AFTER FOURYEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md. - "For four years

my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable

compound. Then I felt as though new life had been given me, and I am recommending it to all my friends."-Mrs. W. S. FORD,

1938 Lansdowne St., Baltimore, Md. The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration,

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial. If you would like special advice

FRIEND SAID TO USE CUTICURA

After Specialist Failed to Cure Her

Intense Itching Eczema—Had Been Tortured and Disfigured-Was Soon Cured of Dread Humor.

"I contracted eczema and suffered intensely for about ten months. At times I thought I would scratch myself to pieces. My face and arms were covered with large red patches, so that I was ashamed to go out. I was advised to go to a doctor who was a specialist in skin diseases, but I received very little relief. I tried every known remedy, with the same results. I thought I would never get better until a is the first sentence in North Carofriend of mine told me to try the Cuticura | lina under this form of punishment, Remedies. So I tried them, and after four or five applications of Cuticura Ointment I was relieved of my unbearable itching. I used two sets of the Cuticura Remedies, and I am completely cured. WILL STOP THE BABY FROM STRIKE RIOT AT PITTSBURG

Pressed Steel Car Works Scene of Battles.

Non-Union Men and Police Attacked. Beaten and Shot-Steamer Fired On-Women Join in Warfare.

Pittsburg, Pa.—Strike riots, second only to those of bloody Homestead, occurred at the plants of the Pressed Steel Car Company, at McKee's Rocks, a few miles below Pittsburg, on the Ohio River. Five thousand bitter strikers made a stand against the company bringing in box cars filled with strikers.

At least a hundred persons were injured in pistol fights, by stones or clubs, and at midnight 1000 strikers were grouped about the works, each with a missile or a gun.

Eight persons were so seriously injured in the clashes that they could not be hurried away by their friends. Three of these were taken to the Ohio Valley Hospital. None of them speaks

The others seriously injured are John Farrell, chief of police, shot through the fleshy part of his arm and stabbed twelve times; Benkla Malua, a striker, shot through body, will probably die; Sophia Mezzo, wife of a strike breaker, hit with a brick while trying to get her husband out of the mob, serious; Harry Fouchs, a striker, shot through the arm, bone

in addition to these it is estimated that almost a hundred others were hurt, but all were hurried away by friends under cover.

At least seven women were carried away by friends, but no trace of them can be found. They were foreigners who had taken part in the riot. Their friends fear the law and refused to admit that they were injured.

Dr. Davidson, of the Ohio Valley Hospital, says that he dressed the wounds of nineteen seriously injured persons whose names he did not get, all of whom declined to remain in the hospital. In addition to these scores were attended to by other physicians in the hospital while physicians in the town have been busy binding up wounds.

In addition to a battle at noon and one at 6 p. m., in each of which about fifty people were injured, there was a battle on the Ohio River

The steamer Steel Queen, owned by the Pressed Steel Car Company, trying to land some strike breakers in the mills by way of the water gates leading from the Ohio River. was fired on by 300 strikers concealed on the river bank. The strike breakers and that boat crew were well armed and returned the fire twofold.

More than 100 shots were exchanged before the Steel Queen turned and ran for the further shore of the Ohio River, where the men were disembarked. It is not known how many on the boat were injured. as the place where they were landed is isolated and all soon disappeared.

SUFFRAGETTES REFUSE TO EAT.

They Talk as Much as They Please and Scorn Convict's Garb.

London.-The suffragettes who were sent to Holloway Jail on charges of disorderly conduct while attempting to present a petition to Premier Asquith, are making it lively for the jail authorities.

According to information given out here by the Women's Social and Political Union, the latest batch of "martyrs" are following up the tactics inaugurated by Miss Dunlop, and in addition to refusing to eat, they decline persistently to change their street clothes for the prison garb.

The rules of silence also are ignored, and in short there has broken out a general revolt against the attempts to treat them as ordinary criminals.

LOSS ON CROPS, \$7,000,000.

Half of Wheat Crop Destroyed in Missouri Valley.

St. Louis, Mo .- Estimates place the present flood loss in the Missouri Valley at \$7,000,000. Half the wheat crop has been destroyed. The Mississippi River crest here is 35.5 feet, ranking fifth in height in the last sixty-five years.

The greatest damage was done at the junction of the Missouri and Mississippi Rivers. All day a train carried passengers from West Alton. Mo. One thousand refugees from Missouri points reached Alton, Ill., having been warned by John Kite, who rode horseback through that section at night.

