TAX LAND, SAYS GEORGE

Another Cure For Panics and Hard Times

THAT WILL STOP SPECULATION

The Noted Single Tax Advocate Addresses the Conference at the Murray Hill Lyceum—He Advocates the Postal Savings Bank System as a Remedy For the Financial Stringency.

New York, Special.—Henry George, Jr., was the principal speaker at the single tax conference at Murray Hill Lyceum. Others who spoke were Mayor Brand Whitlock, of Toledo, O.; Raymond Robbins, of Chicago, and William L. Garrison.

At the day session a number of resolutions were passed and addresses were made. The conference will conclude with a banquet Tuesday night. Mr. George prefaced his remarks with a discussion of the late financial upheaval, and as a remedy for currency stringency advocated the postal savings banks system. Even this, however, or any other elastic currency plan, would not prevent business depressions, he said, because "the cause of such depressions goes deeper—goes to the root of production, the land."

Iron and Steel.

Chattanooga, Special.—The Tradesman says this week: "Southern steel and iron interests feel the general flurry in business and financial circles as well as other sections. The iron and steel market is very dull. Manufacturers are hopeful that there is soon to be an improvement in conditions. There is a curtailed production in the South, but the inquiry for iron shows a splendid condition in this region. Several furnaces are cold in Alabama. Other states report a curtailed production. There is some complaint as to ear shortage, so that the blowing out of furnaces cannot be charged altogether to the flurry throughout the country. Some good orders are being worked by the cast iron pipe manufacturers, the largest consumers of pig iron in the territory. "The steel interest in the South appears to be in splendid shape. The Southern Steel Company (in the hands of receivers) has all of its plants in operation. With the exception of the new construction work, the plants of the Tennessee Coal, Iron and Railroad Company are also producing large quantities of steel and the various shapes are in good demand."

Germany in Trouble.

London, By Cable.—A financial crisis is impending in Germany now, British financiers think. Commercial authorities liken the situation to the one which caused the recent flurry in the United States and fear the storm may be more serious in Germany than in America. Over-capitalizing has gone farther, while the country lacks America's recuperative powers and wealth. It is pointed out that several German banks have recently failed. Financial houses are trying hard to conceal the fact that stringency already exists, and greater difficulty is being experienced in finding outside capital.

News Notes.

The trial of John R. Walsh, former president of the Chicago National Bank, on the charge of misapplying the bank's funds, was begun.
Extraordinary heavy deposits in New York savings banks is taken to mean that the public is satisfied as to their solidity.
The Philadelphia Mint is working overtime turning out gold coin.

Secretary Taft to Out Trip Short.

Washington, Special.—Secretary Taft, in a cablegram dated Vladivostok, to Major McIntyre, acting chief of the Bureau of Insular Affairs, directed that accommodations be engaged for himself and party on the President Grant, sailing from Hamburg December 7. It is understood that the secretary will make a hasty journey from St. Petersburg to Hamburg and not see either Emperor William, King Edward or President Falieres.

NEWSY GLEANINGS.

THE NEW SLEEVES.
Harper's Bazar, which "Sets the Fashion" in the Special Autumn Fashion Number says: "Really long sleeves are 'in'—longer than any that have been worn in two years! Some of them, however, are developed from the mandarin or other wide-shouldered form. One of these, made in tucked volie, continued full to the elbow, where it began to be fitted in with graduated pleats until it became a practically tight wrist form. Where the bell sleeve continues to be made, as in some of the new jacket forms, it is almost plain over the shoulder, but massed with velvet bands or soutache lines of braiding, and so made to appear ample and even heavy. In jackets, however, this sleeve is now provided with an under-sleeve of white or ecru, tan or khaki cloth, according to the vest, with which it corresponds. Some decidedly smart dresses are given under-sleeves of Swede or dull glaze kid. These are thinly interlined, fit close about the forearm, and are usually bound at the wrist with black satin or silk braid. This touch of black satin, by the by, and a free use of Pompadour ribbon and sashes, are especially fashionable accents in the new gowns."

PAIRS IN PEARLS.

\$8.50 PUNCTURE-PROOF TIRES ONLY \$4.80 PER PAIR
Regular Price \$9.50 per pair.
To Introduce We Will Sell You a Sample Pair for Only 4.80
NAILS, TACKS OR GLASS WON'T LET AIR OUT OF THE TIRE!
NO MORE TROUBLE FROM PUNCTURES.
Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS OR GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.
Two Hundred Thousand pairs now in actual use. Over Sixty-five Thousand pairs sold last year.
DESCRIPTION: Made in all sizes. It is lively and easy riding, very durable and lined with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on a soft or soft road is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented.
We will allow a cash discount of 5 per cent (thereby making the price \$4.56 per pair) if you send FULL CASH WITH ORDER and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination.
We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Dealer, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased with them that you will give us your order. We want you to send us a small trial order at once, hence this remarkable tire offer.
COASTER-BRAKES—everything in the bicycle line are sold by us at half the usual prices charged by dealers and repair men. Write for our big SUNDRY catalogue.
DO NOT WAIT for a bicycle or a pair of tires from anyone until you know the best and wonderful offers we are making. It only costs a postal to learn everything. Write NOW.
