway communication beyoud Pinar del Rio City, and an attack on San Juan de Martinez. San Juan de Martinez is in the hands of the insurgents and the garrison, consisting of 100 Government recruits and a small force of mounted rural guards, has been defeated or captured.

The fact that other leaders of the insurrection are willing to agree to an armistice can have little effect so long as Guerra is determined to prosecute the war, and there is slight doubt in any quarter that Guerra can control the situation in his region. His force is reported by all those who have visited him recently as ranging from 3000 to 4000 men, all of them well mounted and some well and others indifferently armed.

The Government force opposed to him, which is under command of Colonel Avalos, comprises about 1000 men. It was reinforced by Lieutenant-Colonel Clews with 150 men and three machine guns from Havana. Colonel Avalos' forces, with the exception of small detachments left at San Juan de Martinez and San Luis, is at Pinar del Rio City, but is without means of transportation to go to the relief of San Juan de Martinez. Not more than 400 are mounted.

General Meenocal said that Guerra evidently had not been informed that the Government had actually, although informally, granted an armistice, adding that a second committee had been sent to him. The fact is, however, that Guerra refuses point blank to accept an armistice except on condition that the last elections for President and Congress shall be That the Government should consent to this is out of the question, and so every prospect points to the continuance of the war.

In connection with Pino Guerra's attitude it is notable that the Liberals have grown more independent. They say that on account of the Government's surveillance and persecutions they will no longer hold meetings, and that it is useless to consider peace under the circumstances.

All regard the blowing up of an Euglish company's railroad bridge as a serious matter and likely to invite international action by Great Britain, or at least an interrogation of the Government at Washington by Great Britain as to whether the former intends to intervene to end war conditions in Cuba.

Landlords Willing to Exchange Old Estates For New-Students Want Universities Open.

Moscow, Russin .- There was a strong upward movement on the Bourse following the publication of New Elections to Get Rid of the Stolypin program. From rembers of the Zemstvo Congress now in session here it is learned that many landlords favor abandoning their present estates in the thickly settled provinces in exchange for tracts in the Urals and Siberia.

St. Petersburg.-The firm note struck by Premier Stolypin in the official communication embodying the whole Government program with its warning to Terrorists and Revolutionists, on one hand, that crime must and would be suppressed at any cost, and to the Reactionists, especially the court camarilla, on the other hand, that reforms could neither be abandoned nor deferred, met with a prompt response on the Bourse, where prices were not merely firm, but were strong, without any symptoms of artificial support.

HUNGRY FOR LEARNING.

Students Will Not Oppose Opening of Universities.

St. Petersburg.-At a meeting of Social Democratic and Social Revolutionist university students it was decided not to oppose the reopening of the universities, which is scheduled for October 14, thereby furnishing a strong possibility that the paralysis of the educational life of the country, which has lasted for two school years, may soon be ended.

Many revolutionary students favored abandoning entirely the obstructive attitude, re-entering the universities and resuming their studies instead of making the universities "temples for the revolutionary movement," which was the motive behind the short and fruitless resumption of work in the universities last year.

Among the student masses there has grown up a feeling of resentment against the tactics which are depriving them of education and a determination to resume studies regardless of any strike decisions.

"Hang them, every one!" screamed one woman, who was red-eyed from weeping. "I am a widow and they stole every cent I have in the world!' Scores of women proclaimed themselves in a similar plight. The temper of the crowd was most bitter against Segal.

Horace Hill, the auditor, who is seventy-five years old and broken in health, will not be arrested. District Attorney Bell says he was merely a figurehead and a tool used by the looters.

Evidence of actual partnership between Hipple, Segal and a clique of directors in the wrecked company has been found by the District Attorney.

These men sank millions in their wildcat ventures and the great part of the millions, it has been discovered by the District Attorney, went into suburban trolley schemes in which they were interested as promoters or stockholders.

As for the speculations of Hipple himself revelations already made indicate that before the investigation of the looted bank is finished he probably will be written down as the star bank thief of the century.

Out of many instances the following are the most sensational:

AWFUL PSORIASIS 35 YEARS.

Terrible Scaly Humor in Patches All Over Body-Skin Cracked and Bleeding-Cured by Cutiours.

"I was afflicted with psoriasis for thirtyfive years. It was in patches all over my body. I used three cakes of Cuticora Soap, six boxes of Ointment and two bottles of Resolvent. In thirty days I was completely cured, and I think permanently, as it was about five years ago. The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the centre a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form heavy dry scale of white silvery appearance, and would gradually drop off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scaly crust would form again in twentyfour hours. It was worse on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or glood warm by exercise, when it would be almost unbearable. W. M. Chidester, Hutchinson, Kan., April 20, 1905."

Engineer Scales Killed at Spencer.

Salisbury, Special.-Clint Scales, an engineer on the Southern Railway died Friday morning at the Whitehead-Stokes Sanitarium in Salibury from injuries received last night at Spencer. Mr. Scales went out of Salisbury Thursday night on No. 40, not as engineer but as a passenger. He intended spending the night in Salisbury and as the train was slowing up at that place he jumped off, not waiting until the train had stopped. There was a string of box cars standing on the parallel track to the main line and Mr. Scales struck against this and was thrown back under the wheels of No. 40. He was badly mutilated, both legs and one arm being crushed. He was brought back to this place and placed in the hospital. Mr. Scales' home was at taken to that place for burial.