Germany's New Chancellor. Prince von Buelow retired from the Chancellarship of Germany and was succeeded by Dr. von BethbannA New Agricultural Conscience.

We must develop a new agricultural conscience in this country. We must come to the time when a man will be as much ashamed of a galled, gullied, unkempt field as of a dirty, ragged, ill-smelling coat; as much ashamed of a thin, starved, mistreated hillside as of a thin, starved, mistreated horse, and when he vill take as much pleasure in restoring a worn-out field to life and comeliness, making the waste places glad, as he would in feeding a halfstarved brute itself mistreated by some brute in human form. The Almighty has given the land as a heritage for all generations, and we must repeat that the man who abuses and wastes this heritage (in which the Lord gives him only a life interest after all) is just as culpable, just as guilty, as a guardian who misuses the heritage of orphaned and defenseless children entrusted to his care. GETTING WEIGHED.

One Patron Whose Motive Might Have Puzzled Any Weighing Machine.

If the weighing machines that stand around in public places with mouth ever open for cents could talk odd tales could they tell of the many and varied people that step upon their platforms-of the stout lady who steps down with a smile glad that she has lost one pound out of 300, of the stout gentleman who fumes because he has gained one, of the slim gentleman who steps up with a forty pound suit case in his hand and is astounded to find himself gaining weight so rapidly, of the merry parties of young men and young women who, some plump, some lean, step up one after another: of the proud parent who sets little Willie there and then little Ethel, of the keen small boy who tries to get his grandfather to let him step up before the old gentleman steps down so that they can both get weighed for a cent, and all that sort of thing.

In short the weighing machine meets all sorts and varieties of people, and it comes to know them all, or nearly all; and it knows as a rule just what prompts them to weigh themselves, whether it is idleness, interest, curiosity, fear or just fun. But probably it would puzzle even a weighing machine, though it knows so many people, to tell just why a woman walking along a street on a rainy night and carrying an umbrella should halt at a machine standing out on the sidewalk and step up in the rain to weigh herself.-New York Sun.

HOME TESTING A Sure and Easy Test on Coffee.

To decide the all important question of coffee, whether or not it is really the hidden cause of physical ails and approaching fixed disease, one should make a test of 10 days by leaving off coffee entirely and using well-made Postum.

If relief follows you may know to a certainty that coffee has been your vicious enemy. Of course you can take it back to your heart again, if you like to keep sick.

A lady says: "I had suffered with stomach trouble, nervousness and terrible sick headaches ever since I was a little child, for my people were always great coffee drinkers and let us children have all we wanted. I got so I thought I could not live without coffee, but I would not acknowledge that it caused my suffer-

"Then I read so many articles about Postum that I decided to give it a fair trial. I had not used it two weeks in place of coffee until I began to feel like a different person. The headaches and nervousness disappeared, and whereas I used to be sick two or three days out of a week while drinking coffee I am now well and strong and sturdy seven days a week, thanks to Postum.

"I had been using Postum three months and had never been sick a day when I thought I would experiment and see if it really was coffee that caused the trouble, so I began to drink coffee again, and inside of a week I had a sick spell. I was so ill I was soon convinced that coffee was the cause of all my misery, and I went back to Postum, with the result that I was soon well and strong again and determined to stick to Postum and leave coffee alone in the future." Read the little book, "The Road to Wellville," in pkgs. "There's a Rea-

son." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Progress of a Severe Case of Tetter.

Dr. J. T. Shuptrine, Savannah, Ga.

Dear Sir:—I am glad to say that three or four boxes of Tetterine I ordered of or lowr boxes of Tetterine I ordered of you, I have personally used, have given me more relief and seemingly a permanent cure of Totter and Eczema than I have had for 25 years for which time I have been tortured and tormented, with some dreadful skin disease on my thighs and in my groing also on my left hand and in my groins, also on my left hand, and had as I thought destroyed the natural growth of two of my finger ne'ls. I now have one of them absolutely cured and looking as natural as I could ask for. The other one very much improved. also had it on my feet and they are cured. In the twenty-five to thirty years I have been embarrassed and tortured with skin trouble I have consulted and taken medicine from many doctors, and bought and used many different kinds of ointments, but none gave me relief and satisfaction as your Tetterine has given me. I would not have had my two finger nails just as they were for \$106.00.
