It is only duty and justice to encourage your home paper, extend to it the nourishment to which it is entitled. Pay your subscriptions promptly, and send a few extra copies to your relatives and friends at a distance. They will appreciate the favor and so will we.

The picnic season is now upon us with the usual accompaniment—fleas, mosquitoes, grass chigger and gnats. But there is bushel of fun in a day's outing, anyhow.

"Increase Your Yield Per Acre"
You Can See The Growth
Fertilizers
Virginia-Carolina Chemical Co.

If you want to see dollars grow, feed your fields with Virginia-Carolina Fertilizers. They will "increase your yields per acre," and thus bring down the cost of production, even if you use fewer tons and less labor. We have thousands of strong testimonials from farmers who have tried other makes of fertilizers and assert that:

Virginia-Carolina Fertilizers are by far the best. They will give you crops that will make more money for you. Buy no other, even if some dealer endeavors to get you to buy some "cheap" brand just because he may make a little more profit on that. Of course, that would be to his interest—not yours.
